LIVESTOCK IN UNITED STATES INCREASING, AS FIGURES SHOW

More Milch Cows and Beef Cattle Than a Year Ago, According to Statistics.

MILLIONS MORE SWINE

Horses Sent to Prance More Than Made Up Increase for Year.

time in many years, information collected by the United States department of agriculture shows that all classes of livestock in the United States are increasing in numbers. Thus the real facts contradict absolutely sensational reports that prices for meat and shoes would rise to unprecedented figures in the immediate future. It has even been said that a government statistician predicted meat at 50 cents a pound and shoes at \$10 a pair within the next two years. Such a prediction, the real government statisticians say is quite unwarranted.

January 1, for example, the number of beef cattle showed an increase of 3.4 per cent over the number a year ago, and an actual increase of 1,212,000 head. Hitherto the number of beef cattle in the United States has declined steadily since 1910. There are also more milch cows in the country than last year, the increase being 2.5 per cent, or in numbers 525,000. Swine kowever, showed the greatest increase of all classes-9.6 per cent.

Swine On the Increase. January 1, 1914, there were only 58,933,000 swine in the country; on January 1, 1915, 64,618,000. This is accounted for by the fact that the production of swine can be increased more rapidly than that of other classes of livestock, and consequently an enlarged demand can be met more read-

The prediction of 50 cent meat and \$10 shoes was accompanied by the declaration that France alone has taken from America nearly 300,000 horses within the last five months, and that the other countries at war have drawn upon our resources in the same proportion. The facts are that more horses were on the farms of the United the merits of his bill, which is in line with a recommendation recently States on January 1, 1915, than there made by the secretary of state and which produces economy without rewere a year before, the increase being 233,000 head, or 1.F per cent.

Morse Values Decline. So far from France alone having taken 300,000 horses from us, the total exports since the war began have cer- a permit from his excellency, stating the maximum amount of expense he doctors and nurses. tainly been much less than 100,000 may incur as against the state during his absence, and the permit shall and very likely not over 75,000. Since there are approximately 25,000,000 horses altogether in the United States, the drain on account of the war is scarcely alarming.

It is, in fact, pointed out by government statisticians that the market value of farm horses has actually declined to such an extent that the average is now about \$6 a head less than a year ago. This decline is most noticeable in the cotton states; and in those states which make a business The records show that the 1231 persons committed to the state hospital of breeding horses for sale in other at Salem during the years 1913-14 were transported at an average per Mules have declined even capita cost of \$10. more than horses, their value being tation cost for the 483 convicts sentenced to the penitentiary at Salem now \$11.50 per head less than a year The explanation is to be found in the depression on account of the cotton situation in the south, which is the great market for mules.

Hides From 1 .aceful Countries. As for hides, the situation is not quite so clear, but even here there has been much gross exaggeration. From two fifths to less than one half of the leather used in this country is imported, about 25 per cent of the foreign hides coming from Argentina, 15 per cent from Canada, 11 per cent from bed problem without any additional legislation or expense. Mexico, 81/2 per cent from European Russia, and 71/2 per cent from France. Since the outbreak of the war, importations have shown a certain falling off, those for September, 1914, for example, being only 34,000,000 pounds. Instead of 45,000,000 pounds the year instead of 45,000,000 pounds the year whom he attacked. Sheaman had a previous. There is, however, little keg of whiskey in camp and Faulkner reason to suppose that this decrease will be permanent or of sufficient importaines to create any real scarcity. Since the great bulk of the imported hides come from countries that are not at war, shipments are not inter-

the warring countries. It is believed, however, that the United States is now in a better condition to face such a situation than for years past. The tide, it seems, has turned. Instead of livestock steadily the Bank of Kennewick. The consideration was not stated but it is decreasing year after year, this year for the first time, as has been said, classes show an appreciable increase. Including horses, mules, milch cows, beef cattle, sheep and swine, there were on January 1, 1915, 7,712,-000 more farm animals in the United States than on January 1, 1914. The increase in the total value was \$78,-024,000, or 1.3 per cent.

fered with in any way, and the only

new factor to be considered is the

possibility of an increased demand by

Store Thieves Make Getaway on Water

Merchandise Establishment at Mayger Entered and Quantity of Goods and Available Cash on Hand Is Taken.

Clatskanie, Or., Feb. 9.-The gen eral merchandise store of Louis Fluhrer of Mayger, about eight miles from this place, was broken into last night and a large quantity of grocerles was taken, as well as the contents of the till, amounting to something less than \$10. The total amount of groceries taken was not definitely ascertained, although it is known that the lot included several sacks of flour

The store is situated on the wharf, on the Columbia river, quite a dis tance from any other building, having a large river trade, and it is thought the thieves came in a launch, making their get-away in the same manner.

a large amount of canned milk, cheese,

Boathouse Is Raided.

Roseburg, Or., Feb. 5 .- As the result of a raid on a boathouse near Reedsport, at the mouth of the Umpqua river Monday, Marie Hammack and Marguerite Mulholland are being held under \$350 bonds to appear before the grand jury on a charge of conducting a bawdy house.

Bootlegging Is Charged.

Eugene, Or., Feb. 5 .- Gus Sheaman charged with bootlegging in the Russell piling camp west of Eugene, is in the county jail here and will be tried Monday. He is accused of selling
