

LEGISLATIVE TICKET
CHOICE TO BE BASED
UPON MERIT ALONE

Oregonian's Hand - Picked
Slate Due for Some Woeful
Scratching Next Tuesday.

PRESENTS ENTIRE TICKET

Voters Are Making Careful Study of
the Fitness of Candidates and
Will Act Accordingly.

As the Multnomah county delegation in the state legislature, because of its size, wields more influence than the delegation of any other county, it is of the greatest importance that the best men be selected by the voters of this county next Tuesday.

From this county 12 state representatives and one state senator are to be elected. In addition, this county will participate in the election of a state senator for the fourteenth senatorial district, including Clackamas, Columbia and Multnomah counties, and a joint representative for the seventeenth district, including Clackamas and Multnomah.

Each of the parties, except the Republican, has taken recognition of women in politics by nominating one or more for state representatives.

The Republican party has its slate of Oregonian hand picked candidates. Conrad P. Olson is the only one of the 12 candidates who was not picked by the Oregonian. The voters are scrutinizing them closely and every indication is that some of them will be woefully scratched. In the list is the notorious reactionary, S. B. Huston, who was one of the leaders in the assembly when the Oregonian crowd sought to ride over the people's direct primary law.

42 to Pick From.
There are 42 candidates for the voters of this county to select from in choosing their 12 representatives. Of these the Republicans have 12, the Democrats six, the Progressives nine, the Prohibitionists seven and the Socialists eight.

As party politics should have little to do with the state legislature, the voters are making a study of the entire list and will base their selections upon the individual merits of the candidates. This is why the Oregonian slate is going to be so generally scratched by the great hosts of progressive Republicans who will refuse to accept the minority of Oregon's popular system of government that have been placed on the ticket.

As the names of all candidates will be on one ticket the voter can make his choice regardless of party designation. Party registration lays no restrictions whatever upon a voter at the general election next Tuesday.

For state senator from the fourteenth district, Richard W. Montague, the well known lawyer who has been a consistent supporter of measures in the interests of the people, is one of the most prominent candidates. He is attracting the support of the progressive voters of all parties.

Among the candidates for representative in the Multnomah county and Multnomah counties—one to elect: C. M. Hurst, Republican; Oscar W. Horn, Republican; S. B. Huston, Republican; Louis Kuehn, Republican; D. C. Lewis, Republican; Democratic; Andrew C. Littlefield, Republican; Conrad P. Olson, Republican-Democratic; Ben S. Olson, Republican-Democratic; E. J. Want Races at Salem.
Salem, Or., Oct. 30.—One thousand roses will be planted on the north side of State street, between High and Twelfth, and on the south side of Court street, between the same streets, as well as on High and Twelfth, between Court and State, thus surrounding the capital, county and federal grounds, if the plan of the Salem Commercial club is carried out.

DENTAL TRUST ADMITS I AM RIGHT

The principal feature of Dentistry Bill 340 is that a diploma from a reputable dental college in good standing shall entitle the holder to practice dentistry in Oregon; or, a license in any other state shall be accepted in this state without examination before the State Dental Board.

For example, my diploma from the Philadelphia Dental College, second oldest dental school in America and admitted to be one of the best, entitled me to practice dentistry in New York, Pennsylvania, Maine, Illinois, California and Canada, where I have practiced during the past 25 years. The Trust admits this is true by printing telegrams from those states showing I have licenses to practice in those states. If I am competent to practice under my diploma in those states, why am I not competent in Oregon?

My diploma was good enough in Oregon until the Trust so doctored the law as to create a State Dental Examining Board, every member of which is a member of the Trust. By control of this board, the Trust can now say what particular dentists, and how many, shall be admitted to practice in Oregon, thereby having a monopoly in dentistry in this state. A monopoly always means high prices and poor service. If there was competition there would be better dentistry at fair prices.

A lawyer can come to Oregon, file his license from another state and practice law without examination before a state board. The laws of the several states differ. A dentist should be able to do the same thing, for the human mouth is the same in all states.

