

MRS. FELS SAYS HER HUSBAND NEVER HAD TROUBLE WITH LABOR

Widow of Late Tax Reform Advocate Addresses Central Labor Council.

PREDICTS HOUSE CLEANING

Conditions in England Subject of Address by Dr. J. W. Slaughter, of London, Delivered Last Night.

The Central Labor Council last night at the Labor Temple transacted routine business rapidly until 8:30, when it received Mrs. Mary Fels, of Philadelphia, Dr. J. W. Slaughter, of London, England, and Daniel Keifer, of Cincinnati, Ohio. A large number of visitors were welcomed to seats.

W. S. U'Ren introduced the guests and called attention to the Fels fund having helped to retain the power of the people in their hands when the associated privileges of Oregon made a combined attack upon statements No. 1, the other primary the ability law, the initiative and referendum and other progressive measures before the electorate.

Had No Trouble With Employers.

Mrs. Fels told of her late husband, Joseph Fels, seeking to deal justly by the working people in his employment, and of giving them money in wages so that they could get what they wanted for themselves, and not be the recipients of charity. He helped in securing conditions at home before he went outside, and never had a strike, never had a walkout, or a lockout with his employees, nor any trouble with them because he welcomed them to organize and paid them more than any other trade worker in those lines resided in other places.

In turn, she said, Joseph Fels sought the reason for poverty among the workers by securing city lots for the poor to work on, by getting training farms for city men to learn how to farm on, and by getting land for the trained workers to go back to, and everywhere and in all lines, and he found the landlord and the land speculator capitalized what was done and pocketed the proceeds. It was the same in England as in America.

Dr. Slaughter was introduced by Mr. U'Ren as an American born and reared, who looked, talked and acted like an Englishman. He predicted the establishment of better conditions in Europe for the working people. "Democracy will be on the move in Europe," he said, "when these wars are over."

Dr. Slaughter spoke of the exactions of the shipping trust in England today, and urged his hearers to support the shipping bill, and to support the National Tax association convention in San Francisco.

"The invitation was extended and many of the delegates assured me that they hoped to come to Portland within a few years. The Pacific Coast can have the convention about that year should it desire and Portland is in line for the convention if it is wanted."

He spoke of the British parliament as a "wasteful show" and said workmen elected to it became members from the trusts reposed in them "by being wined, and dined, and cleared into being respectable, and down, perhaps, but not workmen after a few months of respectability."

Very shortly after the open speaking the Council went into executive session, chiefly to consider the situation regarding the musician's trouble with the theatres and motion picture houses.

Masked Robber Holds Up Saloon And Gets \$12.05

The Ivy saloon at 715 Williams avenue, was held up at 11:30 last night by a masked robber, who after taking \$12 from the cash register, robbed Thomas Norton, 683 Vancouver avenue, of 25 cents, all the money he carried at the time. John Bower, 328 Beech street, proprietor, was the only other man in the place. The robber, the lower part of his face masked, and carrying a blue steel revolver, entered by the rear door, and after taking the money from the till and robbing Thomas Norton, he fled by the same entrance.

WOMAN STEPS INTO HOLE WHILE WADING AND DROWNS IN RIVER

Mrs. Rehbein Loses Her Life While Enjoying an Outing With Friends. Unable to swim, and stepping into a deep hole while wading with a party of friends in the Willamette yesterday afternoon, Mrs. Gus Rehbein, aged 24 years, of 58 West Prescott street, was drowned. The body was recovered by Harbor Patrolmen Gilliland, Gordon and Pohn and taken to the morgue.

The drowning occurred about 4:30 in the afternoon. Mrs. Rehbein's husband is employed at the Portland Flouring Mills, and the woman was in the river with a party of friends about half way between the mill and the University Park Shingle Mill.

Friends saw her disappear when she stepped into a hole that was found to be a trap for logs. She was carrying a basket of fruit and a hat at the time she was searching for the body of Harry Dixon, who had been drowned almost across the river from where Mrs. Rehbein was wading, and the harbor policeman commanded a private launch, and going to the scene, recovered the woman's body a short time later.

