JITNEY QUESTION MAY BOB UP TO ANNOY DIGNIFIED SENATORS

Busses Now Buzzing Around National Capital Same as Other Cities,

Attorney General for District of Columbia Sent West to Get Papts Concerning Operation of New Service.

(United Press Leased Wire.) San Francisco, Cal., April 9 .- Dis tinguished United States senators may soon be engaged in heated discussions and debates on the subject of C., attorney general for the District cal issue. of Columbia, who is here today investigating San Francisco's automobile bus association.

"Jitney" busses have already made their apeparance on the streets of the national capital, Syme declares, and the district commissioners there, taking time by the forelock, have sent Syme west and south to look into the condition of affairs in New Orleans, Los Angeles, San Francisco," Kansas City and other cities where the "jitneys" are beginning to compete with the street car corporations.

If the district commissioners Vashington decide that the task of regulating the "jitneys" is too hig for them, it will be passed on to congress, makes laws for the government of the District of Columbia.

As Syme has found the "jitney" problem to be very important in all parts of the nation, he considers it probable that it will be discussed in the halls of congress. This sepends, in a large measure, on the report which Syme is to make to the commissioners at the end of his tour. If he considers the "jitney bus" worthy of the attention of the senate and the house, it may develop into a congres sional issue.

Syme said today that he found the street railways in Los Angeles, where Orleans the traffic congestion, que to transportation, it would soon be a any border troubles. very serious menace to street car corporations everywhere.

A squadron of warships under Rear Admiral Caperton of the United States navy is anchored near Tampico, and if it appears that the Americans are in danger of being killed or injured by rioting troops, it is possible that a landing will be made by sailors and marines. The plight of the foreigners marconed in Tampico is being communicated to Admiral Caperton, and an effort may be made to give the starving ones safe conduct out of the fighting zone.
