State Senator Makes His Position Clear Regarding Oregon and California Grant,

WRITES TO WITHYCOMBE

Objects to Plan to Permit Railroad to Sell Land for More Than \$2.50 an Acre and Pocket Money.

Salem, Or., July 15.—State Senator Dan Kellaher of Multnomah county declares in a letter to Governor Withycombe that he is heartily opposed to the governor's plan for dealing with the Oregon & California land grant

words: 'It seems to me the very best the state can do, under the circumstances, is to recommend to congress that all the lands be classified as to value and sold at a reasonable valuaion in the speedlest and most prac-

"How, I pray you, would the poor and landless citizens of the United States, for whom congress intended these lands originally at the time the grant was made, receive one iota of the Tillamook county superintendent benefit from your plan? Would not your plan require that every acre be was unable to get results, he says. His sold at its market value? It sure statements are backed by an affiwould, while congress at the time the grant was made never so intended it.

Governor Pavors Company. "Then it follows that the homeless and propertyless citizen would have no more chance to get a piece of this land than he would to buy a home from any private proprietor—and that's the game. Any man may buy all the land he wants now in the open market, if he will pay the market value, but that does not help any and

does not populate Oregon." Kellaher also objects to the governor's plan because, he says, the executive openly advocates that the railroad be permitted to make the sales at the market value, while the United States supreme court says it shall re-ceive only \$2.50 an acre, and, by implication, at least, the governor advocates that the railroad be permitted to retain a large part of the proceeds in advance of the \$2.50 per acre, which is the only interest the company has in the land, according to the decision of the supreme court.

Objects to Plan. Kellaher objects to a plan of divid-

ing profits between the railroad and the state of Oregon, scoring severely the proposed "milking of the settlers for the benefit of a great state like "I hardly believe that the patriotic

citizens who are out from under the influences now working to save the \$50,000,000 swag involved in the marcet value of these lands, will approve of your suggestions." Kellaher suggests that congress be

requested to pass no bill at all, in which event every acre of the land must be sold to actual settlers under ing over the European war recently, the decision of the supreme court as it his wife said. He told the authorities stands, or that if congress does act | that he saw the diagram or code the that it merely pass a bill to aid the last of June in a Portland morning federal court at Portland in disposing newspaper and has since been enof the lands to actual settlers.

"The Oregon delegation should be instructed to fight to the last ditch atic, any bill that would have for its object the sale of these lands at their market value," says the senator.

Opposes Special Session.

Kellaher says a special session of the legislature would be valueless and a burden on the people and points to those who wish to loan. (Adv.)

The export of war material from the United States as a proceeding of the present war is not in consonance with the definition of neutrality. The American government, therefore, is undoubtedly entitled to prohibit the export of war material. PROTEST TO THE U. S.

"Regarding the possible objections that American industry is willing to supply Austria-Hungary and Germany, which, however, is impossible, owing to the war situation, it may be pointed out that the American government is in a position to redress this state of things. It would be quite sufficient to advise the enemies of Austria-Hungary and Germany that the supply of foodstuffs and war material would be suspended if legitimate trade in these articles between American and neutral articles between American and neutral countries were not permitted."
