"Financial conditions have mended chants are not borrownig in order Sales of Best Hens and Springs Receipts Are Too Heavy at the Local Receipts Are Not Heavy but Wholesalers Lay Down New Rule very rapidly during the past 90 days," buy stock, as they formerly did whe That Hereafter They Will Ex-Ten Thousand Bushels of May

pect California to Deliver Produce According to Specification.

A New Year's resolve, a few days late to be sure, but nevertheless made, is announced by leading Front street wholesale produce interests.

Front street no longer proposes to be the "goat" of California fruit and produce shipping organizations which have for years shipped this market any old sort of stuff which the Port-land trade has always accepted with-pout question and has paid the price. Now Front street proposes to em-ploy real business methods in its pur-chases. It will no longer accept ship-ments from California, or any other point, to be exact, that do not come up to contract specifications.

to contract specifications. Celery that is loosely packed and contains small sizes in the center of the crate, will no longer be accepted. In fact, during the last 48 hours, two carloads from the south have been re-jected by the trade here. Every spring California ships new instances to the marked which if they

potatoes to this market, which if they were sent from this market to the mouth, would be quickly dumped. Heretofore this sort of stuff has been accepted without duestion and the local wholesalers have pocketed their losses. The New Year has brought the new resolve and this is a notice to Californians that they must play fair with the Portland trade or the game will no longer be played.

SMELT ZUN IS INCREASED

Run of Columbia river smelt showing a fair increase and there was a fair supply offering on the local market today at 12c a pound. Re-ceipts are still coming exclusively coming exclusively ceipts are still from gillnetters.

BETTER RUN OF SALMON NOW

Better run of steelhead salmon is reported from the Columbia river and the local market is well supplied. The best Columbia river fish is being quoted generally at 8@8½c a pound. Some of the coast stuff is selling at lower figures.

#### HALIBUT FAMINE ON TODAY

Famine in supplies of halibut are shown locally as well as at other points in the Pacific Northwest. The price is nominally placed at lic a pound but there is not sufficient ofas at other The fering to fill requirements.

### SPANISH ONIONS ARRIVING IN

Onions from Valencia, Spain, offering in the local market at \$2.50 per crate of 75 pounds. The stock re-sembles the globes of this section. but the shipment is not of as good quality as usual. Nevertheless, many buyers turn down the better quality local stock.

### POTATO MOVEMENT BETTER

Slightly better movement of pota-toes to the outside are reported from local and other Willamette valley points. Buyers are offering from \$500 pic for best Burbanks at stations

Are Made at 13c, Gene. ally; Only Limited Arrivals Shown; Turkeys Are Drug on Market.

Front street prices for chickens ar advanced again with the market very firm at the higher quotations. Best bens and springs are today quoted generally at 13c a pound. A few lots of poor stuff have been sold down to

Receipts of clickens here since the week started have been very disap-pointing and the market, after its long period of weakness and almost general inactivity, is today the best for many months. One remarkable feature about the present poultry trade 1- that no de-mand is showing for dressed turkeys. Stocks are still held along the street

from the holidays and there are no signs of any increase in activity. This is unusual. In most cases even with liberal supplies during the holidays—which was not shown this season—there is usually quite a fair demand for dressed turkeys after the turn of the year. Rather good quality dressed turkeys are going begging along the street today at 17c to 19c a pound.
