ROSEBURG WILL VOTE UPON PROPOSITION OF BOND ISSUE FOR ROAD

City Council Sets June 3 as Date for Balloting on the Kendall Proposition.

SENTIMENT IS FAVORABLE

Coos Bay Financial Backing Allowed to Stand Without More Consideration.

Roseburg, Or., April 12.—The Roseburg city council, in regular session last night, unanimously authorized a special election to be held here Thursday, June 3, for the purpose of voting on the construction of a railroad from Roseburg to the boundary of the national forest, 30 miles east of Roseburg. By a vote of 5 to 3, the council defeated a motion to place on the same ballot the question of repeating the \$500,000 bond issue already voted for the purpose of aiding in the construction of a railroad between Roseburg and Coos Bay.

The bond issue to be voted upon next June is the amount of a bonus asked from the citizens of Roseburg by Kendall Brothers of Pittsburg to aid them in constructing a standard gauge railroad to the vicinity of their extensive timber holdings on the North Empqua river. A free right of way for the railroad line is also asked from the city of Roseburg by the Kendalls. When these conditions are complied with, and a 40 acre tract is donated for a sawmill site, the Kendalls agree to construct the railroad, to cost approximately \$750,000, and to build a sawmill of 200,000 feet daily capacity near Roseburg.

If the bond issue carries the Kendalls agree to accept the bonds at par. The title to the railroad when completed will vest in the city of Roseburg, and the city council will have a hand in the making of rates, although the projected road will be used as a logging road by the Kendall Lumber company, it will be a common carrier, and its use will be open to all competing logging or lumber companies as well.

The Kendall company agrees to lease

the railroad from the city of Roseburg for a period of 50 years, with the right to purchase at any time within the term of the lease for \$300,000.

Judging from the enthusiasm shown over the project by the people of this community, there seems no doubt of the carrying of the bond issue. Meetings will be held in the farming districts east of Roseburg this week to sound the farmers as to their willingness to donate rights of way through their respective properties. Several farmers of that vicinity, it is said, already have declared their willingness to give a free way through their property.

The Kendall Brothers agree to begin construction on their railroad and mill as soon as they are notified that the people of Roseburg have accepted their proposition.
