

DR. STEWART FEARS PLAYERS WILL SLUMP AFTER HARD CONTEST

Terrific Strain of Preparation for Washington Causes Aggie Mentor to Slow Down.

TICK MALARKEY IS OUT

Physician Forbids Playing for Rest of Year—Bendek Coaches Two to Take Cook's Place on Line.

Dr. Stewart, coach of the Oregon Agricultural college football team, is afraid that his players will be in a slump when they meet the crack University of Idaho eleven on Multnomah field on November 14.

Stewart is not looking forward to an easy victory over Idaho. He fears the Gem players just as much as he did the Washington eleven.

The Idaho players are very fast and experienced and that the game will be played on a much better field than the one at Albany means that the Aggies will have to be in just the same shape they were when they tackled Doble's eleven.

The Idaho team is a heavy one, as well as experienced. Take a look at it: Dewald, left end, 158; Phillips, left tackle, 185; Kip, left guard, 182; Hayes, center, 180; Johnson, right guard, 170; Groninger, right tackle, 200; and Dingle, right end, 159.

Stewart hopes that some of his crumples will be able to play against the Idaho eleven. Billie's basketball team were away a week's rest. Anderson at center and Yeaker in the back field will give the Aggies additional strength both on the offensive and defense.

"Tick" Malarkey, whose wonderful playing featured the Oregon-Idaho game, was released from the military hospital at Eugene yesterday afternoon, after being eloped in a dark room for a week.

Malarkey's absence and Cook's illness has put Bendek in a bad way for the contest with the University of Washington team on Saturday, November 14.

Canadian Coaches Aid Backfield Plays

A Canadian Rugby football follower says: "It took a long time to convince the powers that be in United States football that the Canadian game has many advantages over that played across the border."

Harvard, Yale and Princeton have paid a great compliment to the game as played in Canada by making Canadian coaches their backfield plays.

At the same time the fact should not be overlooked on this side of the international boundary that there is much in United States football that could be embodied to advantage in the Canadian game.

In the Canadian game 14 men comprise a team and the backfield has five players instead of the four contestants in the American style of football.

SCHOLASTIC BATTLE OF SEASON WILL BE FOUGHT TOMORROW

Rooters of Lincoln and Washington Will Number Around 3000 for Season's Classic.

OLD STYLE GAME FAVORED

Coach Earl of East Siders Will Have Differently Arranged Plans When He Faces Coach Borleske.

One of the best of the old-style gridiron clashes of the 1914 season is expected tomorrow afternoon when the Lincoln and Washington high school teams clash on Multnomah field at 3:15 o'clock.

Washington is a slight favorite over the Cardinals, because it has not been defeated this season. A large majority of the backers of both elevens are seeking point bets.

Coach Vincent Borleske of the Cardinals will put the same team in the field against Washington that he did against the Jeffersons last week.

Teed will play the quarterback position in place of Normandin. It is likely, however, that Coach Earl will put Normandin in the game at some position, because he is too valuable a player to have sitting on the bench.

Unless the coaches have changed their tactics there will be little open play in tomorrow's contest. Lincoln tries forward passing in the game against Jefferson, but with no great results.

Roscoe Fawcett will referee the game and Grover Francis will be the umpire. The game will likely be head linedman. The lineup: Washington, Paget, R. E. L., Anderson, Johnson, R. G. L., Phillips, Druschel, C. G., Gorman, Hoffman, L. R., C. Johnson, F. Busch, L. T. R., C. Johnson, Groce, L. E. R., C. G. Cooke, Arlington, G. R., C. Parsons, Freeman, R. H. L., C. Parsons, Oliver, L. H. R., C. Parsons, Strowbridge, Elliott, L. H. R., C. Parsons, Chas. Johnson.

Tip O'Neill says frenzied finance of the bosses, as well as raids by the Feds, is to blame for the present condition of baseball.

Jim Johnson's manager refuses a good Frisco offer to meet Sam Langford. A thousand good cold dollars was not enough to tempt Johnson's manager.

Manager Jack Herman regrets that Zbyzsko has seen fit to dodge German and Austrian bullets, for he says the Philadelphia look good for the winter.

Detroit Tigers are to train at Gulfport, Miss. President Navin having decided to pass up California on account of lack of exhibition games there.

The development of the forward pass and its defense is the feature work of the big college teams this fall. That, and the forward look good for the winter.

LANE TO FORCE EDITOR PIPER TO MAKE APOLOGY

(Continued from Page One.) ate. I could have no standing with the president of the United States. I could not look him in the face, because he is not the kind of a president deserving pardons for political purposes.

