POTATOES OFFERED

MORE FREELY AND

Slightly Decreased Demand Is Showing Here and Values Are About Nickel Off-Later Market Cause of Concern.

With somewhat greater supplies offering from home as well as Idaho and Washington points, there is a slightly easier feeling in the potato trade here, no more, perhaps, than a nickel a cen-

As yet the local stock is not showing sufficiently good quality to bring extreme values. Idahos are selling at \$1.40 generally, Oregon \$1.25@1.35, And Washington \$1.35 for best Yak-

mas Farmers are beginning to offer po tatoes from the local section direct to retailers in a limited way, but as sizes are generally small there is not much inclination to take hold especially when better sizes are obtainable from other sections at practically the same

The fact that California has a very good crop of potatoes this season, as a regards quality and quantity, is causing some concern among the trade here, because even with a short crop at home, unless there is a good outside demand later in the season, there will be a surplus here.

EGG MARKET IS FIRMER.

With continued heavy supplies of celery coming forward, the local mar-

Great scarcity of oysters continues in the local market. Native stock is scarce and high at Olympia that ly the shelled stock is being sold re. Oystermen are using the shells

because of the liberal state over from last week.

Country-killed hogs and veals remain quiet at former prices.

Butter market is just holding its own, with some talk of a reduction on the sound.

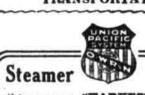

Supplies of local Concord grapes are increasing, but demand is good at for

Hood River, Or., Sept. 28. — Apple picking in Hood River valley has begun in earnest. About 2000 pickers, sorters, wipers and packers are engaged in the harvesting of the Hood River apple crop that will total 900,000 hoves. Several improved apple gradboxes. Several improved apple grad-ing machines have been invented durobsters, 35c lb.; silver smelt, 8c; salmon ing the past year and are now being used in the large orchards. One of these machines will take the place of approximately four people.

The apple crop is earlier this year than in former years on account of the than in former years on account of the long dry spell during the latter part of the summer. Gravensteins have all been gathered and the most of them have been shipped to eastern points. Ben Davis are now being picked and packed for the Alaska trade. Kings and Jonathans, the early fall apples, are extra large this year, and are now and Jonathans, the early fall apples, are extra large this year and are now being packed out and hauled into the warehouses and storage plants at the rate of about 5000 boxes per day, which will be materially increased as the season advances. More care is being taken this year in the packing of the fruit, only the very best apples will be wrapped and packed for the eastern and export trade. A large quantity that have heretofore found their way into the markets as cooking apples and "C" grades, will be taken to the vinegar plant and cider factory that will be operated day and night in eastern and export trade. A large quantity that have heretofore found their way into the markets as cooking apples and "C" grades, will be taken to the vinegar plant and cider factory that will be operated day and night in order to consume the lower grades of fruit. Special pains is being taken this year to place the better grades of fruit into storage as soon after they are picked as possible. Experiments made by chemical cold storage plants are picked as possible. Experiments made by chemical cold storage plants of Hood River in previous years has proven that in order to obtain the best results in the preservation of the apples it is essential that the apples storage as soon as they Tacoma Banks.

Slight weakness was shown for 1529 quite good.

ery, and barley is weaker generally. The trade here is somewhat conerned at the immense amount of stuff Extreme weakness was shown for that is being taken out of Pacific northwest wheat supplies by Europe cattle in the North Portland yards for the day, In the first place there was a much heavier run of stuff than had heen generally systems. and other sections. While the total crop of wheat in the three states is been generally expected, totals reachestimated at 66,000,000 bushels, about ing 1329 head, compared with 1302 a 6,000,000 bushels of erased from the estimate, because it is grown in sections that do not supply tide water markets. About 5,000,000 bushels of this is in Idaho, which usually ships to Utah and Colorado, and 1,000,000 in the Klamath country, and efforts to sell carload lots at the reduced price were futile at the start.

The extreme bearish position taken by killers in the cattle market at this time is said to be due principally to the fact that of late there has been little movement in the fresh meat trade. To some extent this is said to which either consumes its entire prod-uct or ships to Sacramento. This in its treasury, according to the semi-leaves a crop of not more than 60,000. monthly report of William Adams, city

with.
With the export demand likely to little movement in the fresh meat trade. To some extent, this is said to continue liberal during the remainder of the season, millers' stocks are in be due to the holding up of prices to the extreme mark by killers, although danger. Unless they soon awake to the seriousness of the situation they danger. the livestock price has shown substantial reduction of late.
At Chicago there was a weaker tone in the cattle trade for the day, with a loss of 10c in the price.

Kansas City cattle market was weaker and lower with a loss of 10c. are likely to run afoul of an extreme shortage in supplies later. The lack of heavy buying by millers is attributed generally to their inability to secure satisfactory prices for their straight and cutoff.
