Weather Conditions. Weather Conditions.

A small low pressure area is central over Saskatchewan and a large high pressure area overlies the lake region. The barometer is relatively high over the North Pacific states and relatively low over the North Atlantic states. Showers and thunderstorms have occurred in Colorado and New Mexico and local rains have fallen in portions of the lower lake region, Middle Atlantic and New England states. Changes in temperature since yesterday have been unimportant.

The conditions are favorable for fair weather in this district tonight and Sunday.

Lecture on Bahai Movement,-Roy C. Wilhelm, one of the American vicepresidents of the international Bahai movement, gave a lecture at the li-brary last night to local followers of that faith and others interested in learning its principles. Mr. Wilhelm said that the movement recognizes truth in all religions and does not demand that anyone believe any particular creed. The movement stands for international peace and brotherhood, and urges the individual to so govern his conduct that no strife or hatred will result from his contact with his fellow men. Mr. Wilhelm is the guest of Mr. and Mrs. J. W. Latimer, and with them and other Portland followers of the new religion will attend the international Bahai congress at San Francisco April 19 to 25.

Will Lecture on Travels .- Albert E. Bailey, who has traveled extensively and who has met and accompanied several Portland travelers in their foreign rambles, will deliver two lectures next week, Tuesday and Thursday evenings, at the Lincoln high school. "English Rule in Egypt" will be the subject of the first lecture. The second lecture will be on "The Religions of India," and will be illustrated with stereopticon pictures. Mr. Bailey has recently returned from an extended sojourn in India. H. C. Campbell of this city had Mr. Bailey, for a traveling companion dan and through Palestine, Syria and Greece. He and other Portlanders also met him in Egypt in 1906.

What the federal reserve bank is "This is a wonderful territory."

Panics hereafter will be impossible ecause whenever a condition arises Formerly, as soon as a bank had loaned out what money it had, there was no more and credit would stop. Under the new system, that is where the principle of credit begins. The banks can merely call on the federal reserve bank, securing money on notes and continue making advances to carwell as in good.

System Advantageous. "It is not only during periods of de-pression, however, that the federal reserve bank becomes a factor in the financial system. The bankers all over the northwest—and the whole country, too—find in the system a daily advantage. Discounting of com-mercial paper by the reserve bank through the local banks is increasing.
