"Do ye unto others as ye that they should do unto you." While the skeleton specter of a European war without defined cause feeds thousands of lives to wanton destruction. Portland sets under way its own Safety First movement to save

lives by establishing a better understood measure of the value of life.
"Stop! Look! Think!" it suggests to railroads, traction companies, modorists, manufacturers and their employes, schools-all.

The mayor has appointed a Safety First commission. At a public meeting week ago it strove to increase its powers by enlisting the general pubc as associate members.

Safety First Commission Organized. The commission has departmental or

Everybody Loves A Lady Fair

And a Lady Can Have a Fair, Clear Complexion by Using Stuart's Calcium Wafers After Each Meal.

You women ought to hear some men rave over a beautifully clean and shell clear skin. There is nothing that so charms a man or a woman as this. Where there are pimples, blotches, liver spots, etc., the blood is diseased and filled with impurities. Clean the blood and these effects disappear at once. That is what Stuart's Calcium waters do almost beyond belief.

"She Was a Pimply Person Once

Stuart's Calcium Wafers are known to hundreds of thousands of men and women. Perhaps some of the faces you admire now were made beautifully free from skin blemishes by Stuart's Calcium Wafers.

You won't be always worrying about You won't be always worrying about what your friends and strangers think of your 'broken-out' face, if you give these wonderful little wafers a chance. That's because they go right to the seat of the trouble, the blood, driving out all impurities, strengthening it, toning it up. And when the blood is clear the skin is free from blemish. Stuart's Calcium Wafers are perfectly harmless and may be taken freely by any one. They contain absolutely no mercury, no poisonous drugs, no mercury, no poisonous drugs, no

opiates.
Stuart's Calcium Wafers contain
Calcium Sulphide, and a mild alterative
every doctor prescribes them a hundred times a year. They are the most

partment of electrical transportation and is secretary of the comimssion. He only careful men. Many issue "Safety is chief claim agent of the Portland Railway, Light & Power company and an originator of the Safety First movement not only for Portland, but for the entire country.

L. R. Alderman has the department of schools. He is superintendent of schools and will have to assist him in keeping harm from children, the principals, teachers and parent-teacher or ganizations, as well as the children themselves. Already he plans to have Safety First committee of children in each school and one of the firs things for them to do is to post signs on streets near schools-"Go Slow: School Two Block West" or east or

south or north, as the case may be The department of industries is in harge of Marshall N. Dana and this neans organizing men in industry to be cautious and thoughtful and to post warning signs where such are needed. The Safety First field in Portland in-

dustry is almost untouched. Arthur M. Churchill, a lawyer who epresented the Oregon Civic league a fire-prevention campaign in Portland, has charge of the fire preven to induce every citizen to help eliminate fire hazards. Fire always is a menace to life and property.

Harry P. Coffin, chairman of the ommission, has taken the departmen" of traffic, which means principally securing the assistance of automobilists in averting accidents. Work of volunteer traffic officers appointed from the Automobile club, and organized by Mr. Coffin, has already resulted in significant decrease in the number of accidents and collisions. The commission is favored. It has back of it the city public safety de-partment, of which Mayor Albee is nead. It can draw upon official agenies and the even more powerful fac-

tor of approving public sentiment to further its campaign for the public. and organized as outlined. Then it went up to a ninth floor room of the building and viewed an exhibit which was also displayed at yesterday noon's meeting in the Commer-cial club. About the walls were thousands of pictures and posters emphasizing the importance of safety

A sketch showed two men at work. One was grinding, the other working the lesson was: "These men are danhave not learned the value of an eye." such work.

"Do It the Safe Way."

