COMING EVENTS

Friday evening, April 9, the first Friday after Easter Sunday, has been chosen as the date for the third party of the "Polles" dances. The "Polles" were introduced at the Muthomah hotel last fall and have been increasing in popularity with each party. The committee on refreshments is planning an elaborate supper to be served in the banquet hall. The committee in charge has decided to make this event the last dance of their series for this year. Every effort will be made to make this closing dance a feature of the season for the high school set, for which the "Polles" have become well known.

the boy generally will be successful; sending to a professional career; this should be encouraged, medicine preferred.

T.—Leadership is pronounced in any thing the boy enters into. He is inclined to misstate things. It will be hard for him to be exact in giving complete data respecting the children without careful elaboration and sufficient space; but in summary, both children are above the ordinary in ability, the latter especially, and if tact be used in the training, pronounced results will accrue.

A. N. K.—Two natures are evident, one optimistic, aggressive and impulsive, the other depressed, inclined to worry and inclined to disturbances with the other sex.

S. J. P.—Your ambition alone will insure success and your best years appear after passing your twenty-eighth year, for the issues mentioned.

M. R. S.—Your friendship for the party denotes disturbance, yet it is greatly your fault, because you do not handle the situation as you should. Assume indifference in a graceful manner and favorable results will follow.

Mrs. E. C. Carrol.—You have a natural taste for decorating and designing; you do not like opposition, but acquiesce for the sake of peace; you would judge that you easily laugh and rarely cry; would bear trouble rather than fight it; emotional in feeling, sanguine in temperament.

J. S.—There is an amount of unselfishness apparent, which will straighten itself, sure, but without an amount of opposition and delay meanwhile.

Nell H.—Two temperaments are evident; one shows a restless, ambitious nature the other reflects a sober, practical nature.

Dolly G.—You failed to state year born.

A. M. K.—Although your ambitions lead to high ideals, which, by the way, they will not be unfulfilled, rather, I caution against too much display of aggressiveness, as you have, evidently an abundance of spirit and ability; you evidently are a young lady, straightforward, assertive and dominating. I add that you will marry well.

Miss Ruth E. G.—You have a sunny disposition, are sensitive and inclined to cater to persons who surround you, rather than oppose them. You are a lover of the beautiful, flowers, music, pictures, etc. One of intense emotion, rather passive in disposition and domestic in tastes.

G. T.—Whatever turn your affairs assume, I am sure of the fact that they will not be unfavorable, rather the reverse. Any change entered into will assume favorable proportions in your favor.

Mrs. W. E. M.—Much depends on the domestic relations, but if they are handled, the year is favorable to your interests or to whatever action or move you make.

Gay W.—I would not be in any hurry to get married, as future years denote many annoyances and embarrassments in this connection, yet not necessarily serious. You have splendid prospects ahead of you, having many talents. I would advise you to develop these latent abilities. You are quite young to assume domestic responsibilities, yet you are innately equipped for such. Yet I advise care be used.

A. K. T.—Thrown on your own resources, your prospects appear excellent. You will be handicapped from affections somewhat, and by disturbances of health, brought on through worry. Excellent years appear between 26 and 40.

H.—Unsettled, more or less appears the order for the year, tending towards improved conditions later, especially better in 1916, and still better in 1917, 1918.

Helen, L.—Yes, not later than November of this year.

Bessie H.—You are very adaptable to various issues that constantly arise, are determined, often to your detriment, though hard for you to forget offenses and you are sadly offended. You often are considered unsympathetic, but are not so. You have good self-control, and are very tenacious of attachments. You are passive in disposition, creative in taste, emotional in feelings and phlegmatic in temperament.

The persons who told you what you existed know not of what they speak; investigation will assure you this.

YOUR FRECKLES

Need Attention in February and March or Face May Stay Covered.

Now is the time to take special care of the complexion if you wish it to look well the rest of the year. The February and March winds have a strong tendency to bring out freckles that may stay all summer unless removed. Now is the time to use othine—double strength. This prescription for the removal of freckles was written by a prominent physician and is usually so successful that it is sold by druggists under guarantee to refund the money if it fails. Get an ounce of othine—double strength, and even a few applications should show a wonderful improvement, some of the smaller freckles even vanishing entirely. (Adv.)

Mrs. William Bohlander of 125 Laurelhurst avenue, entertained Wednesday, in honor of Mrs. C. S. Fulton who left Thursday for Seattle to locate permanently.