Her husband and a small son survive.

DECK HAND FALLS FROM LOGS Harry Dixon Drowns While Working on a Raft

Losing his balance while lying in a raft of logs at the Eastern & Western Lumber Co.'s dock, at the foot of Twenty-third street, yesterday afternoon, Harry Dixon, deckhand in the employ of the Shaver Transportation Co., fell from the peak of the raft, went under the logs and was drowned. The body was recovered yesterday morning by Municipal Grappler Brady. Dixon was single, and his parents live at Pittsburg, Pa. He was 24 years old. The body is at the public morgue.

Flourer Awaits Identification. No one has identified the body found floating in the river near the University Park Shingle Mill at noon yesterday.

The body had been in the water four or five days. A jackknife and 11 cents were found in the pockets. The body is that of a man of 35 years, 5 feet 9 inches tall, and weighing about 150 pounds. He wore blue overalls, and had dark hair and mustache.

Portland May Get Assessors' Meeting

Henry E. Reed Returns From Convention at San Francisco—Invitation Has Been Extended. "Portland can have the 1918 convention of the National Tax association if it wants it," said County Assessor Henry E. Reed, just returned from the National Tax association convention in San Francisco.

"The invitation was extended and many of the delegates assured me that they hoped to come to Portland within a few years. The Pacific Coast can have the convention about that year should it desire and Portland is in line for the convention if it is wanted."

He spoke of the British parliament as a "wasteful show" and said workmen elected to it became members from the trusts reposed in them "by being wined, and dined, and cleared into being respectable, and down, perhaps, but not workmen after a few months of respectability."

Hostess at Fair Reappointed Oregon Building Made Center

Mrs. Charles A. Gray, Whose Rare Faculty for Dispensing Hospitality Has Made This State's Building at the Panama-Pacific Exposition a Most Popular Place. Mrs. Gray Is Just Completing Three Months' Occupancy of the Position.

Mrs. Charles A. Gray has been reappointed official hostess for the Oregon building for the final three months of the Panama-Pacific exposition. Mrs. Gray was appointed to this position three months ago and such a success has she made of her duties in making the Oregon building a center of hospitality, that the commission has reappointed her.

Mrs. Gray is a former Portland woman, but several years ago went to Salem to make her home. Later, she became a house mother in one of the sorority houses at the state university, Eugene, where she endeared herself to many girls. She is a woman of refinement and possesses a rare faculty for dispensing hospitality. The Oregon building is only the building on the grounds, where tea is served every afternoon. Wednesday afternoon special features in the way of recitals are introduced.

Pioneer of 1844 Died This Morning

Frederick Lee-Lewes, Aged 88, Passes Away at Home of His Son, at 423 Monroe Street. Frederick Lee-Lewes, aged 88, and a pioneer of 1844, died at the home of his son Adolphus, 423 Monroe street at 5:15 o'clock this morning. Infirmitudes due to old age is given as the cause.

Mr. Lee-Lewes was born in Winnipic, Man., Sept. 20, 1828, and as a member of the Hudson Bay company came to the coast in 1844, settling at Woodland, Cowitz Co., Wash., where he resided until 15 years ago, when he retired and has since made Portland his home. He is survived by three sons, Adolphus and Archie, who live in Portland, and Harry E., who lives in Kalama, Wash., and a daughter, Mrs. I. D. Groves, of Los Angeles, Cal. Arrangements for the funeral will be announced later.

Old and Young Are Guests of the Lyric

Twenty children and 14 elderly people from the Odd Fellows home, thirty-second and Holgate streets, were guests of the Lyric theatre management at Thursday's matinee. Billy Small, the violinist, was the favorite with the old folks. After he had finished his regular program, he cut loose with some old-time jig tunes that stirred their memories of old lang syne.

The three Claires, with the little Claire, who appears as a speaking doll, were the hit with the children.

Memory of Indian Chief is Honored

Seattle, Wash., Aug. 21.—(U. P.)—Hundreds of Seattleites attended today memorial exercises at the grave of Chief Seattle, at Suquamish. Seattle is represented by James Crehan, secretary to Mayor Gill and an expert in Tilkum of Elitae. Invitations in the Chinook language were issued to Indians of Puget sound reservations.

