URGE IT!

He who abuses his right to eat is a glutton, He who abuses his right to drink is a drunk ard. Eating and drinking are right. Gluttony and drunkenness are wrong. In both cases temperance is the only remedy. Total abstinence may be fatal.

Many people in speaking of the prohibition party refer to them as the temperance party, temperance people, temperance movement, etc. -as if anybody in this country advocated intemperance or drunkenness. No one does. We certainly do not.

Temperance has to do with control of yourself. Prohibition has to do with some other person's control of you. Temperance is self-imposed and self-enforced. Prohibition is enforced by others against your wifl, and enforced with a policeman's club.
