

# WOMEN CAMP ALONE IN FASTNESSES OF THE CASCADE MOUNTAINS

### Trio of Lane Maids, Armed to Hairpins, Forsake Civilization of Town.

### GOOD SHOT AMONG THEM

#### Saddle Horses and Pack Horses Carry Fair Sportsmen Into the Wilds.

(Special to The Journal.) Eugene, Or., March 27.—Three young women living at Oakridge, 45 miles east of Eugene, left that village Thursday with saddle horses and pack horses for a four days' camping trip to the Rigion ranch, 25 miles farther into the wilds of the Cascade mountains. They will enjoy the wild camp life alone and unaided by man for the next few days. They have come well armed and are prepared to kill any wild animals that may cross their pathway.

The women are Miss Hallie Mills, Miss Georgia Strong and Mrs. Fred R. Hutzell.

Miss Mills is an expert horsewoman, an experienced mountaineer and knows every trail in the mountains above Oakridge. She will be the guide of the party. She is skilled in the use of firearms and is said to be as good a shot with a pistol or rifle as the average man.

#### Dixon Sees Fair.

Eugene, Or., March 27.—That the crowds at the Panama-Pacific exposition are comparatively small and that the expected travel from the east and middle west has not yet begun is the statement of A. C. Dixon, manager of the Booth-Kelly Lumber company, who returned to Eugene yesterday forenoon from a short trip to the exposition city. Mr. Dixon, who has been closely connected with James E. Danaher, one of the prominent stockholders of the Booth-Kelly company, who is now in Detroit, Mich.

#### Will Visit the Lake.

Eugene, Or., March 27.—Ten or fifteen people from the University of Oregon will make a short camping party by way of Oakridge and the headwaters of the Willamette river this summer. They will probably start about the first of July. They will take the train at Eugene for Oakridge, 45 miles distant, and take pack horses from that village and go by easy stages to Waukeo lake, and thence south to Crater lake. The party will break up at Crater lake, returning to Eugene by rail from Medford. Professor A. C. Shelton, biologist at the university, will be at the head of the party and will combine pleasure with his work in gathering specimens of wild animal and bird life in the mountains.

#### Will Build Shed.

Eugene, Or., March 27.—The manual training students of the Eugene high school will erect a play shed at the Lincoln school, the doing their first piece of work. Arrangements have been made for the erection of a building 40 by 60 feet in dimensions on the Lincoln school grounds, where the children may play when the weather is bad.

#### Big Camp Opened.

Eugene, Or., March 27.—Persons coming in from the coast county state that the C. A. Smith Lumber company of Marshfield, has opened a large logging camp between Marshfield and the Siuslaw river, employing 1000 men.

#### After Race Factory.

Eugene, Or., March 27.—A committee of 12 business men of Eugene has been appointed to direct the campaign to secure the \$50,000 fund for the erection of a race factory in Eugene and at a

# Horrid Pimples Kill Dimples

### But Stuart's Calcium Waters Will Remove the Unsightly Blemishes in So Short a Time as to Seem Almost Impossible of Belief.

The crowning beauty of a woman is her skin. She may have only ordinary features or even a coarse heavy contour of face, but if she is the possessor of a fine, colorful skin, showing vigorous health and a pure blood, she will grow attractive to every eye.

The girl: "Betty has a pretty face and cute dimples, but the pimples are horrid."

The mother: "Stuart's Calcium Waters would remove them in a jiffy."

The great trouble with the majority of women is that they try to remove pimples by outside treatment, such as frost, massage, cosmetics, electricity, etc. These methods will not cure nor even temporarily remove pimples and facial disorders.

The difficulty is generally impure blood. The blood is a fine, clear matter filled with poisons. Its color is black or blue or brownish cast, instead of ruby red, it should be.

The best color always comes in youth, of course, but all the cosmetics in the world will not give you the color if your blood is diseased or filled with impurities which it cannot remove or throw off.

Go to your druggist, whoever he may be, and he will give you a box of Stuart's Calcium Waters, price 50c.

#### Free Trial Coupon

F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich., send me one box of Stuart's Calcium Waters, price 50c, by return mail, if I enclose this coupon.

# "GRIZZLIES" ARE THE "MAZAMAS" OF SOUTHERN OREGON

Top—Two views of Quigley Rocks. Bottom—"Grizzlies" of Medford on occasion of their first hike to Quigley Rocks.

(Special to The Journal.) Medford, Or., March 27.—The Mazamas of Portland now have a sister organization recently formed in southern Oregon and known as "Grizzlies."

The new club will follow along lines similar to the Mazamas and will foster the idea of verifying historical events and locations, and of marking the latter with suitable monuments.

