

CAPTURE OF JUTE LADEN SHIPS SENDS PRICE OF BAGS HIGHER

HOP MARKET HAS STRONG TONE WITH NO SELLING HERE

Growers Are Not Inclined to Let Go Because of the Expectation of Still Higher Values; World's Crop Reported Short, Generally.

The exceedingly strong tone in the hop market here is attributed directly to the European war situation. While the market is nominally very firm, practically no business is passing here, although some activity is still showing in California at better prices.

The fact that the bulk of the usual world's supply of hops is in danger in Europe owing to the production of harvesters, as well as the lack of transportation facilities, has caused unusual strength to prevail in the trade here and elsewhere throughout the United States and England.

English hop prices continue to show advancing tendency with recent prices sharply higher. There is more or less activity in the production of hops in the United States, but the troubles abroad cannot help but force American hop values higher.

The entire world's crop, even under the best of conditions, is much smaller than a year ago. The Oregon crop estimate is being almost daily revised, owing to the continued weather, which has curtailed the crop production. The crop in the Pacific Northwest has been ruined in a similar way, and the ravages of the red spider which has brought down all further expected production. The Yakima section also will likely have a bigger crop than a year ago, because of the weather, which has curtailed the chief source of the trouble with this year's crop elsewhere is not apparent there.

Under existing conditions there is practically no inclination among local producers to contract their crops. There is more or less guess as to the probable price that will rule for hops after the picking but the general ideas of the trade, as well as of producers, are that higher figures will be forced.

CHICKEN MARKET VERY FIRM

Market for chickens is showing strength at the close of the week's trading along Front street. There were but limited arrivals, and these were quickly picked up. The price remains at 15c a pound for hens.

MEATS ARE GETTING SCARCE

While the demand is by no means extensive, the call for country killed meats is much better than offerings. Prices are, therefore, showing the extreme marks for both veal and hogs today.

GLUT OF TOMATOES HERE

There is a glut of tomatoes on the local market, and California stock is still in abundance, and there are very liberal supplies from the valley and from the Dalles.

SUPPLY OF CORN IS HEAVIER

Rather heavy supplies of green corn were offering along Front street today, and values were generally demoralized. While the trade was not advancing as high as \$1.25 a sack for supplies, the bulk of the business was from 75c to \$1.00.

LEMONS TO ADVANCE AGAIN

With a further advance in the price of lemons by the combination of California producers, local prices were generally about 10 degrees north of Spokane. The trade here is simply following the forced advances made by the producers.

COFFEE MARKET GOES DOWN

Latest advices from New York indicate that there was not the slightest excuse for the advance in the price of spot coffee, either there or elsewhere. Maximum temperature in Portland tomorrow, about 74 degrees.

SHIPPERS' WEATHER NOTICE

Protect shipments as far north as Seattle against maximum temperatures of about 70 degrees; northeast to Spokane, 68 degrees; southeast to Boise, 64 degrees; south to Ashland, 60 degrees. Maximum temperature in Portland tomorrow, about 74 degrees.

JOBBER PRICES OF PORTLAND

These prices are those at which wholesalers sell to retailers, except as otherwise stated: BUTTER—Country cream, 24c; state, 23c; fancy, 22c; state, 21c; city cream, 20c.

SENSATIONAL RISE IN SWEET MARKET IS FIRMLY HERE WITH A SAE AT THE TOP

BUTTER PRICE IS TO BE LIFTED UP TO 35 CENTS ON MONDAY

Great Shortage in Cream Supply Due to Dry Weather Forced But Market Here 2 1/2c Per Pound Higher; Cannot Fill Orders.

An advance of 2 1/2c a pound will be made in the price here of creamery butter Monday morning, making the new quotation for city prints 35c a pound. The advance, which has been forecasted in these columns, is due directly to the fact that the dry weather has caused a greater shortage in the cream supply, thereby lessening the shipment of cream and the output of butter.

One of the leading local creameries announced today that the advance was absolutely necessary, as it has not been able to secure sufficient cream to take orders in the usual manner. The orders received several days ago are still unfilled.

Advertisement Was Fake Is Allegation

Man Files Suit to Secure Money Which He Says Was Secured From Him by Misrepresentation.

Alleging that an advertisement in the Oregonian of April 24, last, was a fake and part of a bunko game, Hans P. Jensen has filed suit in the circuit court for \$450 damages against C. A. Gorrell and wife. The advertisement, according to the complaint, was as follows: "Young man wanted; steady, pleasant position, experience not necessary; pays \$150 per month; small room; investment; fully secured. Call room 7, 291 1/2 Morrison street."

Busy Day in the Circuit Court

Oregon City, Or., Aug. 15.—The Portland Railway, Light & Power company filed two suits in the circuit court Friday for the condemnation of rights of way. The first suit is against Sarah F. McMillan and John F. Soule and Clackamas county for a certain tract of land in section 11, township 3 south, range 3 east of Willamette meridian.

Railroad Delegates Home From Chicago

D. W. Campbell and M. J. Buckley Express Perfect Faith in Wage Question Board of Arbitration.

Confident that the award of the board of arbitration that is to pass upon the wage claims of the engineers from the lines west of Chicago will be satisfactory to both parties, D. W. Campbell, assistant general manager of the Southern Pacific company, and M. J. Buckley, general superintendent of C. & N. Co., were back at their desks today after nearly six months of conferences in Chicago.

Chicago Wheat Has a Bad Break Today

Market Closes Severely Lower With a Sharp Loss in the Price Abroad.

Chicago, Aug. 15.—There was a sharp break in the wheat market here today and while the market closed lower than the opening, the loss was not so great as it was during the last hour of the trade. Closing figures were a net decline of 2 1/2c to 2 3/4c from yesterday.

MANY VACANT LOTS POSTED

Commissioner Dieck Reports on Season's Weed Cutting.

Over 11,000 vacant lots in the city have been posted with pre-cutting notices by the department of public works. From most of the lots the weeds have been cut by the property owners, but the pavement has never been accepted by the city, as it was not laid according to the requirements of the city. It was not laid as thick as the city requires.

HALEY STREET EXTENSION

City Engineers Allow \$7250 for Zion Church Property.

In assessing the damages for property proposed to be taken for the extension of Halsey street, at East First street, the city engineer's department has allowed the Zion church \$7250 for its property. An ordinance providing for the extension on this basis has been introduced in the city council and passed to third reading.

Fire Apparatus Hits Post Answering Call

U. S. Carriage Works Sustains a Loss of About \$2000 at an Early Morning Hour.

Fire started in the rear of the U. S. Carriage Works, at 255 Couch street, this morning at 6 o'clock, causing damage by fire and water of about \$2000. As the automobile hook and ladder truck was turning Sixth and Couch streets, the heavy vehicle struck the lamp post, breaking it off and knocking it into the window of a jewelry store at 41 1/2 North Sixth street. Several articles in the window were broken.

AFFECTS PROPERTY OWNERS

City May Order Pavement in Ladd Addition Removed.

In a written opinion, City Attorney LaRoche advised City Commissioner Bigelow today that the property owners in the southern portion of Ladd's addition have valid claims for damages against the Barber Asphalt Paving company for laying pavement not in accordance with city requirements, that the city can force the removal of the pavement at the expense of the paving company. The Ladd estate in 1907 obtained a permit from the city to enter into a private contract with the Barber Asphalt Paving company to pave the streets in Ladd's addition. The paving company was to have new pavement maintain the pavement in that portion of the addition north of Ladd avenue for a period of 10 years, but it appears such an agreement does not exist as to the paving south of Ladd avenue. This pavement is now reported in very bad condition.
