LACK OF METERS MEANS WASTE OF WATER; EXPENSE

(Continued From Page One.) Here is another basis for illustra-

tion. Pipe line No. 1 from Bull Run has a daily capacity of 22,000,000 gallens.

Sold at 12 cents a thousand gallons this amount should bring to the city \$2640 a day or \$63,600 a year. But the actual income is \$850.000.

The difference is \$113,800. The city should apparently be geting more from the flow of one pipe line than from the two it possesses. Apparently it should be unnecessary

o have a second pipe line. But there is a second pipe line. Users Pay Bills of Wasters. And, obviously, this second pipe line was built, not to meet the city's de-

mands for use, but in submission to the tyranny of waste. And, more obviously, many of the millions of investment in added mains and pipe lines and reservoirs are made to meet waster not use. The wasters

are 8 to 10 per cent, the users are 90 per cent. But the users pay the bills. "The point is well taken," said Will H. Daly, commissioner of public utilities, this morning. Unquestionably, we could reduce the
