

FREDERICKS DEFEATS KEESLING IN PRIMARY RACE FOR GOVERNOR

California Elections Show Heney Leading Rowell as Progressive Nominee.

PHELAN DEFEATS GRIFFIN

U. S. Shortridge Leads Congressman Known for Republican Senatorial Nomination So Far.

(United Press Leased Wire.) San Francisco, Aug. 26.—Incomplete returns received here up to 7:30 a. m. today show that John D. Fredericks of Los Angeles had defeated Francis V. Keesling, his closest competitor, for the Republican nomination for governor. Hiram W. Johnson, unopposed, was nominated for the Progressive nomination by the Progressive party. Fred H. Hall and John B. Curtin, rival Democratic candidates, are making a neck and neck race, and the result probably will be in doubt until the count is completed.

Fredericks and Johnson both will have John H. Eichelman as their running mate for lieutenant governor.

Eichelman was nominated by both the Republicans and Progressives. Incomplete figures indicate that Samuel M. Shortridge is leading Congressman J. B. Knowland for the Republican senatorial nomination. **Heney Leads Rowell.** Francis J. Heney was leading Chester H. Rowell for the Progressive senatorial nomination. Rowell is expected to maintain his advantage. James D. Phelan of San Francisco defeated Thomas P. Griffin of Modesto for the Democratic senatorial nomination. Incomplete returns indicated the following other candidates for state and judicial offices were nominated: Secretary of State—Frank C. Jordan, Republican; F. J. O'Brien, Progressive; Ethel Lynn, Socialist; Gabrielle T. Stickney, Prohibitionist. **Webb is Renominated.** Controller—John S. Chambers, Republican, Progressive and Democrat; A. E. Briggs, Socialist; Horace Johnson, Prohibitionist. Attorney General—U. S. Webb, Republican, Progressive and Democrat; W. B. Dunn, Socialist; J. H. Blanchard, Prohibitionist. Treasurer—F. W. Richardson, Republican, Progressive and Democrat; G. W. Wood, Socialist; Albert Spalding, Prohibitionist. Surveyor General—W. S. Kingsbury, Republican, Progressive and Democrat; J. H. Kendall, Prohibitionist. Chief justice of supreme court—F. M. Angeioti and W. M. Conley (non-partisan). Associate justice supreme court—J. D. Murphy and Lucien Shaw (non-partisan).

(Continued From Page One.) 54 passengers and 65 members of the crew on the Sampson.

Victoria Kept Afloat. The bow of the Victoria was slightly damaged. Slips carpenter patched up a small hole and she easily kept afloat. The Admiral Watson, sister ship of the Sampson, hastened to the scene of the wreck and conveyed the Canadian vessel to Seattle. Of 19 structural ironworkers who were aboard the Sampson, a man who was called "Scotty" is reported missing. None of his companions know what his last name is. The Admiral Sampson was built in Philadelphia in 1898. She has been in the coast service for six years. She was a steel steamer of 2262 tons, 280 feet long, and 26 feet beam. The Princess Victoria will go into drydock at Seattle for repairs before resuming her run this port and Vancouver and Victoria. Owing to the great depth of water in which the Admiral Sampson went down, it is not thought probable that efforts will be made to raise the vessel. **One Thrilling Escape.** One of the thrilling escapes was that of Miss Claire Buor, a Seattle school teacher, en route from Ketchikan. Her rescue was due to some one on the Princess Victoria throwing a rope, and to the fact that George Peterson of Centralia, first seized the rope and then the school teacher. Both went under, but Peterson gripped Miss Buor with his legs and held to the rope. Choking and strangling they came to the surface and a lifeboat picked them up. J. H. Varley, an iron worker bound to Juneau, told a graphic story of his experiences in the few minutes following the crash of the Sampson, on which he was a passenger, and the Victoria: "I got out on deck in a hurry after the crash," Varley said, "it was getting light, but the air was thick with fog. I made out, just forward of the Sampson, the smokestack, the sharp bow and three masts of a ship—the Princess Victoria. It was—well, she had sliced the Sampson half in two. "We'd been rammed on the starboard side, and as I looked down over the side I saw Fete Curtin and Hank Fuller, pals of mine, struggling in the water. **Rescued His Pals.** "I threw them a line and got them aboard and we turned to do what we could for others. "Still another iron worker, there were 26 in our party, and all bound for a job in Juneau, told me that there was a man caught on the bow of the Princess Victoria, which had worked loose somewhat from the wedge in the Sampson. "We looked over and down and saw the poor fellow caught in wreckage which slung to the anchor chain of

