# DANISH STEAMERS TO CARRY LARGE FREIGHT CARGOES TO COAST

Countries and Pacific.

MOTORSHIP

Denmark's Moutrality is Guarantee of Safety Which is Reassuring to a Danish Steamship Company.

Through the necessity arising from the European war trade between the Scandinavian countries and this coast his ship. is expected to reach a proportion greater than ever before. Cargo for the East Asiatic company's Danish steamers is being offered in those countries faster than the company can take care of it, and some of the heaviest general freight cargoes that have ever come to this coast will be brought here within the next few months.

Word reached the Meyer, Wilson & Co. local agents for the Danish company that the Malakka, one of the new Danish motorships had sailed Sept. 28 fom Genoa after completing her cargo there. She is carrying a capacity cargo. The motorship Jutlandia went on the berth at once at

Homeward bound the vessels of the company are to be placed on the berth at North Pacific ports for general New York via San Francisco, American-Hafreight Cereal offerings are heavy, and it is expected that through the demoralizing of the English and German services that general freight will also be offered in quantities,

War Situation Boosts Trade BOTH VESSELS AT FAULT Between the Scandinavian steamship Victoria Not Blameless for Accident.

Washington, Oct. 5 .- After investigating the collision in Puget sound between the steamships Victoria and the Admiral Sampson, which resulted in the sinking of the latter vessel with the loss of 11 lives, the department of commerce announced that it found both vessels were at fault.

The Canadian government's investigation relieved the Victoria of responsibility for the collision, but the Amer ican inquiry held that the Victoria' master should be reported for violation of the pilot rules. The master of the Admiral Sampson went down with

## Efficacy of Prayers For Peace Doubted

Rationalist Speaker Declares People Should Search for Cause of War Within Themselves.

Questioning the likelihood of practical results following from prayers for peace recommended by President Wilson, the fundamental causes for war were pointed out as lying in human nature itself in a lecture before the Portland Rationalist society at the public library last evening by H. C. Speaking on the subject, "The Need for Rationalism in Modern Life"

he said in part:
"Instead of praying for peace to a God beyond the skies, would it not br. better for us to look within ourselves and see if the cause of war does not tie in our own ignorance, narrowness and prejudice? A relentless self-examination, a willingness to perform an act of self-confession and the moral courage to recognize our own shortcomings are the first steps to be taken by mankind toward universal peace. The gospel of Buddha, 'Within yourselves deliverance must be sought,' is

the need of the present hour. "We ought to examine not only our individual selves but also that complex extension of human personalities building are on file at the Builders' called the social organism. There are Exchange. If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.
