

TOURIST TRAVEL NOW INCREASING ON TRIP FROM SAN FRANCISCO

Gains Also Reported in Travel Through Portland From the Routes in North.

RESERVATIONS ARE MADE

Better Class of Hotels Will Share in Improvement to the Full Extent, It is Said.

Travel has begun to move in heavy volume through Portland from the California expositions. John M. Scott, general passenger agent of the Southern Pacific, declared today that the trains from San Francisco are running daily with from one to three extra Pullmans. Hoteliers say their hosteleries are comfortably filled with travelers.

Most of the exposition tourist travel so far has been northbound, but there is a gradual increase in the number of people coming over the northern routes, and by the 1st of May the volume is expected to have increased many fold.

Out of 25 people in a Northern Pacific parlor car going from Portland to Seattle last night, seven were easterners on their way home from the fairs.

Many Reservations Made. A large number of the travelers are spending only a few hours in Portland. While this may not be a majority, railroad men say efforts are being made to induce them to remain long enough to get a fair conception of Portland and its environs. City ticket agents of the Great Northern, North Fork, Northern Pacific and O-W, R. & N. are encouraging the longer stay by suggesting pleasant side trips, and many have been induced to take them.

Reservations are already made for the months of June, July and August will tax our capacity," declared one hotel manager this morning. "We are receiving inquiries every day for accommodations of parties large and small, several entire special train parties having been arranged for."

"I look for more business in the hotel line than the better class places can care for. The effect will spread also to the smaller hotels."

Travel is "Spotted." Railroad men look for the bulk of the travel, particularly through Portland from the north, to begin in mid-May, and increase in proportions after the national parks open on June 1. Most of the far eastern tourists are planning to include Glacier and Yellowstone on their itineraries, and are holding off their trips to the fairs for that reason.

The railroads have been a trifle disappointed in the volume of business actually moving so far, particularly the lines that take the passengers from the Shasta route northward and eastward. They complain that the travel is "spotted," the days being heavier than convenient, and at other days with cars running almost empty. They look for a rapid increase in density of travel, however, as the tourist period goes on.

No More Boxing, Says Chief Clark

Mayor Albee Directs Action, Pending New Ordinance; Scheduled Bout is Abolished.

"There will be no more boxing matches of any kind until the new ordinance regulating boxing becomes effective," said Chief of Police Clark this morning. Clark has been directed by Mayor Albee to stop the bouts and none will be allowed."

This action will result in the calling off of the semi-professional bouts scheduled for the Armory by the Imperial club next Tuesday night. The orders, according to Chief Clark, mean that no matches, even where no prizes are offered, will be permitted.

"Too many liberties have been taken in the past," said Chief Clark. "The giving of clothing, grocery and other orders for prizes has been a blind to cover giving of money and that must stop. The state law I believe to be too severe, but the city ordinance, which will give the sports a fair opportunity to be popular to satisfy all good sports."

Yamhill County Is Proud of Record

Newberg Commercial Club Reports Record of Crops From Surrounding Country. Newberg, Or., April 9.—At a meeting of the Commercial club last night the following figures were presented by Mr. Morris as the record of the products of Oregon. Every one of the articles mentioned is produced in this county, and Newberg and the country immediately adjacent form an important part of Yamhill county:

Wheat raised, 19,000,000 bushels; wheat shipped, 12,000,000 bushels; flour, 1,000,000 barrels; corn, 850,000 bushels; 1914, 2,500,000 bushels; oats, over 13,000,000 bushels; dried prunes, 15,000,000 pounds; cherries, the same; cabbage, 35,000,000 head; butter, 25,000,000 pounds; carrots, 17,000,000 pounds; eggs, 150,000,000 dozen; cattle value, \$40,000,000; hogs, \$17,000,000; honey, 6,000,000 pounds; potatoes, 9,300,000 bushels; peaches, 1,750,000 boxes.

"Trust Is After Me," Says Parker. "Frameups, pure and simple, inspired by the dental trust," said Dr. Edgar R. (Fainless) Parker, this morning, on his return to Portland from California to answer the damage suits against him of Dr. Guy Pennybacker and Dr. H. W. Penhalligan, former employees in his office. "I was discharged from these men, and refused to take them back only a few days ago. They allege that they are suffering from poisoning from an anesthetic they used in my office. As a matter of fact the poison is in their minds, and the minds of the members of the dental trust that is trying to put me out of business."
