The first and last flash on the screen and all between are Marie Dressler. Whether she is kick-ing or being kicked, drunk or sober, waiting table or entertaining in soclety, pursuing or being pursued, she is screamingly funny every minute. Nor is she alone in her funmaking, for Charles Chaplin and Mable Normand are her right and left bowers. Mr. Chaplin is at his best in this feature, and although Miss Normand has comparatively little to do, she does it in her usual effective manner. There is an honest-to-goodness plot in "Tillie's Punctured Romance," and one which calls for some handsome interiors and exteriors, both of which are suitably provided. An effective bit is the snow picture on the mountain top. "Tillie's Punctured Romance" is the first successful attempt at a long comedy of this sort, and that the producer has able to provide situation after situation of irresistible comedy is something of a triumph. The feature will remain at the Majestic for the en-
