

SWEDEN, TEXAS AND CALIFORNIA COUNTIES SHARE IN ATTENTION

Dedication of Swedish Building and Opening of Texas Structure Main Events.

FAIR GROUNDS THROGGED

Santa Cruz, San Benito and Monterey Counties Dedicate Exhibits; Daffodils Distributed.

(United Press Leased Wire.)
San Francisco, Cal., March 2.—Sweden, the state of Texas and three California counties shared honors at the Panama-Pacific exposition today.

Ten thousand natives of Sweden and other Scandinavian countries flocked to the fairgrounds early in the day to participate in the dedication of the Swedish building in the Avenue of Nations. Richard Bernstrom of Stockholm, Sweden's commissioner to the exposition, was chairman of the day and delivered the principal address. President Moore of the exposition company and William B. Linnar, chairman of the United States exposition commission, also spoke, Moore presenting the Swedish commissioner with the official plaque.

An hour after this dedication the handsome Texas building was formally opened. Mrs. Reba Callaway Hulien was chairman of the day and delivered one of the chief addresses. Vice-President M. H. de Young presented the Texas representatives with the official plaque and Commissioner Linnar, Herbert Bolton of the University of California and R. A. Thomson of the interstate commerce commission, representing the governor of Texas, delivered addresses.

The Texas building is the direct result of the efforts of the women of Texas. Under the Texas constitution, the legislature could not appropriate for participation in an exposition outside of the state, so the women of Texas living in California organized and raised funds necessary for erection of the building.

During the morning joint ceremonies were held by representatives of Santa Cruz, San Benito and Monterey counties dedicating their exhibits in the California building.

Pretty girls from Santa Cruz county distributed 20,000 daffodils to the fair visitors.

RULES OF WAR MUST BE LIVED UP TO, SAYS U. S.

(Continued From Page One.)

and "contraband" is carefully avoided in the note.

President Wilson considers the British note and the American statement in the house of commons as merely an announcement of policy. The mode of putting it into effect is still to be determined. The administration holds that the question whether the belligerents are violating their promises to each other is of no concern to the United States, but that when they violate their promises to and agreements with the American government, the United States must insist that they consider and maintain their obligations.

High administration officials admit the gravity of the situation but they are hopeful that the American protests will be heard. It is considered certain that the neutral nations of Europe will ask permission to join the United States in dealing with the latest war development and that such a united front will receive consideration from the belligerents.

Protest Will Be Sent.

Until Premier Aquino's momentous announcement in the house of commons yesterday, the American

SECOND ATTEMPT TO BLOW UP GREAT CATHEDRAL

St. Patrick's Cathedral, New York, where anarchists are alleged to have placed a bomb in a second attempt to wreck building.

government had maintained that it could not, without weakening its original firm stand on the questions of submarine warfare and protection of neutral commerce, enter into further diplomatic parleys with any of the belligerents. For that reason no rejoinder had been contemplated to Great Britain's recent reply on this subject.

In view of the latest developments, however, it is now felt by administration officials that this government must voice a protest to Great Britain to maintain the nation's dignity, and if possible to save American commerce from interference. If the western allies in the European struggle really enforce the terms of their diplomatic embargo, practically all useful articles, hitherto considered noncontraband, will be barred from shipment from the United States to Germany either directly or indirectly. Cotton, one of the most important articles

Flour Prices Are Showing Decline

Slump of 20 Cents a Barrel in Selling Price of Patent Product in the Northwest.

Flour prices are showing the first decline since the present season started, and the news is welcome alike to housewives and those compelled to purchase the short weight loaves put out by bakers.

There is a general decline of 20 cents a barrel in the selling price of patent flour throughout the northwest. While millers here are, as yet, naming no open cuts in price, selling is generally on the lower basis. Within a day or so, it is expected that the lower prices will be officially named.

The loss in the price of flour is due to the record smashing of wheat values throughout the United States recently. Recent losses have been the heaviest in the history of the local wheat trade.

N. Y. DYNAMITERS ARE ARRESTED IN PLOT TO BLOW UP CROESUSES

(Continued From Page One.)

