

RAILROADS FIND WHEAT RAISING COULD BE A DISASTER

With Poor Supply Coming Neat, Hogs and Chickens Drop

Hens Stiffen But Others Drop Under Strain—Market Has Been Ready for Break All Week—Change Expected.

Weak and Lops, after wobbling towards a weakness all week broke this morning under the strain of the continued flood of poor stuff. Chickens, on the other hand, stiffened under the security of good stuff and advanced a half cent.

These two markets have furnished the features of the week's business on front street. Dealers in them have been the victims of circumstances.

The market was first materially affected by the hot weather. Shipment after shipment of poor stuff was received. The price for good stuff stiffened slightly at the beginning, but as the demand fell away the price also weakened. Later it fell away further, with the result that this morning the top price for veal was 10 1/2c, and for hogs 9 1/2c.

Butler for this market has absolutely in the demand. The call has been light for weeks and only an increased demand will send the price back again.

The security of hogs and broilers stiffened that market yesterday and today, despite efforts of the dealers to stock up. It would appear that the farmers were too busy with other lines to tend to their poultry. Repeated calls by one dealer for hogs for his Saturday trade were unanswered. The price for the steers rose 1 1/2c, a quotation is expected early in the coming week.

Light Rain Falls On Umattilla City; Helps Green Grain

Portland, Or., July 9.—A drizzling rain which fell in the morning at Umattilla City, according to reports from that place, was a considerable benefit to Umattilla county farmers, according to reports from that place.

It is reported that the grain has been harvested in some places and that the grain is now beyond help from weather conditions. Inasmuch as the crop has been so good, it is expected that the market will be better than it has been for some time.

Light rain has not done much for the grain, especially that sown in the spring, which will be harvested a week or two later. The rain has delayed harvest a few days and has interfered with the fall end of the harvest. But the reports from the south end of the county and reports from there indicate that the harvest has not been much damaged.

SALES ARE WEAK AND RECEIPTS NORMAL AT PORT AND YARDS

Portland, July 9.—Carriage on passage: Wheat 3d to 4 1/2c higher. Corn 6d higher.
