

"Midnight Blue" To Be Fashionable

Owing to War, Sombre Colors, Such as Dark Browns, Greens, Will Prevail for Women This Fall.

Cincinnati, Ohio, May 14.—(U. N. S.)—More individually, sombre in color, and more distinctively American than ever, will be the fall and winter styles in garments for American women.

great conflict having caused a scarcity in dyestuffs. The colors will not only be sombre, but such shades as dark brown, dark blue and dark green, will prevail. "Midnight blue" is the favorite term applied to the dark blue.

The elk now are scattered to all parts of the reserve, he says.

WHAT CASH PRICES TO ALL MEANS TO YOU

Business men will tell you it costs about 10 per cent of the gross sales to do a credit business. The extra amount of bookkeeping, the expensive help and the losses which always occur, make this extra cost necessary. Naturally, they must be added to what you pay for your goods. On the other hand, a house which does a cash business can save you this amount. If you have the cash, it will pay you to buy where your cash will work for you and save you money. At this market it counts and it pays you a big rate of interest. If you will compare our prices on identical goods with others, you will at once realize the savings you enjoy here.
