 An organization of fruit and truck growers on the east bank of the Mississippi river in Louisiana, will be formed at a meeting at Pointe-a-la-Hache, which will be attended by Governor Hall, Mayor Behrman, of New Orleans, and other prominent officials. The new association will establish a uniform grading of products, packing and shipping, and bring together the growers.
 The descendants of the Coweitz tribe of Indians have a case two delegates to present at Washington their claims for settlement for the lands of the tribe. The treaty of 60 years ago, made by Governor Stevens, did not include this tribe. The women members of the tribe joined in a hot debate as to who should present the argument at Washington, but peace was finally patched up by sending two men, Peter Kalama and Frank Eyzell, representing both factions.
Advises Lime for Tuberculosis
 According to the Journal of the American Medical Association (July 27, 1912, page 308), Dr. C. F. Dixon, of Philadelphia, has shown that a deficiency of calcium (lime) is responsible for the physical conditions which lead to tuberculosis, and the therapy he advocates rests on this basis.
 One of the reasons for the widespread success of Eckman's Alternative in the treatment of tuberculosis and chronic throat and bronchial troubles is its ability to supply this deficiency.
 It contains a lime salt in such form and so combined with other remedial agents as to be easily assimilated by the average person. There are on record many cases in which it seems to have effected complete and lasting betterment.
 However, we make no exaggerated claims for Eckman's Alternative. We prefer that it be tried on the same basis one tries any other prescription, and we believe it will help, for IT HAS HELPED in many cases.
 It contains no opiates, narcotics or habit forming drugs. Therefore, it is safe to take. If your druggist is out of it, he will order, or you can get it direct.
 Eckman Laboratory, Philadelphia, Pa.
