GERMANY WANTS TO

to Insist on Original Demands as the Best Course.

By John Edwin Nevin. Washington, July 7.-(U. P.)-Ger-many desires to learn the minimum nodifications that may be made in the submarine warfare in order to meet the views of the United States.

This is declared to be the main purpose of the unofficial negotiations which have been started by the Ber-lin foreign office. Officials said to-day that the feeling toward the Uni-ted States, officially at least, was extremely friendly, but it had been pointed out that to relinguish the submarine warfare would mean troufor the imperial government at home. Germans regard the submarines as their most effective weapons which to combat England's attempt to starve the nation.

If President Wilson heeds the advice of his cabinet members, he will stand upon the original notes of protest sent They have written the ident at Cornish expressing the belief that to weaken now will mean more trouble later, when new difficul-

It is believed that President Wilson finally say he cannot withdraw original demands made by this government.

Despite this, however, Germany's reply, when ultimately received, is ex-pected to be friendly and leading to further exchanges.

Reply May Come Saturday.

Berlin, Via The Hague, July 7.-(U. P.)-Salurday is the new date on which it is now stated Germany's re-ply to the American Lusitania note may be handed to Ambassador Gerard. Chancellor von Betlimann-Hollweg returned to Berlin from his daughter's sendding today and immediately went dding today and immediately went o conference with Foreign Minister on Jagow. It was following this con-

ference that it was stated the reply would probably be forwarded to the American ambassador Saturday. With the exception of Count you Reventiow, military criticof the Tages Zeitung, all editors have refrained from discussing the probable contents of the German note for days. As a whole, the press is friendly in its expressions towards the United States. The German papers are unanimous in condemning Frank Holt, who planted the bomb in the national capitol and shot I. P. Morgan. They express the belief that Holt was insane.

Tells of Chautauqua.

"The word "Chautauqua" had origi-nally no meaning significant of the in-stitutions which bear its name today." said S. E. Webb in his address of welcome Tuesday afternoon.

"The word is an Indian word, meaning a sack tied in the middle. The 'mether Chautauqua' in New York state was located upon Chautauqua lake, a body of water so named for its shape. That is how the institutions came to be so named.

"But the word has a different meaning today. After years of use it has come to stand for the highest type of recreation. Chautauqua is known day as the name of an educational in-stitution which is most uplifting in its character. Communities which have Chautauqua are distinguished by the high class of their citizens, and for this reason the number of the institu-tions are rapidly growing."

Mr. Webb welcomed the visitors to the 13 days of excellent program pre-pared by the Willamette Valley Chautauqua. The speaker is a native of Kentucky, and he spiced his talk with homely stories of the south.

Rev. T. B. Ford, pastor of the First Methodist church of Oregon City, responded.