There were many circular signs: Do it the safe way. It never pays to take chances.' Also this information in the exhibit oaned by the Chicago & Northwestern railroad: "This is the only civilized country in the world that doesn't There were pictures showing how men leaving work, or women and children on errands encroach on the right of way, and Mr. Burckhalter said: "The trespassers worry us more than any others; they are more careless." Parents have responsibility accordng to one of the posters by the Boston Chamber of Commerce. -Playing on or near the car tracks is dangerous. Tell the children. Bet-

ter be safe than sorry." Everyone, of course, has read, and many have heeded, the signs of the at the same time keep your money.' Portland Railway, Light & Power Co., corporation that has powerfully stimulated the movement everywhere; "Wait until the car stops." Look! Don't take chances!

cities "Pedestrians-Don't forget the car oming on the other track." Everyman-Ninety-eight per of accidents are perventable. Don't take chances."

"Drivers-Look both ways before rossing tracks."

Careful Men Desirable Employes. it is better to employ only sober men, they are finding it safer to employ First" rules for employes, and especially for the new man. They publish bulletins for general distribution and encourage safety first committees among workmen. And they reach this conclusion: "Every accident is a notice that

something may be wrong with the nan, plant or methods, and should be immediately investigated by persons in charge of the .work, to ascertain ause and apply remedy. "It is the little accidents that make

the big total. Ten employes are killed in little accidents to one in a col-lision or derailment. Thirty-seven are injured in little accidents to every one injured in a collision or derailment Stop the little accidents and the big ones will take care of themselves." And even the interstate commerce commission testifies. In its 1912 res

port this expression occurs: Great possibilities in the direction of a solution of the problem of accident prevention lie in the so-called safety committees which have been organized on many roads. These comtion department and it is up to him mittees are composed of officers and employes, who cooperate in striving to eliminate accidents due to failure of men properly to perform their duties. By making safety first the dominant idea in the minds of employes and continually pointing out methods for its attainment, an important step in the right direction is taken.

And other epigrammatically worded posters were shown in the exhibit viewed by the safety first commis

The prediction is made by the specialist that in a few generations those teeth will entirely disappear in members of that family. And he goes further and says that in time it altogether likely that the lateral incisors and third molars will have disappeared from the mouths of the civilized races by the law of evolution stood outside the Gare de Nord and

Evolution of Teeth and Pood. In this day of soft and prepared foods we have so much less need of teeth for tearing than in the cave days of our ancestors, whose food was the flesh of wild animals of the forest, that, in the course of the evolutionary process, we shall have only such teeth as our soft foods require.

For the proper development of the teeth, jaws and arch of the mouth all dentists declare that exercise by chewing hard foods is necessary. The orthodontist interviewed said was very little irregularity of teeth in his entire family, and he attributes it good as the manna from heaven. To to the fact that they lived on a farm one of my hosts I said that I was and had more or less hard food. As on a a boy he was always chewing wheat 'meat day,' for I understood that meat and dried peas while he went about was served only every third day. But his chores. He thanks that farmerwas quickly informed that German boy habit for his sound and regular

You may have heard somebody say "My father had a double row of teeth," evidently believing that his father was "gifted" with twice the number which the devil's work was being of teeth allotted to the ordinary mor-

Models in the orthodontist's cabinet showed that some unfortunate pa tients actually had two rows of teeth, but they had not twice the usual number. Their teeth appeared in a double row only because of their deformed irregularity, some teeth being pushed back of the others through crowding impression it left on the mind. The or through deficient development of officers seemed to make a picture the jaws. A boy patient with such teeth had more like a military entourage at a

fashionable race meeting. They were well groomed, shaven, manicured, and greatly disfigured by the deformity. Persistent treatment, with patient following of directions by the boy, resulted in bringing the teeth into nermal position, with improved health and greater mental efficiency. barians'-outwarly at any rate. To In the case of one patient, a young woman 28 years old, the jaws and arch of the mouth had not developed since she was 5 years of age. The result was protruding front teeth. A

picture taken before and after treatment showed the trouble wholly corrected by artificial expansion, which was necessary to make room for the crowded teeth. This treatment is exceedingly tedious with adults, but is a simple matter with children. Teeth Porever Crooked.

Young children form habits

between officer and man in the ranks, are close and cordial-they are comrades, a word continually on their lips as they fight. And they are wonderintelligent. During the week I have talked with men in the German ranks whose culture and education would put to shame many an English undergraduate I know. "The ideal in the minds of this is "Deutschland uber alles."

