For Second Time in Two Weeks Cap'n Bill Lets Man Tally on Fly.

#### KLAWITTER IS A PUZZLE

Keeps Champions Away From Plate, Although They Make Five Eits in Last Two Prames.

Bill Rodgers' mental carbureter had the wrong mixture yesterday, and one Oakland tailenders in the first game from third base on an infield fly. In this respect the hard working Portland captain is a unique personage. no tally in sight.

However, Rodgers' three costly errors were not to be overcome, the two double plays in the last two frames putting the game on ice.

With one out in the fifth, Klawitter started the winning of his own game hy cracking a hard one through short. Middleton was safe when Rodgers let a grounder roll through his legs. Then Guest dropped a fly back of second base that Doane couldn't get in the wild scramble. Kaylor raised a fly to Rodgers that Bill backed up on. Klawitter, who is no speed demon, started for the plate, Rodgers started to run in with the ball and then winged it badly to Fisher, Klawitter scored, and before Fisher could head off the pill Middleton was across and Guest on third. Ness made the last out.

In the eighth inning, with two out and Gardner on first, Fisher pegged beautifully to Rodgers to head off steal. Umpire Hayes waved Mid out, but Rodgers dropped the throw. Then Zacher singled through short, and Middleton scored. With two on and two out in the

ninth, with one on and two out, Kores hit into a double play.

The Oaks played errorless ball, while

Lober and Lush furnished the fielding sensation stuff for the Beavers. Score: OAKLAND.

# No War Prices on Goodyear Tires

All advances due to doubled cost of rubber are withdrawn to day on Goodyear Tires. This applies to dealers and consumers.

We have secured from abroad sufficient rubber at former prices to warrant this announcement.

Effective everywhere today Goodyear prices are the same as they were before the war.

### Which Will You Take? Tires Tires At Extra Prices

Nowadays, 16 makes of tires are costing more than Goodyear prices.

Some makes cost one-third more.

One-third more than No-Rim-Cut Tires-the world's topplace tires—the tires that outsell any other.

#### Consider what that means.

It means \$5 to \$15 extra on each tire you buy. It means one-third more tire upkeep-unless they are better tires.

It means that three of the extra-price tires cost as much as four No-Rim-Cuts.

It means that the same price—or less—would buy a halfinch wider Goodyear.

#### Extra prices are unjust.

No man knows of any way to build better tires than Goodyears. We spend \$100,000 yearly in our efforts to find a way.

In the four ways listed at the right, no other tire equals the Goodyear.

Men have bought four million Goodyears. They have tried them out. As a result, they buy more of them than of any other tire.

That any tire can be worth one-third more is simply unthinkable.

With Extra Features

In No-Rim-Cut Tires—at Goodyear prices—we give you these four extra features. Not another tire at any price offers you any one of them: The No-Rim-Cut feature—the one faultless way to end rim-cutting. It completely wipes out the greatest source of

Tires used to be the highpriced tires.

But we gave you the savings due to multiplied output. No-Rim-Cut Tires now cost half the oldtime prices. And, with all their exclusive features they cost you less than 16 other makes. Please find them out.
