

SENATOR WOULD PUT DAM AGAINST FLOOD OF LEGISLATIVE BILLS

J. N. Burgess to Practice Economy by Refusing to Introduce Single Measure.

SPEAKERSHIP DISCUSSED

Representative Stanfield Says Eastern Oregon Wants Issue Settled Before Legislative Session Opens.

State Senator J. N. Burgess of Pendleton and Representative Robert N. Stanfield of Stanfield, two of Umatilla county's delegation in the state legislature, are in Portland today, registered at the Imperial.

Senator Burgess said he expected to contribute to the economy of the next legislature by not introducing a bill. He predicted that not half as many bills would be introduced at the forthcoming session as flooded the last session, when nearly 1000 bills were poured into the legislative hopper.

He and Representative Stanfield were of the same opinion that the next legislature must economize and it is up to the old members to see that the number of bills and appropriations is held down.

Irrigation Needs Stated. Senator Burgess said there were a number of irrigation projects in his section of the state which were badly in need of state aid, but he didn't know that aid would be asked for any of them at the next session of the legislature. He said Representative J. T. Hinkle of Hermiston was the "irrigation member" of the delegation and any legislation in behalf of irrigations would be presented by him.

Representative Stanfield declared that the eastern Oregon members of the house wanted to see the speakership contest settled before the session opens so the legislature can get down to business without delay. He said the question of speakership would be discussed by them at the meeting called to be held at La Grande next Thursday.

"I think the general idea is that a Multnomah county man is expected to be speaker," he said, "but it is my opinion that if the Multnomah delegation cannot agree on a candidate that the eastern Oregon members will give their support to the man who develops the most strength."

Speed Is Urged. "It does not seem to be so much a question as to which man should be elected speaker as it is a question of getting the matter settled so as not to impede the work of the session."

The La Grande meeting of the delegations from the surrounding counties has been called primarily for the purpose of considering proposed changes in the state game and fish laws, but Mr. Stanfield said he understood proposed legislation of any sort that any member desires to bring up will be considered.

There is nothing special that his county is asking for unless it will be that the friends of the Western Normal will request the legislature to make an appropriation for the reestablishment of the school. A measure for this purpose was defeated at the recent election by a comparatively narrow margin, and Mr. Stanfield said some of the friends of the Normal probably feel justified in asking the legislature to take action in support of the school.

PETITION IS NEARLY READY

Sheriff's Request for Contest May Be Filed Tomorrow.

The petition being prepared by Attorney Ralph E. Moody asking for a recount in the votes cast for candidates for sheriff at the recent elec-

HATPIN WEAPON

Police Hasten to the Aid of Wounded Miss Jessie Langas.

Summoned to the Muller hotel at Sixth and Burnside streets by a disturbance yesterday afternoon, the police found Miss Jessie Langas, a young woman employed in a Greek coffee house at 25 1/2 North Sixth street, with a hatpin driven entirely through her wrist. She accused George Ganser, who had been in the room with her, of the assault. She is now in the women's department of the city jail.

Young People to Hold Reception

Young People's Societies of All Denominations to Be Guests at Program Friday Evening.

The young people of the Westminster Presbyterian church, East Sixteenth and Schuyler, will hold a reception to all young people's societies of all denominations of the city next Friday evening at 8 o'clock. Elaborate preparations have been made for the occasion. A program of music and a play entitled, "Tired of Missions," will be given. Following the program, an inspection tour of the new church will be made. There will be a demonstration of the various departments of Christian Endeavor work, each department having a booth wherein they will make their exhibit. Refreshments will be served and a general "sociable social" enjoyed.

On Saturday evening there will be a conference for the people of the Westminster church to take up the discussion of their own local problems. Sunday will be a special day in the interest of young people. The young people's meeting at 8:30 will be conducted by Mrs. Henry Marcotte. The evening church service will be in honor of the Christian Endeavor society, the pastor, Dr. Henry Marcotte, delivering a special sermon to the young people. At this service, the Christian Endeavor choir will sing.

Miss Effie Baird is the president of the society, and with Miss Frank Coyle, and with Miss Frank Coyle, has been working out the plans for the three day young people's conference.

TIMBER MEN DELINQUENT

State Forester F. E. Elliott this morning reported to the county commissioners that 27 owners of timber land in this county have failed to pay the cost of patrolling their land and asked that the cost be assessed and collected with taxes for next year in accordance with the statutory provision. He reported that the patrolling of lands in this county cost 1 cent per acre. The report was referred to County Assessor Reed for recommendation.

REALTY MAN IS ACCUSED

John B. Goddard, a real estate man, who is already under parole on a statutory charge involving a young girl, is accused of the revocation of a license under consideration by Circuit Judge Campbell of Oregon City. He is under arrest on a charge of assault and battery on M. Hurlbert, sheriff Word's opponent, received a plurality of 171 votes.

MAY PUNISH RECEIVERS

Washington, Nov. 30.—The receivers of the St. Louis & San Francisco railroad may not escape punishment for alleged violation of the cattle quarantine order because the order failed to specify "receivers of railroad companies," according to a ruling today by the United States supreme court.

Italian tests of plowing with electric motors demonstrated that it cost about half as much as if horses had been used and about two-thirds as much as steam plowing.

POSTOFFICE HERE TO BE DEPOSITARY FOR P. O. SAVINGS BANKS

All Such Institutions in Oregon Are Included in Order Received Here Today.

RESPONSIBILITY IS MORE

Crying Need for More Room, Says Postmaster Myers, Created by New Arrangement.

Money from the postal savings banks of 81 Oregon postoffices will be forwarded hereafter to the Portland savings bank, according to information just received today by Postmaster Myers from Washington. The change is necessary to conform to the provisions of the recently operative federal reserve act, which specifies that all government money shall be deposited in banks that are members of the reserve.

In the towns which are to forward their funds to Portland, no such banks exist.

Postmaster Myers announced that he will make every effort to deposit all postal savings in qualified banks as near as possible to the origin of the funds, instead of placing them in Portland depositories.

"It is presumed," said Mr. Myers, "that as soon as the towns affected have qualified banks established that the postal savings will be placed in them and not remitted to Portland. The new order means considerably more responsibility for the Portland bank, and creates a crying need for more room, a problem that can be solved only by the construction of the proposed postoffice building here. I am in no position to state how much money will be remitted by the postal savings banks affected by the order."

At the present time the Portland postoffice is the depository for all surplus postal receipts for the 800 postoffices in Oregon, and is also the depository for all the surplus of money order offices in Oregon and of 78 in Washington.

Search for Man Who Started Fire

Sheriff Heads Posse Trailing Person Believed Responsible for Blaze Near Montecito, California.

Santa Barbara, Cal., Nov. 30.—Sheriff Stewart was heading a posse today that was searching for a man who is believed to have caused a forest fire that threatened to destroy portions of the winter colony at Montecito, near here. According to the sheriff's information, the man rode along mountain ridges maliciously starting several fires which soon assumed tremendous proportions.

Word late today from the fire fighters above Montecito, and at other points, indicated that the fire still burned, but that probably no damage to property would be done.

MAY PUNISH RECEIVERS

Washington, Nov. 30.—The receivers of the St. Louis & San Francisco railroad may not escape punishment for alleged violation of the cattle quarantine order because the order failed to specify "receivers of railroad companies," according to a ruling today by the United States supreme court.

Italian tests of plowing with electric motors demonstrated that it cost about half as much as if horses had been used and about two-thirds as much as steam plowing.
