GILMORE PLANS INROADS

Ball Players Kick Up Heels in High Glee Because Continual Warfare Means Better Money.

It was not like this in the good old days-But it's mights fine now for Mr. Ballplayer. stars and the mediocre players of orgamized baseball would hate to see the rederals go under as much as the owners themselves. And they also are pulling for a continuation of war and Johnson organizations.

Here is the answer: Since the outlaw league donned its fighting clothes. organized baseball players who were lucky to draw down \$2500 a year, in some instances demanded and in most cases were granted increases of from \$1500 to \$2000. A star pitcher who formerly received \$4000 for his season's work is now paid \$6000 and \$7000. The big league magnates were forced to come across or see their stars jump to the despised outlaws. And the players, too, in many inforced the owners to sign Gilmore says the Feds will take

contracts for from three to five years. of the best players from the majors this winter. And Gilmore has a way of making good his threats. The Feds are after Waiter Johnson, and openly declare they are going to get him even If they have to pay him \$50,000 a year. They also are on the trail of Ty Cobb, Sam Crawford, Tris Speaker, Joe Jackon, Jack Miller, Bill James of Bos ton, Hank Gowdy, Rabbit Maranville and a number of other lesser lights And organized baseball knows it, and will have to come through with more money for these stars, or see them cast their lot with the Feds.

GOLFING HINTS

By "Straight Drive." Out of bunkers .- An effective shot to have at your command is what we will call the sliced niblick shot. Where the ball lies close up to edge of a play straight toward the pin a violently sliced attempt will frequenty get the desired rise and clearance. By aiming well to the left an alowance for the slice is had and the ball given a chance to clear the bank and go joyfully on its way toward the hofe. As the club comes down with the inward drag across the ball it is

part the upward flight. On the other hand, when a ball lies close to edge of a trap with the bank directly back of it, the same type of sliced stroke will often get it safely out when no other would. It is an easy stroke to learn with a little practice and once mastered will enable the player to make occasional sur-