CORONER'S JURY WILL INQUIRE INTO DEATH OF CYCLIST'S VICTIM

Inquest to Determine Whether Blame Exists for Accident in Which Girl Lost Her Life

An inquest will be held this afternoon at 1:30 o'clock to determine whether blame exists for the motorcycle accident that caused the death of Mary Fairchild, an employee of the Oregon Packing company. Cedric Anderson, 1087 East Grant street, was driving the cycle that struck the woman at East Eighth and Belmont streets. A fracture of the skull resulted in death three hours after the injury. Miss Fairchild lived at the Montgomery apartments. She had been at lunch and was returning to the packing plant, walking south on East Eighth street. As she reached the center of Belmont street, Anderson and Robert V. Baker, 770 East Portland street, south came west on Belmont. Eye witnesses differ relative to the accident. Some say the woman hesitated after passing the center of the street and started backward, while others declare the motorcycle was going at high rate of speed and ran down the woman, who had no chance to get out of the way. Anderson related to Motorcycle Officer Coulter that he was going at a moderate speed, but that he stopped before hitting her, but thought she would pass safely. He said she stopped, stepped back, then stepped forward. He awarded his cycle several times in an effort to dodge her. When the cycle hit the woman her clothing caught on the pedal and she was dragged about five feet before the machine was stopped the woman was unconscious. An ambulance hurried her to the hospital. The motorcycle officer took Anderson and Baker to the police station to be detained while preliminary investigation was made. Baker was allowed to go home in a few minutes, as he was riding on the tandem seat and had nothing to do with handling the cycle. Anderson was kept until late in the evening, when Deputy District Attorney DeLoach asked him to go home upon promise to appear at the inquest. **Mrs. Fairchild was 49 years old and has two sisters in Portland. They are Lena DeLoach and Mrs. Milda DeLoach. A brother lives near Fairdale, Or. Funeral arrangements await the outcome of the inquest, which will be held by Coroner DeLoach at the undertaking parlors of Dunning & McEntee.**

CITY COMMISSION TO GIVE A FAIR TRIAL TO PHONE SERVICE PLAN

Action Is Postponed on Two Wire Five Party Resolution for Time Being.

Rate Will Be Considered Additional But Not Substitution for One in Franchise.

Action was postponed by the city commission this morning on Commissioner Daly's resolution requiring the Pacific Telephone and Telephone company to establish its two wire five party service, as it was deemed advisable to first give the measured \$1.50 a month service a trial. It was decided, however, that a rate in excess of \$1.50 is in no sense a substitution for any rates contained in the original franchise but instead is to be an additional rate.

R. D. Carpenter of Meier & Frank's Store Makes Suggestion to Ad Club.

That the present European war will mean the creation of many new manufacturing industries in this country is the belief of Will Lipman, vice president of Lipman, Wolfe & Co., who has just returned from a five weeks' trip to the east. "Importation of goods is cut off from France, Germany and Austria and none can tell just what we may get from England. Where some classes of goods have been imported almost exclusively from Europe the American demand must either go unsatisfied or be supplied from American factories. We have a splendid chance to build up industries in a number of lines in this way. There are many things, however, with which we shall have to do without. "As far as the department store business goes, there is a mad scramble for European goods for fall and winter. We are very fortunate in that we did our buying earlier than usual and have received most of our stuff. "The war has hit industries using chemicals and dyes hardest of all. Practically all the dyes used in the country of the better sort come from Germany. The supply is now cut off and the price of dyes which formerly sold for 9 cents a pound has advanced to \$1.25. Big factories that ordinarily bought their dyes in ton lots are now grabbing up five and

HALEY STREET EXTENSION

City Council Had Visit From Recall Promoter. C. E. Gibson, chairman of the recall committee, who is seeking to recall Mayor Albee and Commissioner Dick today, was met by the city council this morning in opposition to the extension of Haley street to the city limits. The city council passed an ordinance this morning providing for the extension. If the proposed improvement is reinstated it will be taken directly into the courts and there the amount to be received by the church people will be determined.

