

DEMOCRATIC REPORTS FROM FIRST DISTRICT HIGHLY ENCOURAGING

Frederick Hollister, Congressional Candidate, Making Vigorous Campaign.

REPUBLICANS INTERESTED

Inquiries Received Indicate General Feeling on Part of People to Give President Cordial Support.

Frederick Hollister, Democratic candidate for congressman from the first district, is making a strong campaign for election, and reports received at Democratic state headquarters indicate that he is meeting with remarkable success.

"The many and very favorable reports coming in from all sections of the first congressional district regarding the campaign of Mr. Hollister are astonishing to us," said G. Y. Harry, who has active charge of the Democratic state headquarters.

"Every mail is bringing requests for literature bearing on the congressional race, and these requests are not all coming from Democrats, either."

"There seems to be sweeping through the minds of the people all over the state a determination to uphold the hands of the president. The people are reasoning that for the next two years of the Wilson administration the president should have a congress in accord with his great constructive program yet unfinished."

Give President Chance.
"They believe in giving him a chance to 'prove up,' and that if his policies prove unpopular a change can be made at the next presidential election. As President Lincoln said, they don't believe in swapping horses while crossing a stream."

"I have a letter this morning, from S. A. Easterday of Clatskanie, in which he says:
"Call the attention of the people of the first congressional district to the treacherous act of Representative Hawley on September 5 in the house (Congressional Record, pages 16,154 to 16,158) whereby he attempted to do away with the coal fields of Alaska to the Cummings, Guggenheims and Pittocks."

"I have certainly misjudged Representative Hawley as I thought he only voted heretofore as instructed by the interests, but he is becoming bolder in his older age. Even now I can't believe he intended this amendment, but that it was prepared by an attorney for the interests."

Even Congressman Mann Balked.
"Even old Jim Mann balked on Hawley's amendment and Humphries of Washington, while he favored the amendment, was afraid to go on record with his vote."

"With Booth in the senate and Hawley in the house the interests would be ably represented."
"What is Oregon coming to, anyway?"

"This is a sample of the many letters being received at headquarters from all over the district and is indicative that the people are watching and are becoming acquainted with the record of Congressman Hawley as a standpat Cannon-Aldrich reactionary."

Lane Will Vote On New County

Proposition Is to Make County of Siuslaw Out of Territory West of the Coast Mountains.

Eugene, Or., Oct. 1.—The question of creating the new county of Siuslaw out of Lane county will be submitted to the voters of Lane county at the general election in November. The county court has made an order placing the question upon the ballot and providing for the necessary polling places, after the proper petitions had been filed and after it had been ascertained by the county clerk that there were enough voters of bona fide voters upon the petitions.

This movement was started at a convention held at Mapleton last spring. Robert S. Huston, editor and publisher of the Siuslaw Pilot at Florence, was elected chairman of an executive committee which has had charge of the work of circulating the petitions. He filed them yesterday. The petitions contain many more names than required by law, showing the popularity of the measure.

This measure will be voted upon under the Wood law which allows the people of any specified territory to petition for a new county and gives it to them if 65 per cent of the people in the district vote for it and 25 per cent of the people outside the district in the old county vote for it. Mr. Huston is sanguine of the success of the measure. The new county, if created, will include what is territory west of the Coast mountains in Lane county.

How Thin People Can Put On Flesh

A New Discovery

"Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nutriment it contained? You haven't gained in weight one ounce. That food passed through your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of this folks the world over. Your nutritive organs, your functions of assimilation, are badly out of gear and need reconstruction.

Cut out the foolish foods and funny sawdust diets. Omit the flesh cream rub-ons. Cut out everything but the meals you are eating now and eat with every one of those single Sargol tablets. In two weeks note the difference. Five to eight pounds of healthy, "stay there" fat should be the result. Sargol charges your weak, stagnant blood with millions of fresh new red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood so easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol and the new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and all druggists in Portland and vicinity sell them subject to the absolute guarantee of weight-increase or money back. (Adv.)