"Tip" that the attempt would be made, and several detectives were in the cathedral when it opened for the morning services. They declare that one detective, disguised as an usher, saw Abramo approach the high altar, slip the bomb under his coat and touch a match to the fuse. He was immediately seized and the fuse was stamped out. Abramo, who accompanied Abramo, is declared to have attempted flight but was captured outside the church.

After Carbone had been taken into custody, the trio were given a severe examination by the chief of detectives. The police have not made public the result of their "sweating."

This is the second attempt to wreck St. Patrick's within five months. The first was made in October. A bomb then exploded in the church, but did little damage.

The police later admitted that Baldo had acted the part of a "stoopigoon," and had given them the tip on which they succeeded in frustrating the plot. He was formerly an Italian policeman.

Chauffeur Fined \$10.

For passing a streetcar that was taking on passengers at Broadway and Everett streets Sunday, Paul M. Perwak, a chauffeur of 788 Mississippi avenue, who was arrested by Patrolman B. L. Monish, was fined \$10 in the municipal court by Judge Stevenson this morning.

NEW PASTOR TO PREACH SUNDAY

Rev. A. L. Crim.

The membership of Central Christian church, East Salmon and Twentieth streets, on Sunday, voted unanimously to extend a call to Rev. A. L. Crim of Tacoma, Wash., to become the pastor.

Mr. Crim is well and favorably known as a minister among the disciples. In Indiana, his native state, he was recognized as the "dauntless reformer" chiefly in his fight against the liquor traffic. He has spent most of his time in evangelistic work and is especially strong in his pulpit power.

Mr. Crim has decided to accept the call and will be with the church next Sunday morning, March 7.

During the vacancy in the Central, Rev. J. R. Johnson has very acceptably filled the pulpit, six having been added to the church.

DYNAMITE STOOD PAT

Centralia, Wash., March 2.—Two employees of the McCormick Lumber company are confined in Centralia hospital, one with a broken leg and one with a broken arm, as the result of a handcar jumping the track on the mill company's log road. The car plunged into a gulch, carrying one of the men and 50 pounds of dynamite with it.

Notaries in Pickle Over Moser Law

Salem, Or., March 2.—Whether a notary public can continue to place on documents the date when his commission expires, under the operation of the Moser law, is causing some discussion at the capitol. The Moser law says all persons appointed to office by the governor shall serve for indefinite terms, and it is admitted that a notary public is an officer.

The question is raised as to how a notary public can say when his commission expires, if he is unable to say all sorts of complications would arise.

At the governor's office it was stated today that appointments of notaries for two year terms are still being made. It was the understanding there that the notary could continue to say that his term expired

on the date the two year term ends.

On May 23 a new law regarding notaries will become effective which will require a fee of \$5, instead of \$2, and the term was fixed in the bill at four years, instead of two.

There are about 5000 notaries affected.

Remark Was Resented.

Charles Howland was fined \$10 in the municipal court this morning for assaulting D. Galet, an east side grocer, yesterday on Front street when the latter stopped him and inquired about a bill that Galet alleged the Howlands had been owing him for a year. Howland was driving an automobile when Galet stopped him and asked him for his wife's telephone number.

Pruitt Is Umatilla's Warden.

Pendleton, Or., March 2.—W. C. E. Pruitt, who during the session of the legislature was private secretary to Senator J. N. Burgess, is the new

game warden of Umatilla county. He took his office yesterday, relieving E. F. Averill. T. J. Craig, chief deputy game warden, was here to superintend the transfer. One of Pruitt's first duties will be to assist in the prosecution of Representative J. T. Hinkle and Dr. H. S. Garfield, recommended by Hinkle's membership on the law fish and game commission, for violating the game laws. Their trial is set for Thursday in the Hamilton justice court. They are accused of shooting ducks after sundown. A previous trial resulted in a hung jury.

YOUNG MAN NEEDS WORK

A young man, who, through a distressing train of illness and other misfortunes, finds himself among strangers and without a cent in the world, is seeking a position. Anyone who can supply him a position or even temporary employment, may call up the Associated Charities, Main 7051, or A-1517.