In achieving this ideal they stick at nothing. For their nation they are unanimous, efficient and wonderful old inhuman, barbaric. That is why f we believe if moral laws govern this world, and that might is not right, we must fight them as we Napoleonism. But let us have no delusions about their real character."

EATS DIET OF RAW SNAILS

Montpelier via Bordeaux, Oct. 3.—A
German prisoner, who escaped at the beginning of the month, was recaptured today by a sergeant, to whom he declared he had lived in the open air for 20 days, subsisting on raisins and raw snails.

nothing is so remarkably effective as a mixture of one ounce of beta-quinol, half a pint of alcohol and half a pint of water (or with a full pint of bay rum instead of water and alcohol, if preferred). This costs less than any prepared hair tonic, and its results in forcing hair to grow, stopping dandruff and the falling of hair are very remarkable and rapid. man mind for a synicism which some-times in older nations makes people wonder whether the struggle between national groups is good in the eyes of tured today by a sergeant, to whom he declared he had lived in the open air for 20 days, subsisting on raisins the relations between class and class, and raw snails.

can ever correct the trouble

BY VALESKA SUBATT

THE removal of wrinkles is no longer a problem. Of course there are many prepared creams which are sold for the purpose but the experience of most women with these feeble agenof most women with these feeble agen-cies has usually been one of keen dis-appointment. The loss of precious time in such cases is particularly depior-able. What every woman wants and can now obtain is the quick removal of wrinkles, not a process requiring al-most a year if at all, but one which will show wonderful results in a few

Mrs. S. O. B.—Simply use this cream every day on your face, arms, hands, neck and shoulders, and in a very short time you will find the most decided change in your complexion. It never fails. All red spots, freckles and blemishes vanish producing a most exquisite purity and tint to the skin. It is the beautifier, without a peer, and is very economical. Mix one tablespoonful of glycerine in a pint of hot water and add one ounce of zintone, which can be secured at any drug store. This is done in a few moments. You will need nothing size to make your complexion fascinating. Mrs. S. O. B .- Simply use this cream

Hester C. S. Developing the bust is difficult heater and cannot always be acsured. However, a mixture of two counces of ruetone and half's cup of sugar in a pint of cold water, and taken in two teaspoonfuls after each meal and hefore retiring, is the best and hefore retiring, is the best surest means known for purpose. Do not use pills, meghanical appliances.

> Mine T. R.—A teaspoonful of eggo! half a cup of hot water mak is an amazingly rich and effective head wash and dandruf! remover. The action of this shampoo is to dissolve every particle of dandruff and fatty accumulation, which soap does not do because of the alkali it contains. This is the only head wash that acts on this principle. It makes the scalp extraordinarily clean, and the hair silky and easy to do up. This is very economical as enough eggo! can be secal as enough eggol can be se-cured for a very modest price at any drug store to furnish a dozen or more of these unusual shampoos. It is in fact a real necessity to hair health.

The following formula is one which does this in a very amaz-ing way. You make this up yourself at home in a very few moments by disat home in a very few moments by dis-solving two tablespoonfuls of glycer-ine and two ounces of eptol in half a pint of hot water. The satiny cream which results removes wrinkles al-most magically. This secret is one of the most valuable I know. Large and small wrinkles, crow's feet, lines of age and sagging of flesh, all disappear quickly and completey transform one's appearance from age to youth. appearance from age to youth.

Ernestine M.—The prevalence of falling hair is alarming among all classes of women. Dandruff is one of the main causes of it. Another cause is lack of nourishment of the hair roots. The ordinary hair tonics bought these days merely stimulate for the time being. These can not stop dandruff or make hair grow. What is needed is to supply the pecessary nutriment so that the tissues of the scalp and hair roots may return to their original condition of vigor and health. For this purpose nothing is so remarkably effective as a mixture of one ounce of beta-quinol,

perflous hairs is accomplished more easily, quickly and thoroughly by the use of simple sulfo solution than by any other means. This simply disany other means.
