PRESIDENT WARNS IN **COMMERCE** TALK OF **NEED FOR MORE FOOD**

He Tells U. S. Chamber of Commerce This Country Must Feed the World.

NEED FOR COMBINATIONS

Suginess Men Take Up President's Request to Show Him Advantages to Be Gained by Trade Alliances.

(United Press Leased Wire.) Washington, Feb. 4.-Business men, particularly in the United States chamber of commerce, today accepted President Wilson's challenge to "show wherein combinations of trade ing after the gold dollars abroad. Such | world?" combinations have the president's approval in advance, provided the champer, before which he spoke last night, can give facts to show that such combinations would not crowd out the small dealer, or the new man in the mmediately to convince the president that this nation can only meet foreign combinations through similar combina-

States is to feed the world."

culture at the disposal of the nation's the greatest possible. farmers to inform them of the best Mations' Interests Inseparable.

I would prefer that you receive me as if, for the time being, I were one life processes of business. of your own number," the President "because the longer I occupy the office that I now occupy the more I regret any lines of separation; the of interests; the more I feel the solwithout misconegiving it, the necessity most serviceable to my mind.

To my mind it is a picture of the world. If you have lost other interests and do not know the relation of your the government of the United States interests to those other interests, then you do not understand your own in- though not always with conspicuous terests and have lost yours. What you success or fortunate results. You can the points of the compass, relationship States by influencing its legislation. to the other people in the world; vital That has been an active industry, but connections which have for the time it has not always been managed in the tached to the word 'combination.' Most being been severed. So I am particu- interest of the whole people. It is in- of our combinations have a safety lock larly glad to express my admiration structive and useful for the governfor the kind of organization which you ment of the United States to have suc have drawn together

"Boosting" Destroys Perspective. there was only one city in the coun- legislation. try. And it has seemed to me that those associations were meant in order to destroy man's perspective, in order to destroy their sense of relative proportions-worst of all, if I may be permitted to say so, they were intended

o boost something in particular. Boosting is a very inhandsome thing. Advancing enterprises is a very band some thing, but to exaggerate local merit in order to create dispreportion in the general development is not a particularly handsome thing or a parifcularly intelligent thing.

"The advantage about a Chamber of Commerce of the United States is that United States and that is by seeing to little. t that the conditions under which usiness is done throughout the country are the best possible conditions. Phere cannot be any disproportion about that. If you draw your sap and your vitality from all quarters, then the more there is in the commonwealth as a whole, and every time you lift at ling with it. all, you lift the whole level of manufacturing and mercantile enterprise.

He Gains Liberal Education. "Moreover, the advantage of it is that you cannot boost the United States in hat way without understanding the the cabinet the other day that we had ing a liberal education.

"Of course, I learn a great many hear enough of them you see there is United States in the purposes of this ind. no pattern whatever. It is a crazy quilt. Whereas, the truth always matches, piece for piece, with other MUTT AND JEFF parts of the truth

"No man can lie consistently, and he cannot lie about everything if he talks

A Real Flesh Builder For Thin People

A New Discovery.

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one office. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your hutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction.

and need reconstruction.

Cut out the foolish foods and funny and need reconstruction.

Cut out the foolish foods and funny sawdust diets. Omit the flesh cream rub-ons. Cut out everything but the meals you are eating now and eat with every one of those a single Sargol tablet. In two weeks note the difference. Five to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh new red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and all druggists in Portland and vicinity sell them subject to an absolute guarantee. m subject to an absolute guarantee waight increase or money back.—Ad.

tee that if enough liars talked to you you would get the truth.

Service Is Country's Ideal. "There are a great many dreadful things about war, as nobody need be told in this day of distress and of terfor. But there is one thing about war which has a splendid side, and that is United States. You learn a great deal. the consciousness that a whole nation and tastes good—children like it. agreed with a colleague of mine in gets that they must all act as a unit he cabinet the other day that we had for the nation, and when peace is as centrated compound of genuine Norway visiting cards. never attended in our lives before a handsome as war, there will be no war, school to compare with that we were now attending for the purpose of gainself-sacrifice and of conscious service druggist for "21 ounces of Pinex"of the community with which, at any do not accept anything else. A guarthings that are not so. But the in-teresting thing about it is this: Things war, then shall there be wars no more, that are not so do not match. If you You have moved the vanguard of the aration. The Pinex Co., Fort Wayne,

"That is the reason I am here, be cause I believe that. There is a specific matter about which I, for one, want your advice. Let me say, if I may say t without disrespect, that I think you be shown that I am for them. are not prepared to give it right away. tended inquiries before you are ready I to give it. , What I am thinking of is shown. competition in foreign markets us between the merchants of different na-

Peature of Anti-Trust Laws. "I speak of the subject with a certain degree of hesitation, because the thing farthest from my thoughts is taking advantage of nations now disupon the fact-that you cannot do this abled from playing the full part in that get what you call opinions by contacompetition and seeing a sudden selfish advantage, because they are for the ere tonight, what relation you could time being disabled. Pray, believe me bear to the government of the United that we ought to eliminate all that scientific laboratory method by which thought from our minds and consider this matter as if we and the other natwo aspects and activities of the gov- tions of the world were in the normal circumstances of commerce. There is a normal circumstance of commerce in which we are apparently at a disad-

"Our anti-trust laws apparently-I scientific assistance. You get an illustration of the latter, for example, in the department of agriculture. Has it occurred to you, I wonder, that we are just upon the eve of a time when our department of agriculture will be of infinite importance to the whole world?

There is a shortage Growing.

Say apparently because I see the Attorney is set to the anti-trust laws of the United Btates apparently make it illegal for merchants in the United States to form combinations for the purpose of strengthening themselves in taking advantage of the opportunities of foreign competition. That is a very serious matter, for this reason: There world now. That shortage will be are some corporations and some firms. to be fed; and the methods of our sary in order to keep the trade they debusiness has not grown big enough to permit him to establish selling agen-

How Can Smaller Men Compete. "The expert commission merchant, perhaps, taxes him a little bit too high means of conducting his business. The uestion arises, therefore, how are the things by which you can set forms, er and weaker corporations-going to ou can state bases for all the scien- get a foothold as against the combinaions which are permitted, and even encouraged, by foreign governments in this very field of competition?

"American merchants feel that they are at very considerable disadvantage in contending against that. The matter has been many times brought to my attention, and I have each time suspended judgment because, in this matter, 'I am from Missouri,' and ! want to be shown this. I want to be shown how that combination can be made and conducted in a way which won't close against the use of everybody who wants to use it. A combination has a tendency to exclude new members When a group of men get control of a good thing they do not see any particular point in letting other people into the good thing.

Seeks Way for Cooperation.

"What I would like very much to b thown, therefore, is a method of co operation which is not a method of combination, not that the two words are mutually exclusive, but we have
