to remove the disfigurement with ordinary mecolized wax. Applied nightly, the wax will gradually remove freekles, pimples, moth patches, liver spots, sallowness, red blotches or any surface eruption. The affected cuticle is absorbed, a little each day, until the clear, soft, youthful and beautiful skin beneath is brought wholly to view. Ask the druggist for one ounce of mercolized wax and use this like you use cold cream. Remove in morning with soap and water. Many who have tried this simple, harmless treatment report astonishing results.

If troubled with wrinkles or furrows, a wash lotion made by dissolving i oz, powdered saxolite in ½ pint witch hazel will prove wonderfully effective.