Under the present law, the State Dental Board can admit to practice persons who have never graduated from any dental college. Anyone satisfactory to the trust is admitted. Anyone likely to give the Trust competition is denied a license, the board simply saying he is incompetent. There is no recourse in the courts. I have been trying to get this board into court with my examination papers for three months, and offered \$10,000 if they would prove their claim that I was incompetent, before election day.

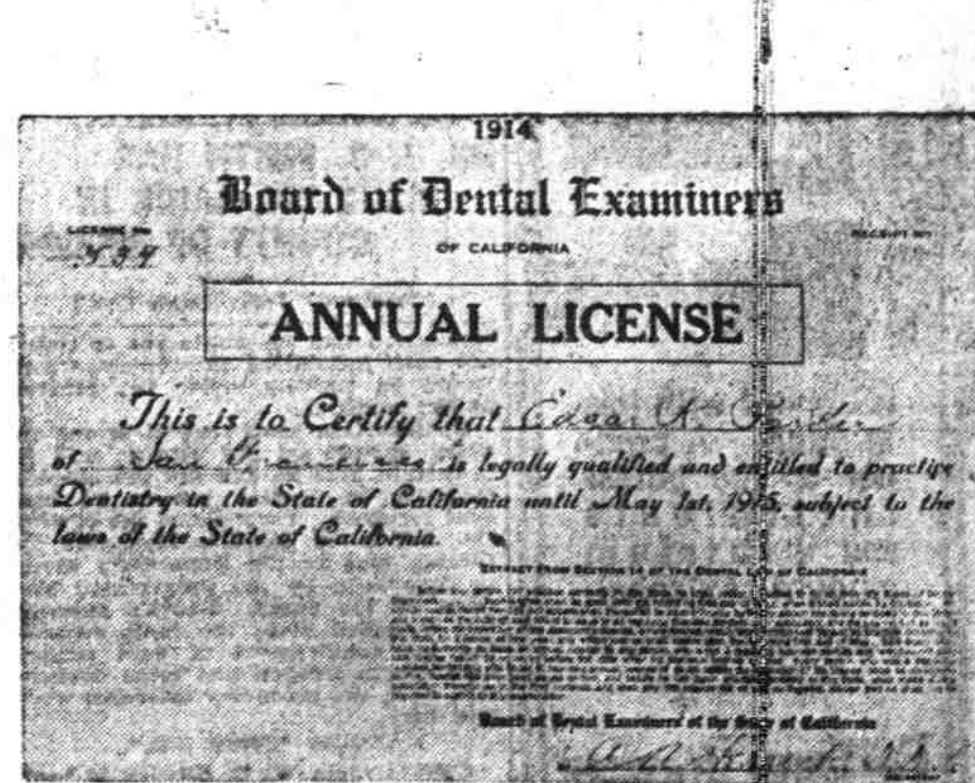

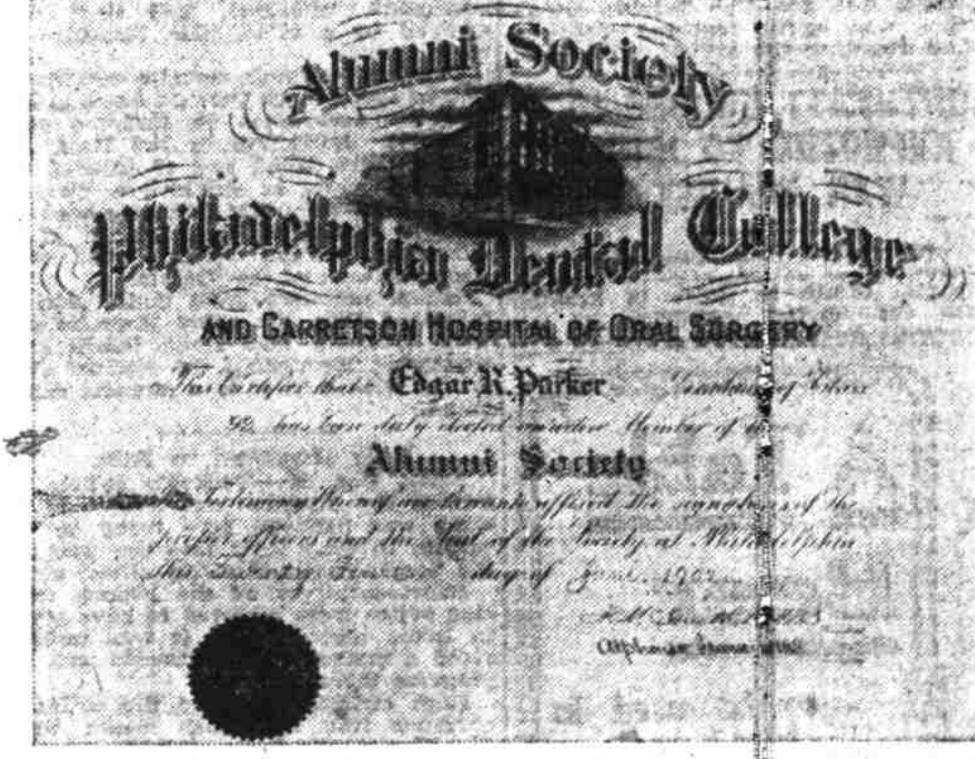

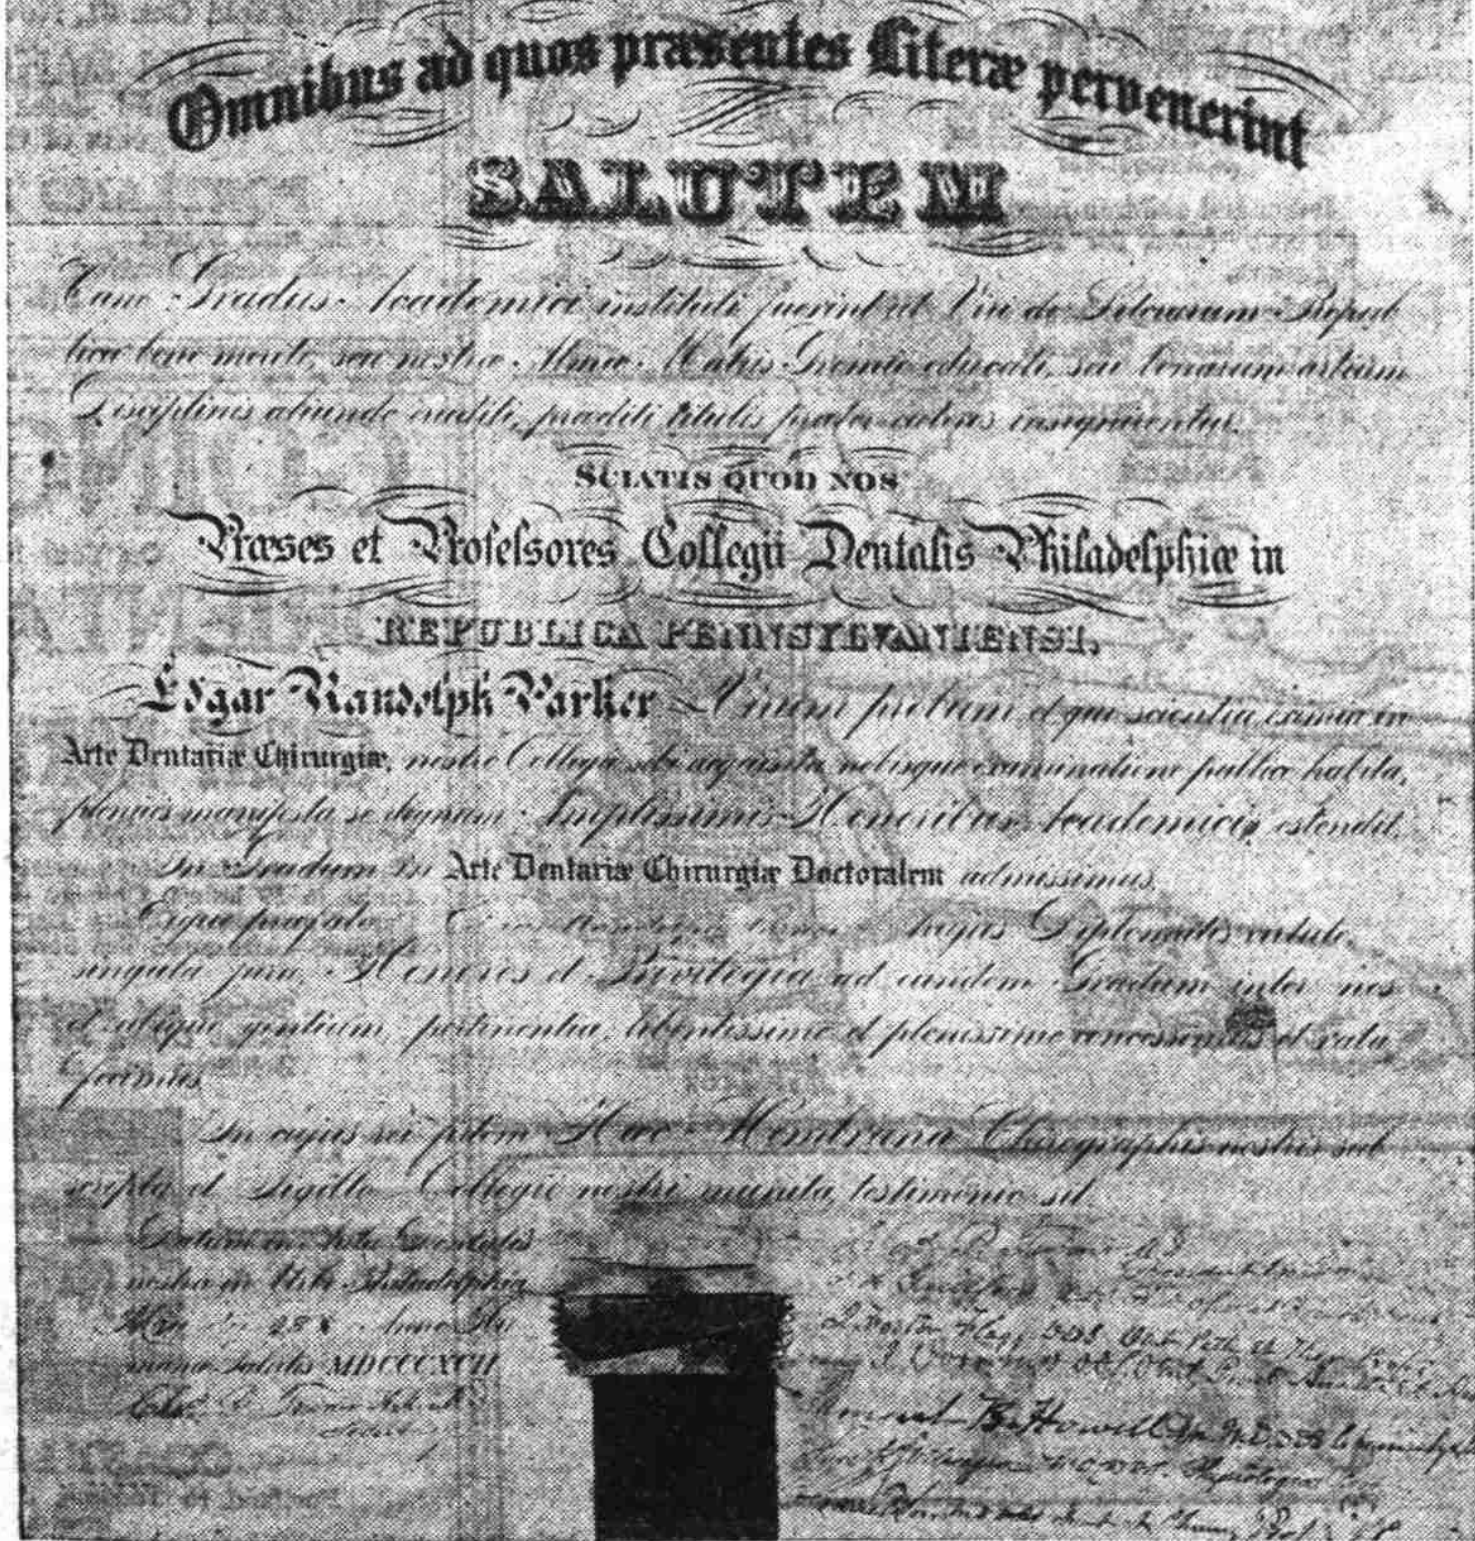

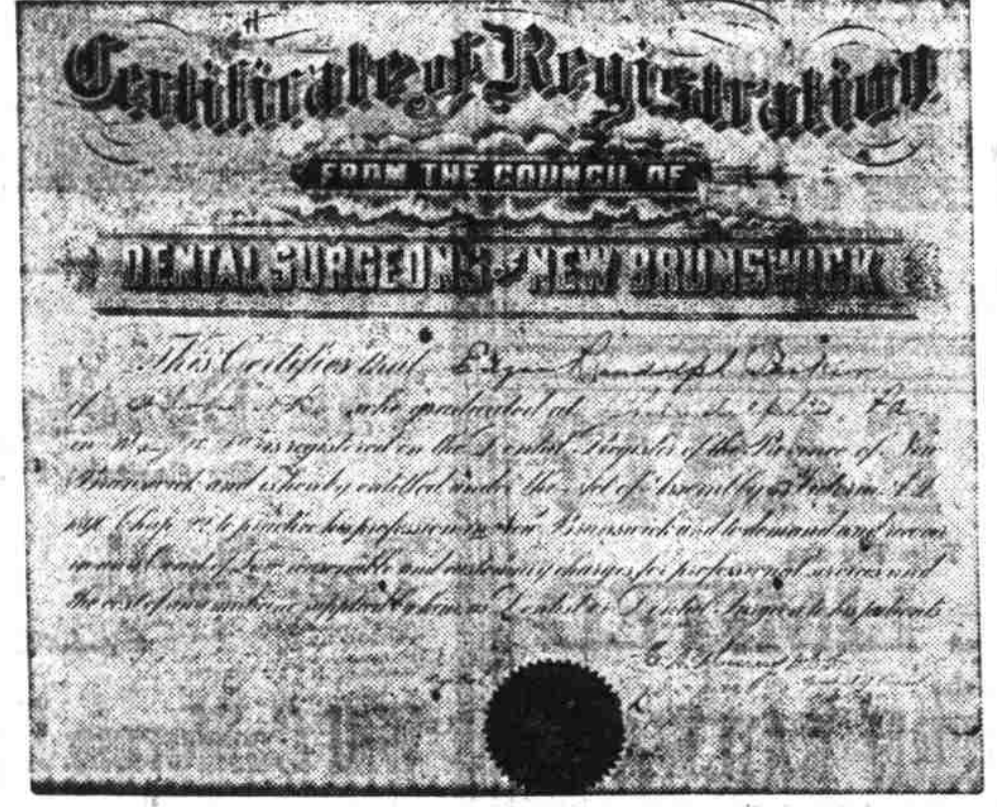

Many dentists now practicing in Oregon never went to a dental college a day

in their lives. One of these is now a member of the State Dental Examining Board, and has been for nearly 10 years. How can such so-called dentists protect the public health?

These so-called dentists were admitted to practice without examination of any kind when the Trust first passed the present dental law through the legislature. They were taken in so the Trust could get a monopoly of the dental business in Oregon.

The average man and woman in Oregon doesn't know these facts, because they never read the dental law. They never would have known them if I had not shown up the rotten conditions. This law was drawn by the Trust and put through the legislature in the "good old days" before the people had the initiative and referendum. Vote 340 X YES and bust the Dental Trust.