"The editor of the Oregonian owes me an apology and owes me reparation, and he is going to give it to me. I am going to wait a day or two and if it is not forthcoming I will take necessary action to get it."

Circumstances Are Explained. Senator Lane explained the circumstances under which he addressed the Independent Order of Brith Abraham, a Jewish order, Sunday. He said a week or 10 days ago a friend came to him and asked if he would deliver an address on Sunday before the order. He said he would be glad to make a non-political talk.

"When I got there they were talking about a man who had committed some crime against the state. I did not know the man. A doctor whom I know well addressed the gathering in Yiddish. I do not know what he said. The pamphlet questions the motives of County Clerk Coffey in giving the contract for printing of the ballots for the election of tomorrow to Glass & Prudhomme, setting forth the position of Bushong & Co., an unsuccessful bidder. The statement was made that in our opinion Mr. Coffey never intended any printer except Glass & Prudhomme should have the contract.

"I said yes, that's what I'm paid for. It is my duty to act upon such requests from constituents. I said I would present the petition to the president and ask him to consider it on its merits.

"I did this very thing on the morning before I left Washington. The petition was for a man who seemed to have no friends. I presented such a petition once for an Indian. It is my duty to do these things. I don't care if the petition is for a blind beggar.

Politics Not Discussed. "I didn't talk politics. I talked about the way the Russian Jews and the German Jews are now at war with each other. They worship the same God, and are a people who are more zealous religious than almost any other race, yet they are now at one another's throats. I pointed to them then to the reasons for which the Jews living in this country have to be thankful, living in a country that is at peace with the world.

When I picked up the morning paper and read the misstatements and saw the implications that the Oregonian sought to convey I was indignant. They were false, and I expect an apology from the editor of the paper."

Senator Lane referred to the fight he made in the interests of the people while mayor of Portland in his fight to force the Portland Railway, Light & Power company to cease overcharging the city for electricity, for better water service, for sewers and lower cost for street improvements.

Oregonian Is People's Opponent. "The Oregonian never favored these things," he said. "I never fights in the interest of the people."

Senator Lane indicated the apparent attempt of the timber interests to get political control of the state through the election of R. A. Booth to the senate. He reviewed the manner in which the Booth-Kelley Lumber company acquired thousands of acres of timber lands.

He told of a settler, who, with his wife and baby, was trying to make a home on a plot of land which had on it a small amount of scrub pine, in a southern Oregon forest reserve. The settler wrote to Senator Lane a number of times about the land. He showed that the land wasn't timber land; instead he was raising grain and garden truck on it. But every spring and fall he would be bothered with forest rangers trying to run him off.

Settler and Booth Contrasted. "One day the man went to town for supplies and he was arrested and brought to Portland," said Senator Lane. "His wife and baby were left up in the hills without any provisions or protection. The officials asked me what they should do with the man. I said send him back home where he belongs. I said he hadn't carried off any land. In fact, I thought the government owed him something for cultivating the land, instead of arresting him. They decided they could dismiss the criminal charge and file a civil suit against the settler.

"Will that settler be struggling and fighting for a little piece to make a home, here is Booth and the Booth-Kelley Lumber company with 324,000 acres.

"They want to send Mr. Booth to the United States senate—and the settler to jail."

Lilac Tree Is in Bloom. Mrs. J. Erickson of 277 East Tenth street, 17th, picked some lilacs in her yard Saturday that she says are the most remarkable blooms she has ever seen. Only one bush is affected, and only half of that—one side being laden with old leaves and the other with new leaves and a number of small blossoms. Mrs. Erickson cannot account for the phenomenon.

POLITICAL CRIMINAL LABEL IS THE CHARGE CONFRONTING PRINTER

Milton Markewitz, President of Bushong & Co., Indicted by the Grand Jury.

Milton Markewitz, president of Bushong & Co., printers, was indicted yesterday afternoon by the grand jury on a charge of political criminal libel, under a section of the corrupt practices act. The indictment is based on a pamphlet printed by Bushong & Co., with the heading, "Is the County Clerk's Office Corrupt?"

The statute under which the indictment was brought carries a penitentiary sentence of one to three years. Markewitz was arrested and released on \$1000 bonds. The pamphlet questions the motives of County Clerk Coffey in giving the contract for printing of the ballots for the election of tomorrow to Glass & Prudhomme, setting forth the position of Bushong & Co., an unsuccessful bidder. The statement was made that in our opinion Mr. Coffey never intended any printer except Glass & Prudhomme should have the contract.

"I said yes, that's what I'm paid for. It is my duty to act upon such requests from constituents. I said I would present the petition to the president and ask him to consider it on its merits.
