Policeman Accused of Inducing Boy to Swear Falsely to Protect Local Druggist.

Patrolman R. R. Bailey has been discharged from the police bureau because of charges brought by W. H. Warren, secretary to Mayor Albee. Warren has an affidavit signed by Mrs. Jennie M. Davis, 181 East Thirty-third street, to the effect that Patrolman Bailey had tried to get her to swear falsely to her boy's age.

Bailey has been a member of the police bureau since June 30, 1912. He is a good tennis player and a member of the police quartet.

Brownsville, Texas, April 21.—(U. P.)—An abject apology from the Carrazza commander across the border from here today ended the tense situation arising from the firing of several shots at a United States army aviator by Mexican troops.

The commander explained that a drunken Mexican officer ordered the volley which sent rebel bullets whistling about the head of the American aviator. This satisfied Colonel Blockson, in command of the American forces here.

Californians Will Dress as Refugees At Dance Tonight

Dressed as refugees, members of the California society will observe the ninth anniversary of the San Francisco earthquake and fire with a dance and entertainment at the Masonic Temple tonight. Credit Men to Hold a Meeting Tonight

The regular monthly meeting and dinner of the Portland Association of Credit Men will be held at the Multnomah hotel tonight. The subject of discussion will be "The Credit of the City," and the speakers will be A. L. Barber, city auditor, and Sigel-Grutze, chief deputy auditor.

The former will talk on the city's general credit situation and outstanding bond issue, and the latter will discuss the proposed amendments to the Hancock bonding act, which will come before the voters at the June election.

Another feature of the program will be a public examination of a mercantile report on a concern which is asking for credit, but which report will be disguised as to name. Those present will be given an opportunity to tell whether or not they would extend credit on the showing made by the statement and how much, or whether they would refuse it. This will be a novel feature, and will put each member on his mettle.

Owing to the absence of the board of directors from the city and the fact that the monthly meeting occurs on the same day, no noonday luncheon will be held this week.

Those who went to the Tacoma convention included the President, Edward Drake, W. W. Downard, E. G. Leiby, E. M. Underwood, B. M. Denison, W. J. Henderson and E. K. Knapp, manager of the adjustment bureau.

SHOOTS MAN AND WOMAN, KILLS SELF OVER HOTEL DEAL

William Hunter, 49, Attempted to Murder Couple Who Sold Him Property.

Los Angeles, April 21.—(U. P.)—William Hunter, 49, early today shot and seriously wounded Beachey P. Crampton, 49, and the latter's wife, Winifred, 20, and then committed suicide by shooting himself through the head. Hunter recently came to Los Angeles from Hartford, Conn. Crampton and his wife were taken to the receiving hospital, where prompt treatment gave them better than an even chance to recover.

Hunter recently purchased a hotel from the Cramptons, who remained at the place to instruct the new owner in his management. Crampton said that Hunter later became dissatisfied with his purchase and declared that he had been bested in the deal.

Soon after rising this morning Hunter met Crampton in a hallway and an argument followed. Later Crampton told the police, Hunter stole upon him and shot him through the back with a revolver. The bullet just missed the heart.

Mrs. Crampton, hearing the shot, ran to investigate. Hunter fired point blank at the woman, the bullet passing through her neck. She was killed.

Apparently believing both his victims were dead, Hunter then ran to his room, locked the door and sent a bullet through his brain.

Rabbits Dying Rapidly. Salem, Or., April 21.—Rabbits are dying off in the vicinity of Silver Lake from some mysterious malady, according to a letter received by Governor Withycombe. In some cases, dogs have died after eating the rabbits and the question is raised whether it would not be dangerous for people to eat the rabbits. The suggestion is also made that if the disease is one that will exterminate the rabbits without harming human beings, it might be well to find some means of spreading it.

Umatilla County Works on Roads

Pendleton, Or., April 21.—Practical good roads work was done in many parts of Umatilla county yesterday, merchants and auto owners joining with the farmers in fixing many of the bad places. The day was proclaimed by the recently organized automobile club as "good roads" day and everyone was invited to turn out with picks, shovels, rakes and barrows to aid in the work.

In the west end of the county particularly much valuable work was done, the residents of Echo, Stanfield, Hermiston and Umatilla turning out to fix up their roads. Not to be outdone by his white neighbors, Parsons Motanic, the Indian farmer, spent the entire day in working on the reservation road past his ranch, and thereby made travel better for his new six-cylinder car.