W. B. Brooke, former proprietor of whom this city was named, as a token of gratitude. By warning the white settlers here from an Indian attack, he saved them from massacre.

Wage War on Beavers. Freewater, Or., Aug. 21.—J. L. Ramsey of Ferndale has secured a special permit from the state game warden to kill the colony of beavers which lives in his orchard. The animals have destroyed about 16 of his best apple trees and have commenced erecting a dam across the stream which runs through his orchard. Yesterday Mr. Ramsey found a fine big beaver in the trap, which is now in possession of Deputy Game Warden S. B. Sanderson of Freewater. It will be sent to the state game warden at Portland.

Farmer Hurt in Fall. Freewater, Or., Aug. 21.—Bert Boylan of Dry Creek met with a very painful accident yesterday while hauling baled hay. He was thrown from the top of the load, falling on his head. His head and neck are badly bruised, and he is unable to get up. He is being cared for at the home of his wife, Mrs. Boylan, who is a sister of the late George L. Baker, former proprietor of the Brooke Furniture company, has sold his fine residence on Main street to Ed Mason for a consideration of \$2000. The Brooke family will reside in Walla Walla after September 1.

Band Benefit Dance Given. Milton, Or., Aug. 21.—The Freewater band gave a dance last evening in the Oregon theatre for the benefit of the band. It was well attended and a fine evening enjoyed.

Visitors to Be Guests of Clan Macleay. Homebound bound from the convention of the Order of Scottish Clans, held in San Francisco, 20 delegates will be in Portland Monday, guests of Clan Macleay. Among the visitors are expected Royal Chief Finley and Past Chief Hill. Auto rides and a dinner at the Portland hotel are the plans for entertainment of the visitors.

Additional Paving Plan. Tacoma, Wash., Aug. 21.—(P. N. S.)—In ordering a survey made by the county engineer the Pierce county commissioners are preparing to pave an additional 10 miles of the mountain highway leading to Rainier National park, the work to be done in 1916. The cost will be about \$130,000. The finest tourist highway in America is the ultimate aim of the county.

Although the Russian army has been considered a tame duck and a gone bird, the dispatches record it holding the Germans by "masterly operations on its wings."

Cabinet Works Near Sellwood Damaged by Fire

Fire, believed to have originated from overheated bearings on the line shaft, completely destroyed the Champion Cabinet Works at 1765 East Ninth street north, about 7:30 last evening, with a loss of \$5500. The company carried \$3000 insurance. The factory is near the Sellwood car barns, and it was feared for a time the car barns might be set on fire. The blaze continued from 7:30 until after 10 o'clock. J. R. Grant and Phillip Feldmeier are proprietors of the place. Engine 20 responded to the alarm. The loss included a \$400 order of finish work to be made to have been sent out today.

SOLDIERS OF MEXICO FIRE ON U. S. TROOPS ALONG TEXAS BORDER

General Funston Sends Word of Attack to Washington—No Mention of Casualties. Washington, Aug. 21.—(I. N. S.)—Mexican soldiers have fired on American troops on the Texas border, according to an official dispatch received here today from General Funston.

General Funston's message said Mexican soldiers fired on a detachment of the second cavalry while at practice near Lochilv, Ariz. No mention was made of casualties or whether the Americans returned the fire.

General Funston added that General Calles, with 3000 Carranzistas, were opposite Lochilv.

Villa Gains in Torreón. El Paso, Texas, Aug. 21.—(L. N. S.)—Battling in the streets of Torreón, General Villa's forces, strongly reinforced, were reported to have gained the upper hand on the opposing Carranzistas, under General Obregon, and to be pressing them back steadily.

President Thanks Brazilian. Washington, Aug. 21.—(I. N. S.)—President Wilson today personally thanked Brazilian Minister Oliveira for his efforts in Mexico in behalf of the United States. They, with Secretary of State Lansing, today discussed every phase of the Mexican situation. It was understood that Oliveira voiced no recommendations, but merely reiterated his confidence in the carrying out of the wishes of the state department.