There is an abundance of material to work from in this section; old Indian lore, the exciting days of Oregon's first mining camp at Jacksonville, battles with the redskins and the last stand of the "Rogue Rivers" at Table Rock before being banished from the valley forever.

Weekly trips are planned, the first trip having already been taken to "Quigley Rocks," a freak formation seven miles from Medford. Forty-four attended the first meeting. It is soon expected to pass the 100 mark.

The annual meeting and high jinks will take place on the night of the second Saturday in September on "Grizzly Butte" in an amphitheatre of lofty pines, high above the valley. Officers will be elected and reports of the times of the past summer will be read around a blazing campfire.

Each year it is planned to take a walking trip of about two weeks' duration, the right shoe and hat being likely walk to and around "Crater Lake," a total distance of 201 miles. The camp equipment will be handled by teams and the cooking done by hired cooks. During the three days' journey around the rim, communication with the hotel and outside world will be maintained by the aid of heliograph. Very few people have passed around the rim and this will be the first time for a large party to attempt the feat.

# Seattle Fireman Is Seriously Crushed

### Captain Thorne Thrown From Truck While Answering Call; Internal Injuries May Prove Fatal.

(Special to The Journal.) Seattle, Wash., March 27.—Speeding to the scene of a small fire in the vicinity of Occidental avenue and Dearborn street at an early hour today, Captain W. D. Thorne, commanding engine company No. 16, of the Seattle fire department, was thrown from the truck on which he was riding and crushed beneath it as it overturned. Captain Thorne sustained a fracture of the ankle, the right shoulder and hip joint and internal injuries which it was declared at the hospital would probably prove fatal. The accident was caused by the wheels of the truck dropping off the edge of a plank roadway.

meeting last night 25 men were named as captains of that many committees to make the canvass. Each committee will consist of three men. Their work will start at once. Already \$27,000 has been subscribed with apparently no effort on the part of those in charge of the work. This amount was promised during a few days when the canvass was sounding out the business men upon the subject.

#### Mill Will Start.

Eugene, Or., March 27.—The Eugene Lumber company's sawmill in this city will resume operations in a few weeks. The company has let the contract to start a log drive in the mountains above Eugene, on the Willamette river.

#### Spring Activities at Dee.

Dee, Or., March 27.—The Oregon Lumber company is making extensive improvements to its property, preparatory to starting its mill next month. The planer has been moved to the railroad track from the river bank. The planing mill is being built on the bank of the plant escaping destruction by fire in 1913. The Mount Hood railroad is placing new sand and ballasting the track from Hood River to Parkdale, 18 miles. New steel rails are also put down where any old ones are found defective in any way whatever.

Edgar W. Winans has returned to Cornelius, after a visit with his son, W. R. Winans, at this place. Edgar W. Winans will be 90 years old November 8, this year.

Paul Winans is having the yard lumber moved from his mill to the railroad switch.

#### Fights With Safecracker.

(Coast News Service.) Fresno, Cal., March 27.—Joseph Huber, owner of the Cosmopolitan Hotel, surprised a safecracker at 4:40 o'clock this morning. The men fought all over the hotel lobby, hitting bullet holes all over the room. Massias escaped unhurt, with one bullet hole through his coat. Two confederates on the outside tried to join in the fight. All three escaped. The safe containing \$1000, was blown with nitroglycerin, but not robbed.

#### Mother Sends List.

Roseburg, Or., March 27.—Following the arrest of seven Roseburg youths this week on charges of contributing to the delinquency of Hazel Quine has received from the sheriff's mother, Mrs. Maud Parker, the names of 24 other young men of this city. List are said to be married men of this city.

#### Will Maneuver at Klamath.

Klamath Falls, Or., March 27.—Klamath reservation has been chosen as the site for the maneuvers of the artillery of the organized militia of Oregon, Washington and Idaho next summer, according to word received here. The militia artillery range will be near Fort Klamath.

# NO FATAL ACCIDENTS REPORTED IN WEEK TO COMMISSIONER HOFF

### Sawmill and Logging Industries Lead Again in Total Number.

(Salem Bureau of The Journal.) Salem, Or., March 27.—Forty-three accidents, none fatal, were reported to Labor Commissioner Hoff during the week. Eight of the accidents occurred in paper mills and seven in machine shops. Thirteen accidents occurred among those engaged in the sawmill or logging industries, while seven were hurt on railroads. The following is a list of the accidents:

