Don't you want to make biscuits like this?

-browned perfectly on top, without being baked hard; -white as snow inside, breaking open with an appetizing softness; -and so light that you wonder how they can be made.

Cottolene

The one great test of any shortening is with biscuits. Use Cottolene - use a third less than of any ordinary shortening.

It mixes easily; it blends perfectly with the flour.

Last Saturday was one of the greatest days in the history of this big market. We are looking for an even bigger day this Saturday because we believe that everyone who visited us was pleased. The great rush of new customers found us with an insufficient number of salesmen, but we shall profit by last Saturday's experience and are well prepared to give prompt service, either over the phone or to callers.
