SOME ACCUMULATED STOCKS OF EGGS IN FRONT ST. MARKET

Rather Heavy Withdrawals of Ice House Pack by Storage Interests, Together With Liberal Receipts of Fresh the Cause.

Egg market while outwardly indicating coniderable strength with well maintained prices, is rather on the fence. There are nulations in some squarters and while as yet no special disposition has been shown hade prices to clean up, fears are felt that unless an outside interest takes hold of

In the meantime the local jobbing price to retailers is being held intact with sales of No. 1 stock at 25c generally, although a sprinking of business is shown as high as 26c a dozen. The fact that case count has been sold recently by some of the receivers as high as 20@21c indicates that the market is dangerous. is dangerous.

To some extent the feeling now apparent in the fresh egg trade is due to the rather heavy withdrawal of stock from ice houses. With receipts of fresh stock quite fair and with the added offerings of storage goods, the wants of the trade are more than well taken care of. Storage interests are inclined to take profits earlier than usual.

CHICKEN MARKET IS GOOD For chickens there continues a very good feeling in the local wholesale trade with heavy heas and the larger springs in improved call at extreme prices. For heavy heas sales are general at 12½@13c. Springs range from 18c for the smaller birds to 224g23c for the larger ones.

SMALL PEACHES ARE DRUG Small sixed peaches from the interior continue to drug the trade here with sales at low prices. With most of the offerings from the interior of small sixe the general range of prices is not very good, although large peaches find a good call.

BANANAS ARE HELD FIRMER Regular weekly trainload of bananas was reported in today along the street. Owing to the numerous recent advances at gulf ports the trade here is holding the price generally strong at 5c a pound.

GOOD CORN NOT PLENTIFUL While there are quite fair arrivals of green corn from The Dalles, little of the stock is of fancy quality. Growers there are losing money every day they refuse to segregate the small from the large ears. Sales general at 25@30c a dozen.

BRIEF NOTES OF THE TRADE Fresh prunes in larger supply from the south with the market quiet. A very fancy shipment of California grape-fruit is reported in. Tomatoes are firm with prices maintained. Another car in from Merced, Cal. Fancy Wenatchee apricots in firm request, but small sizes are slow.

SHIPPERS' WEATHER NOTICE Weather bureau sends the following notice Protect shipments during the next 48 hours as far north as Seattle against maximum temperatures of about 70 degrees; northeast to Spokane, 85 degrees; southeast to Boise, 85 degrees; south to Ashland, 95 degrees.

ONION TRADE IS LIKELY TO DROP TO LOWER PRICE

Onion prices are about to sag. The price at present here is being held rather firm and high, but this is due to the fact that the general wholesale trade has been a rather liberal buyer at former prices at both California points and in the Walla Walls section. Sales of both California and Walla Walla onions are reported generally today along the street at \$1.40@1.50 a cental. Quite good quality is shown from both sections.

The fact that Walla Walla has a very big crop of onions this season and that first shipments only have been received here as yet, indicates that with the growth of the shipping season the market will begin to show price concessions.

Shipments of onions from the Walla Walla section to outside points have started well in carlond lots with indications of a liberally increased movement during the next few days. Growers there are showing a general disposition to take the market price and are moving their crops as quickly as posible. Sales of both California and Walla Walla

Maximum temperature at Portland tomorrow about 74 degrees. SACKED VEGETABLES SLOW For sacked vegetables the market is very slow just now. Offerings from many points are heavy with the wholesale trade showing little disposition to take hold. Most sales by wholesalers are reported at \$1 sack.

PATENT FLOUR VERY QUIET AND WEAK AT PRESENT; SOME CUT

Quotation to \$5.60, but Local Mills Are Holding Unchanged-Barley Down Today.

Market for patent flour is very quiet and weak. At \$5.80 the general list of patent the market shows singgishness. Some cutting down to \$5.60 is reported, some of the interior miliers being anxious to do business at any price. While leading miliers here assert that there is not to be an immediate change in general patent quotations, still the cutting by the interior milis may force

the cutting by the interior mills may force the issue.

Owing to the low price of whole barley the rolled stuff is showing a decline today with quotations down to \$25.50@26.00 a ton Wheat was strong this morning with some advance at Chicago. Foreign markets in general were of good character, there being an advance of 1d for spots at Liverpool and \$5c\$ rise at Paris. Buenos Aires was reported strong but unchanged in price.

Demand for new crop wheat is growing locally, although, buying interests are inclined to go slow in taking hold except for immediate delivery.

Weakness Forced In Chicago Wheat After Higher Star

Chicago, July 14.—(I. N. S.)—Following a slightly higher opening in the grain market today weakness developed and prices sagged. At the start wheat was up %@I cent a bushel, corn was ½@½ cent higher and oata started ½@½ cent higher.

The general appearance in the market was that shorts had pretty well covered. Wheat acted heavy. that shorts had pretty well covered. Wheat acted heavy.

Sentiment in the pit on all grains was more bullish today than for some time.

In the corn trade, the action was weak. After the slight advance at the opening, sagging tendencies set in. Seiling was general. Oats acted with wheat and corn. Provisions were slightly higher at the outset.

Later in the day, on a heavy short covering movement, there was a big jump in wheat prices. July wheat advanced 5c to \$1.16 a bushel. Shorts bought heavily. Last sales in wheat were 3 to 5% above the opening.

Strength developed in com and oats due to short covering, because of the upturn in wheat. A large export business was reported in oats late in the day. Corn finished % under to % higher than the initial prices, while oats were unchanged to ¼ up.

Provisions were strong at the close.

DRESSED MEAT TRADE WEARY; NO SNAP SHOWN

Dressed meat trade along Front street is showing signs of weariness, although no fur-ther general change in prices is indicated. Receipts of country killed hogs along the street have been rather liberal of late, but street have been rather liberal of late, but for best quality—of which only a small per cent of the arrivals will grade—the trade is generally receiving 9½c a pound with occasional sales reported as high as 10c.

There is no snap at all to the buying of veals in the calf trade. Although there has been no real heavy supply of veals available here recently the wants of the trade are well taken care of. Sales of most arrivals are reported at 10½c1lc a pound with something extra choice as high as 11½c. Only a few transactions at the higher price are reported by receivers. by receivers.

A few dressed lambs are coming forward from valley points and are meeting with a good demand at lic for good quality. Mutton in general is not plentiful but there is only a small demand for these as a rule along the

Says Allies Must Follow Germany

Cologne Paper Asserts War Convinces tutions After Ones in Germany. London, July 14 .- (I. N. S.) -The Times prints the following Berlin special:

"All German newspapers give prominence to the announcement that the military attaches of neutral states who have been following the German campaign in Galicia have returned to Berlin and departed for the western

front.

"The Cologne Gazette sums up the situation after a year of war. It says:

"A year of fighting has brought the allies no other success than a perception of the fact that the best thing they could do would be to reconstruct as soon as possible on the German as soon as possible on the German as soon as possible on the German bail, as he expects to be, he hopes to may take advantage of the investment.

This year has proved clearly that these institutions in Germany are so perfect that there are no gaps in them through which Germany could be hit. The finest brain, or the most pitiless humorist, could imagine no more everwhelming satire than that which has been written by the history of the past year. The failure of the league to fail upon and destroy Germany should surprise no one. It could have succeeded only had the allies possessed the organization which Germany possesses and which cannot be improved after a year of war, but which can only slow-