Charles Peters, Oregon City, two fingers bruised, paper mill.  
S. R. Logsdon, Oregon City, arm bruised, paper mill.  
N. W. Neath, Oregon City, hand cut, paper mill.  
E. D. Fike, Oregon City, finger cut, paper mill.  
Conrad Gurnaski, Oregon City, chin bruised, paper mill.  
G. T. Russell, Oregon City, foot bruised, paper mill.  
S. W. Jackson, Oregon City, finger cut, paper mill.  
George F. Neakes, Milwaukie, finger cut, paper mill.  
John Sword, Portland, finger cut, machine shop.  
C. W. La Grande, Leland, finger bruised, railroad train.  
G. D. Newton, Woodburn, ankle sprained, railroad train.  
A. R. Arnold, Springfield, toe crushed, lumber yard.  
J. R. Retwell, Leland, finger bruised, railroad train.  
G. D. Newton, Woodburn, ankle sprained, railroad train.  
Elmer Chowning, Portland, finger cut, machine shop.  
John Bystrom, Portland, hand cut, sawmill.  
Smith, Portland, wrist cut, sawmill.  
Bert Long, Pendleton, back and shoulder bruised, railroad train.  
W. E. Naughton, Portland, leg bruised, store.  
A. Wright, near Yonahla, rib bruised, railroad train.  
Clifford J. Reamer, Enterprise, wrist bruised, planing mill.  
Anton Sousa, Latham, leg broken, railroad yard.  
N. W. Brown, Astoria, nail in foot, Gas company.  
George Leacock, Marshfield, arm bruised, sawmill.  
Charles Morrow, Portland, hand and fingers bruised, sawmill.  
J. E. McLearn, Linnton, back bruised, lumber yard.  
C. W. Raseneagle, Astoria, two fingers lost, planing mill.  
G. S. Baker, Portland, ruptured, railroad train.  
Mike Kuzmang, Portland, three fingers bruised, sawmill.  
John T. Johnson, Portland, wrist cut, sawmill yard.  
R. McMullen, Lebanon, eye injured, railroad train.  
T. E. Luster, Portland, two toes lost, engineer.  
Steve George, Portland, chest bruised, lumber yard.  
Mike Bubulo, Portland, instep bruised, blacksmith.  
Gene Walker, Granite, eye injured, engineer.  
Carlson, Portland, foot bruised, machine shop.  
Horace Stuart, Portland, knee bruised, machine shop.  
Mike Jenny, Portland, hand injured, machine shop.  
Arthur Conahan, Portland, back bruised, machine shop.  
C. Cosovich, Astoria, finger cut, sawmill.  
William Gregory, Astoria, arm cut, sawmill.  
William Westmoreland, Marshfield, foot injured, logging.

#### Must Show Hide.

Salem, Or., March 27.—Natives of the Philippines are not capable of self-government, according to Mrs. W. H. Stead of North Carolina, who is a guest here of her daughter, Mrs. George Palmer Putnam, while en route to her home. She says the present system of government in the Philippines is working satisfactorily.

State Engineer Lewis has received word that the three commissioners of California's recently created water board will spend Wednesday and Thursday of next week here for the purpose of studying the system followed in the adjudication of water rights and handling other matters.

That the hide of an animal killed

# Clay Manufacturers May Get Together

### Dean Bexell of Oregon Agricultural College Urges Organization for Purpose of Advertising Oregon Goods.

(Special to The Journal.) Oregon Agricultural College, Corvallis, March 27.—There are 30 manufacturers of brick and other clay wares in Oregon at the present time, according to Dean J. A. Bexell, of the Oregon Agricultural college school of commerce, who advocates an organization of the manufacturers for the purpose of getting their Oregon made wares more prominently before the public and into the markets by means of advertising and cooperative effort. The combined output of the industries is about \$700,000 annually, and the expenditures average about \$1500 for each \$50,000 of output. A part of this sum will be expended in promoting a demand for the clay goods, especially drainage tiles.

In the clay industries as in most others the attention given to production is disproportionate to that given to creating and enlarging the demand. Right quality of product that will maintain a permanent demand, together with due advertising and publicity, will, thinks Dean Bexell, bring success in this business. The advertising should be such as will attract attention, create the desire to buy and stimulate the demand.

#### Praise Watson's Department.

Salem, Or., March 27.—Zane, Morse & McKinley, Chicago attorneys, complimented Corporation Commissioner Watson's department highly in a recent letter, declaring that the firm had considerable experience with various secretaries of state in securing incorporation papers but had seldom received better looking documents than those sent out here by Watson's departments.

