Children Have Kidney Trouble

Three years ago my little girl, Angela, was taken sick with scarlet fever and later dropsy set in; her face and limbs swelled and her eyes puffed. A leading physician here at treated her without the slightest success. A sample of your Swamp-Root having been left at the house at the time. resolved to try it, and as it agreed with her stomach I continued using it with gratifying results. The inflammation began to subside after she had taken the first fifty-cent bottle, and after she took two large bottles she was pronnounced cured by the doctor and has been in good health ever since The doctor tame to see her every day and examined her every second day until he pronounced her kidneys in perfect condition.

Now then the doctor was under the impression that I was giving my girl nis medicine, but as his medicine failed to do a bit of good, and desiring not to offend him. I did not tell him was giving her Swamp-Root and he did not know the difference. I did not use one drop of his medicine after I started my girl on Swamp-Root, and have always felt that Dr. Kilmer's Swamp-Root saved my girl's life, for which I am grateful. I cannot praise it too highly.

Very truly, MRS. MARY BYRNE, New Brunswick, N. J. State of New Jersey)
