

RACING CAR DRIVER BLAMED FOR FATAL ACCIDENT SATURDAY

Witnesses Estimate Speedman Going 30 to 50 Miles and Other 25 to 30.

Emerson Reid, driver of racing car No. 8, was blamed by the coroner's jury last night for the death of H. S. Miller and Theodore C. Hyde, who were killed in the automobile smash-up at Forty-ninth and Tillamook streets Saturday afternoon.

Reid took the witness stand for a few minutes, but ex-United States Senator C. W. Fulton, his attorney, refused to allow his client to go into the details of the collision.

Reid was re-booked this morning on a charge of manslaughter, and will be given a preliminary hearing Judge Stevenson some time today.

Estimates of the speed of the racing car by witnesses varied from 30 to 50 miles per hour.

Other witnesses testified to the smaller car's speed as 25 to 30 miles an hour.

Mrs. E. McMillen said that the wrecked car was weaving back and forth across the street, just before the accident, as if its steering gear was defective.

Miller's body was shipped last night to Fort Worth, Texas, where mother and sisters live, and Hyde's body is being sent today to Pennsylvania.

Mrs. Josephine Spencer, the woman most seriously injured, has been taken from the Good Samaritan hospital to her home, 1016 Grand avenue, north.

Collegians Climb Larch Mountain

A tired but happy bunch of Reed college hikers returned Sunday afternoon from their second all-night trip to Larch mountain to see the sunrise.

There is several inches of snow, they had the thrilling experience of watching the last of their stock of 12 camp matches burn out before they could start the fire.

The party also witnessed the splendid sunrise and could see Portland. On the way down, the women got on the wrong path, and it took about an hour and a half to track them up and find them.

The party was in charge of Charles S. Botsford, head of the department of physical education at the college.

The other members of the party were: Misses Doris Foreman, Josephine Saunders, Laura Kelly, Nell Brown, Edna Metcalf, Agnes Winchell, Maude English and Dorothy Van Seggerson, and George Kistler, Fred Weber, Archie Clark, Frank Scott, Edwin Zabel, Edgar Bennett, Robert Watson and Edward Hensell.

Former Congressman Lafferty was so informed in a letter received today from the secretary of the navy.

Mr. Dierdorff is directed to proceed by boat leaving Portland May 9 and will go to New York via Panama canal.

There he will await orders from the superintendent of the naval academy to report for physical examination.

Former Engineer Attempts Suicide

Charles Simmons, aged 37 years, formerly an engineer on the S. F. & S. railroad, attempted suicide yesterday afternoon at his home, 238 East Fifteenth street, by taking bi-chloride of mercury tablets.

He is at the Good Samaritan hospital, where his condition is reported to be serious.

Despondency over inability to secure work is given as the reason for the act.

Simmons has a wife and a seven months' old daughter. He has been without work for many months.

MAYOR ALBEE URGES PORTLAND TO OBSERVE HOLIDAY THURSDAY

To the People of Portland—Thursday, May 6, we are to celebrate in this city the opening of the Cello canal, one of the most important events in the history of the northwest and one which even possesses considerable national significance.

It seems highly fitting that the entire city of Portland should then lay aside the cares of business and routine life and enter with the greatest enthusiasm into the celebration of the opening of the Cello canal.

We shall be honored by the presence of many distinguished visitors on that day. I take pleasure in calling upon the people to make it a half holiday, and trust that it will go down in history as not only one of the most important events of the Pacific northwest, but as a pleasant memory and a new epoch for us.

Payne Thinks He Can Beat Mark

University of Oregon, Eugene, Or., May 4.—"I can run it in 9:27," painted Floyd "Mose" Payne immediately after he had finished the two-mile race against time in the Oregon-Multnomah meet here Saturday in 9:40.45, which is over nine seconds faster than the Northwest Collegiate record.

Payne is after the Pacific coast collegiate record which is at present held by Guy Hobgood of O. A. C., who negotiated the eight-furlong trot in 9:27 last year at the California meet.

Local sports here think that Payne has the mettle of Vere Windnagle, the Portland and ex-Oregon athlete who is now astonishing the east under Cornell colors.

Payne ran his race Saturday practically against time, and ended apparently without overfatigue or exertion. On the home stretch he sprinted, covering ground faster than the milers did at the end of their race. He will have his chance at the meet on May 7 and 8 at the California meet to be held in San Francisco.

Payne comes from Athens.

Jury Fails to Fix Blame for Murder

Unable to Determine Whether Priest or Peter Glennon Himself Fired Shot That Killed Ketter.

Banning, Cal., May 4.—(U. P.)—Without seeking to place the blame for the death of Peter Glennon, a coroner's jury has adjourned today after delivering the following verdict:

"Death was due to a gunshot wound in the neck, received while trying to murder one Clara Scherrer, and Paul Reinfels, and from the evidence adduced, the jury is unable to determine whether the said shot was fired by Paul Reinfels or the deceased."

Glennon was shot and killed at Palm Springs, Friday, when he entered the