# HI GILL AND PASTOR MATTHEWS BURY THE TOMAHAWK FOR GOOD

### Seattle's Mayor and Fighting Minister Clasp Hands and Promise Each Other Help.

### CAFE DANCING AT ISSUE

#### Police Take Unexpected Part in Proceedings That Were Merry and Gay.

(Special to The Journal.) Seattle, Wash., March 27.—Two of Seattle's cafes, Tate's and the Hofbrau, sought to put things on a New Year's basis, at least so far as dancing is concerned, this week, permitting the tables to be pushed back and foot-trots, one steps and maxizes staged, but the police rushed in and put a stop to the terpsichorean joy.

Mayor Gill has issued an order permitting dancing in the dining rooms of hotels, as well as in the Rathskeller cafe. He refuses to permit dancing in Tate's, the Hofbrau, the Breakers and other cafes, as he says "they carry on a trade chiefly of booze and not of food." The Rathskeller, the feature of a meeting of the Men's club of the church, Mayor Gill was invited to speak on municipal problems.

It is very gratifying to me to sit beside the pastor of your church," the mayor said at the conclusion of his address before the club, "and I can say to him as he to me, we are friends."

A storm of hand-clapping greeted this statement.

Dr. Matthews said: "I can reciprocate in the mayor's closing expression. Not only are we friends, but I will help him to the limit of my ability."

This public expression of Dr. Matthews provoked more applause.

Regulation of detective agencies and private detectives as a means of protecting the public from irresponsible persons having police authority is provided for in a bill introduced in the city council this week. The proposed ordinance requires that all detective agencies and private detectives

# Sewer Question Is Up at Forest Grove

### Proposition to Change Charter Was Defeated Last Time, But Some Features Have Been Altered.

Forest Grove, Or., March 27.—The electors of this city may again vote to change the charter if a proposition is put before the council carries. At the annual election last January the charter amendment was defeated by a large majority, the most objectionable feature of the charter being a provision which would have empowered the council to order an extension of street paving where such paving was within two blocks of the end of a street already paved.

It is proposed to eliminate this section of the new charter, and also a number of other objectionable features. It is desired that the new charter be adopted by the voters, as it provides for the building of a sewer system, and will enable the council to correct defective sidewalks and provide other necessary improvements that will promote the health and safety of the citizens of the municipality.

shall be licensed, similar to the method of licensing saloons and pawnbrokers. The amount of the license has been figured at \$5000 a year for agencies and \$1000 a year for individual detectives, although these amounts have not been definitely fixed by the council.

With the arrest of Kenneth Brown and H. D. Matthews, and the alleged discovery of a quantity of morphine and yenshe on their person, there is to result the first prosecution under the new federal drug act of March 1. District Attorney Clay Allen will bring the case of these two men directly before the grand jury, now in session.

A strike that may tie up Seattle's entire street railway system with the exception of the municipal lines seems imminent as employees of the traction company have already begun to organize with Sam Atkinson, international organizer for the street railway union, on the ground. A mass meeting will be held Tuesday in the Labor temple to formally "protest against" the tactics of the Puget Sound Traction, Light & Power company in refusing their employees the right to organize. Dismissal of the men from the traction company follows their known entrance into the union.

Russia has 25,900,000 horses.

# The Giant Among Tires

## Why Does Goodyear Tower So High Among a Hundred Others?

Last year we sold 1,479,883 Goodyear pleasure car tires alone—about one tire for every car in use.

Yet Goodyear has some hundred rivals. How came this tire to dominate like that?

### Millions of Salesmen

Can there be any reason but this? In the years before, we sent into service millions of Fortified Tires. And those tires, by their records, sold the tires of last year.

You know that. Perhaps you favor another tire. But you know in your heart that Goodyears, in some ways, must excel the rest.

### Five Costly Ways

They do excel—in at least five ways, costly and important. Each is exclusive to Goodyear Fortified Tires.

These combat rim-cutting, blowouts, loose treads. They combat insecurity, punctures and

skidding. These tires alone get our "On-Air" cure, which costs us \$450,000 yearly. They alone, for safety's sake, have 126 braided piano wires vulcanized into each tire base.

They alone have our All-Weather tread. Its toughness and thickness resist wear and puncture. And no other tread has such sharp, resist-less grips.

### Reductions Total 45%

Goodyear price reductions for two years total 45 per cent. The last big reduction was on February 1st. Three times in two years, as our cost came down, we cut the cost to you. Thus our matchless production always insures you most for your money in Goodyears.

Each year these tires grow better. We keep scores of experts constantly working, seeking new ways to improve them.

Doesn't fairness to yourself suggest trying these tires? Any dealer will supply you. (2281)

## GOOD YEAR Fortified Tires

AKRON, OHIO

Fortified Against Rim-Cuts—by our No-Rim-Cut feature. Loose Treads—by many rubber treads. Insecurity—by 126 braided piano wires. Punctures and Skidding—by our double-thick All-Weather Tread.
