Washington, Oct. 1.—It was learned from an official source here today that Sir Edward Grey, England's foreign minister, and Ambassador Page either today or tomorrow will discuss in London questions arising from Great Britain's announced intention of seizing goods which may be classified as conditional contraband of war even when such shipments are carried in American ships and consigned to neutral ports.

England notified the United States that it would not interfere with shipments of foodstuffs from America to Holland in neutral bottoms.

After a conference here today between Ambassador Spring-Rice and Secretary of State Bryan, the state department issued the following statement:

"It is understood the British government intends to revise the proclamation regarding contraband and that meanwhile, in neutral ships, goods such as foodstuffs consigned to Holland will not be treated as contraband."

It was understood that whenever the British raise the question of the destination of American goods, the showing of clearance papers to Holland ports will be considered sufficient. It was denied that Ambassador Spring-Rice had advised the state department that England intended to seize conditional contraband destined for Germany and Austria even though such consignments are carried in American ships and consigned to neutral ports.

Ambassador Page cabled the state department that his conference in London today with Foreign Minister Grey was "quite satisfactory." This was interpreted as meaning that England had granted concessions or assurances preventing embarrassing results.

Car Service Causes Protest.—An informal hearing will be held by the state railroad commission Saturday morning at 10 o'clock regarding the cutting of the Beamount car service from all day through service to stub service during the quiet hours of the day. The Beamount Push club took the matter up with the commission after a meeting at which the company was roundly scored for attempting to reduce the service. Residents of Beamount, Rossmore and portions of Rose City Park are up in arms over the proposed change.

Pedestrian Caused Fire.—Fire at 5:30 o'clock this morning threatened the grocery store at 477 Williams avenue. It was reported to the police that each morning about 5 o'clock an early pedestrian turns up the gas lamp in order to stand under the awning and read his paper. This morning he turned the gas too high. Damage of about \$50 resulted.

DUBLIN POSTERS SAY NATIONALISTS OPPOSE WAR WITH GERMANY

Irish Times Says 13,000 Out of 18,000 Irish Recruits Are From Ulster.

(United Press Leased Wire.) New York, Oct. 1.—Incoming Atlantic liners today brought a number of Irish newspapers. They indicate that Ireland is far from being unitedly in favor of the war against Germany.

The Irish newspapers say that Ireland is placarded with seditious posters and that attempts to persuade the Irish to enlist had failed. The Irish Times asserts that only 13,000 Irishmen, including 13,000 Ulsterites, have enlisted. All Nationalists, the paper declares, have refused to fight the Germans.

One of the placards posted in Dublin, according to the newspapers arriving today, read as follows: "Kitchener whines that he is disappointed because the young men of Dublin do not join his army. Thank God that they don't."

The Irish constabulary was said to be investigating the posting of a placard in the Duncannon district which read: "Germany is nothing to us in herself, but she isn't our enemy. Our blood and our miseries are not upon her head. But who can forbear admiration at the spectacle of the German people, whom England has ringed about with enemies, standing alone, undaunted and defiant against the world in arms. If they fall, they will fall as nobly as ever people fell, and we Celts may not forbear to honor a race that knew how to live and how to die as men. We, too, in Ireland, were once men. Let us be men again and agree to defend our country for ourselves. Let us be slaves and offer to defend it for foreigners, and he will mock God who hereafter prays to Him to save Ireland."

Electric Shock Is Fatal to Digman

Ontario Man Was Moving Hay Derrick Which Came in Contact With Heavy Charged Wire. Ontario, Oct. 1.—D. G. Digman, who was badly injured Tuesday by coming in contact with a live wire, died about 7 o'clock Wednesday night at Holy Rosary hospital, never having regained consciousness. Digman was moving a hay derrick on the Seely place just west of town and was carrying the hay fork in his hand while driving the team attached to the derrick. The top of the derrick came in contact with a high tension wire on one of the lines of the Idaho-Oregon Light & Power company. The unfortunate man was held by the wire and frightfully burned, until assistance came, unhitched his team and hitched it to the other end of the derrick and pulled it away from the wire. Digman was about 26 years old and leaves a wife and child. His parents and other relatives reside here.
