the next senate. This committee, the members of which are Senators I. N. Day, Gus C. Moser, Robert S. Farrell and T. L. Perkins, held its first meeting last night and was in session until midnight dis cussing preliminary plans for getting at the facts in regard to the text book situation and the proposals made in the Oregon Clvic league's outline of

school law revisions

All members of the committee were present except Senator Farrell. One of the chief features discussed was the Oregon Civic league's proposal that all registered voters should be allowed to vote at school elections. The members of the committee did not approve of this, although no definite conclusions will be reached until after representatives of the league are given a

Disapprove Taxpayers' Meeting. The opinion expressed last night, however, was that voters at school elections should be restricted to taxpayers and parents of children of school age. At present only taxpayers are allowed to vote. The committee opposed letting down the bars to all

registered voters. They favored the abolishment of the and levers. annual school meeting and giving authority to the school board to fix the annual school tax levy, but opposed the suggestion that the third Monday in June be named as school election day. a It was contended that much expense connected with the school election could be eliminated by holding it on the day of the regular city or county election. The suggestion was made that a plan could be worked out to have those entitled to vote at school elections make known their qualifications at the time of their registration and on election day a separate school ballot could be furnished them. The committee was not in favor of preferential voting for school elections This plan would eliminate the pro posal that the state and county school superintendents be elected at the special school election, instead of at the

general election. Teachers Become Active.

Sentiment in favor of the present tenure of office law for teachers in Multnomah county was expressed by the members of the committee. As soon as it was known that the Oregon Civic league had proposed a discus-sion of this law, teachers who had been instrumental in getting the law passed by the last legislature immedately became active again in behalf

The committee did not favor the proposal to refuse admission to primhowever, the Portland Vallean was door, nor the door of the smaller strong ary pupils after November 1 in metro-not punished, but is receiving help box within the safe, were locked on politan districts, nor raising the age the night of the crime. Instead the general opinion seemed to be that it would be better to reduce the age from 15 to 14 years, and reduce the minimum age from 9
