#### DEMAND FOR EUROPEAN POTATO QUARANTINE NOW BELIEVED TO BE THE ONLY SOLUTION

Stated That Even U. S. Department Twelve Cents Paid and Offering of Agriculture Is in Favor of Keeping the Southern Stock Out; Discriminate Against Oregon.

Latest reports from California seem to have justified local produce interests in asking that a quarantine be established against the sale of potatoes from that state in this or other Pacific northwest markets. At first it was generally believed

It is stated that the Unied States

deparment of agriculture is heartily in favor of the quarantine because it is believed that only by this step will chase california growers take warning and tion california growers take warning and endeavor to clean up their seed.
California has some very rigid quarantine laws to bar out the outside states whenever there is a chance that too much outside stuff will be shipped there and the industry of California there and the Nurserymen especially Nurserymen especially are strong in their denunciation of the methods of California interests. the methods of California interests. It is stated that only a short time ago an Oregon nursery sent a shipment of fruit trees to California and they were quickly condemned and returned to this state. The disease claimed was, if any such existed, so rare that even the leading horticultural authorities of this state were unable to find it in any of the standard references.

Killers were sitting on the price lid of hogs in the yards overnight but some of the stuff came direct to killers and did not enter the trade. The weakness in the hog market here seems to be but a reflection of the low prices that have been generally forced throughout the country. According to eastern advices just re-ceived, killers there have been most persistent in their bearish activity and have refused to take hold except when

in writing to The Journal regarding indication of this came this morning this condition, says: of the hog market today and for tops were not offering above \$7@7.05 this morning. There was quite a fair run of hogs in the yards overnight but is not less than \$100,000 worth of seed at the present prices in the hands of the farmer. You can compare this with the annual amount received for the products of the farm and see what per cent of this total we have lying idle. Also wish to add that unless growers dispose of this seed in the near future, there will be no chance to move it east, which is the market have for our surplus, because there will not be time enough to ship this east and get the seed in the farmers' hands there in time for sowing."
