N'CREDIE FAILS TO LAND SHORTSTOPPER FROM NORTHWESTERN

Portland Manager Tries to Land Willis Butler, Johnny Butler, Gislason or Ward.

DERRICK WILL TRY SECOND

Speas Will Come in From Ontfield to First and Stumpf Will Shift to Short for This Week.

Walter McCredie is up in the air about a shortstop. The Beaver manager was in Seattle yesterday trying to Secure a shortpacher to fill Bobby Davis' shoes, but he returned this morning empty handed.

Mac tried to get Gislason, the sus pended infielder of the Vancouver Beavers, but failed. He then tried to get Willis Butler of the Victorians, Johnny Butler of the Tacoma Tigers and last of all he made an offer to John Barnes of Aberdeen for Ward. All his efforts went for naught, as the Northwestern league clubs are short-The Beaver boss still has hopes of

anding one of these players before the week end. In today's battle he will probably send Bill Stumpf to the short patch position and use Fred Derrick at the keystone sack. Billy Speas will the keystone sack. Billy Speas will take care of first base. This was the way they practiced this morning.

There is a possibility of McCredie wiring the Boston Red Sox for Bill Rodgers, former Beaver captain. The securing of Jack Barry from the Athletics gives the Boston team a couple of extra infielders and Manager Carrigan could easily let the Portland chief have his former second sacker. It would be up to Rodgers, who has said that he doesn't want to come back to hat he doesn't want to come back to

Portland.

McCredle was confident that the Northwestern league would finish the season as per schedule.

Judge McCredle says that he would like to see Walter give Eddie Bozart a chance. The Piedmont slugger is anxious to attempt to fill Davis' shoes ious to attempt to fill Davis' shoes but Mac doesn't want to take a chance at this torrid period of the pennant race with an inexperienced infielder.

1 Watersnake Eats 42 Little Trout to Satisfy an Appetite

That watersnakes are doing more damage to young trout than any other agency, is the belief of Perry Kitzmiller, superintendent of the Eagle Creek trout feeding station, who killed a reptile, cut it open and counted 42 inch and a half rainbow trout, weighing from eight to ten grains each. Kitzmiller saw the snake

busily engaged in swimming around the feeding pond about o'clock in the morning of July 3, and concluded to scotch it. The destruction of the young fish prompted him to kill another, which, when opened, revealed a four inch silverside salmon in the stomach. Kitzmiller has declared war on all water snakes and has

issued a general call to arms, clubs, rocks or whatever is handy on the part of all fishermen in the state against the new and common enemy. A watersnake will destroy more trout in one, morning, says * Kitzmiller, than some fisher- *