ITALIAN SAILING IS CANCELLED AT N. Y.

New York, Aug. 25.—The sailing of the steamship Oceana, scheduled to leave this port August 29 for Genoa, was canceled today by the Delaware & Hudson Steamship company. The company's agent in Italy, it is stated, has advised that the vessel be held in New York.

COMMITTEE SELECTED TO ORGANIZE A RED CROSS CHAPTER HERE

R. D. Carpenter of Meier & Frank's Store Makes Suggestion to Ad Club.

Due to the activity of R. D. Carpenter, assistant manager of Meier & Frank's, Portland is in a fair way to have a chapter of the American National Red Cross soon. At today's Ad Club luncheon, Mr. Carpenter made a motion that a committee of five be appointed to immediately get in communication with the national directors of the organization at Washington, D. C., for the purpose of having the Portland chapter created. The motion was passed. "Portland has no chapter of the American Red Cross, and it is time she did have," said Mr. Carpenter. "Virtually every large city in the United States and in many smaller ones there are chapters which aid in doing the wonderful work this organization has been doing in the past and in doing it in the future. The war of Europe is involved in bloody war. "The chapters provide the machinery to carry on this work. They are the means by which funds are raised to carry on the work of the Red Cross in caring for the suffering and needy. "The committee which was authorized today will write to Washington and secure the list of Oregon members and with them as a nucleus we will then be in position to go forward with organization. "I was a member of the San Francisco chapter and during the earthquake saw the great work for good carried on by it and I am convinced that in Portland we should have and can have an effective chapter."

BUDGET ESTIMATES FOR NEXT YEAR WILL BE KEPT DOWN

"Economy" Will Be Kept Down. In the preparation of the budget estimates for 1914, in Mayor Albee's department, instructions to this effect were given to the heads of his departments by the mayor this morning. They follow: "Please start the compilation of your annual budget estimate at once, and for presentation to the budget committee at an early date, and as 'economy' is to be the watchword, you may be guided accordingly."

WANT TO DEFER ACTION

Appearing before the members of the city council yesterday afternoon, Robert T. Griffith, president, and the members of the local board of directors of the Portland Railway, Light & Power company, urged that the city postpone action on number of proposed street assessments. The contemplated improvements will cost the company for paying alone, it was said, more than \$100,000. The matter was taken under advisement.

CITY GETS GOOD PRICE.

For one year the city is to receive gasoline at a cost of not more than 14 cents a gallon, and should the price of gasoline go below that figure the city is to receive the benefit. Such are the provisions of a contract made between the city and the Associated Oil company by the council this morning. The order is for 50,000 gallons and the price is subject to a 2 per cent discount. The bid of this company was the lowest that came in and the Standard Oil companies.

NEW SYSTEM TO BE TRIED.

An innovation in plans and specifications for buildings has been introduced in this city at the invitation of Commissioner Robert G. Dieck and will be what is known as a "quantity survey" system. The plan will be given in the final plans for the new city hall now under way. Estimates are to be made in the plans for the amount of each material to be used so that the contractor in bidding on the structure will bid on each article in addition to the building as a whole.

TO INSPECT BRIDGES.

Building Inspector Fiamma, Fire Chief Dowell and Deputy Fire Marshal Boardman are the members of a committee to investigate the fire hazards to the bridges crossing the Willamette river. These were named in a motion made by Commissioner Bigelow this morning and adopted by the council.

SUIT HELDS UP SALARIES.

The salaries of two meat inspectors employed by the city are held up owing to a restraining order against the meat ordinance, now City Attorney L. Roche is to be called upon to find a way so that the men can have their money.