In the event of General Carranza refusing to participate in the peace conference suggested by the United States, Oliveira, it was believed, will attend the next meeting of Latin-American diplomats with Secretary of State Lansing.

Obregon Refuses to Confer. Washington, Aug. 21.—(I. N. S.)—General Alvarado Obregon has backed up General Carranza's refusal to participate in a peace conference of the several Mexican factions suggested by the American government, according to authentic advices received here today.

General Obregon's stand was announced at the Carranza agency here. He stated that General Carranza was sole ruler of Mexico and announced his opinion of standing by him to the end.

It was believed that another conference between Secretary of State Lansing and the Latin-American diplomats would be held here soon.

Hard to Reach Carranza. Washington, Aug. 21.—(U. P.)—If the administration succeeds in ousting General Carranza from his position as the dominant factor in Mexico, at least for some time, official circles will be surprised, those well informed on the Mexican situation confessed today.

There is no doubt that the men who would defy the American republic's conference to interfere with the Carranza regime after establishing his headquarters in Mexico City. Military experts say it would be out of the question to reach Carranza at Mexico City with the troops at the disposal of the United States, and at all events the Latin-American powers would oppose such a step.

The prospects of a rival government, recognized by outside powers making headway against Carranza, are believed to be fading. It seems more likely that the Latin-American countries will oppose "the first chief." This would make it harder for the United States to enforce an arms embargo against him, and the rival elements in Mexico are also disintegrating.

Villa Takes Durango. General Carranza's troops, under command of Villistas have recaptured the town, according to dispatches received here today by the Villa agency.

WARDEN MINTO SAYS HE WILL NOT TREAT PRISONERS BRUTALLY

Official Makes Emphatic Denial of Intentions to Change the Present Plan. Salem, Or., Aug. 21.—Warden Minto, of the state prison, denied yesterday afternoon that there was any intention on his part to return to brutal methods in vogue in the institution several years ago. It was his contention that his treatment of inmates was more lenient, if anything, than that accorded by his predecessor.

The warden showed a Journal reporter all over the prison and pointed out improvements he said had been made since he had taken charge a few months ago. The dungeon was used in cases of three prisoners who had been guilty of serious infractions of the prison rules, several prisoners were walking ceaselessly around the "bull ring," a circle of about an eighth of a mile in the prison yard, and two convicts were at stripes for infrequently assaulting fellow-prisoners, but that was the visible extent of unusual punishment accorded them.

BULL RING IS DISCUSSED. Journal Representative Shown Through State Penitentiary—Improvements Pointed Out.

The men in the "bull ring" were men who had violated their paroles, according to the warden, who explained that he made them walk eight hours daily in order that it might be a warning to other convicts who would be let loose.

When the big bathroom was reached, the warden showed where men were "hosed" years ago. The chains are still there, but the warden declared that he never proposed to use them during his administration.

In one section of the yard is what is known as the "bullpen," an enclosure of brick. When Warden Minto took charge, he stated yesterday, there were seven men in the enclosure, where they were kept isolated from all others as a punishment for infractions of the prison rules. They were said to be hard characters who were beyond control when allowed to mingle with the other prisoners.

The establishment of a thoroughly organized commissary under J. McGlyn, has resulted in a considerable saving to the institution, it was asserted. Wornout clothing must be given up, and it was stated that no clothing was considered valuable unless it was beyond mending.

Filled With Flax. The big foundry is partially filled with flax, and the retting machinery, which will give employment to a portion of the prison's population, will soon be installed.

There were three men in the dungeon, sometimes called the "black hole." In this connection it was stated positively that the dungeon had been used by Colonel Lawson.

Whenever a convict has any complaint to make, or wishes to see Warden Minto, he is permitted to do so before the warden. In most prisons the convict must make an appointment, he said. "They are free to come to me at any time," declared Minto.

Positive denial was made by the warden that the whipping post had been revived, or would be used during his incumbency. He declared that not a convict had been struck a blow since he took charge.

Chaplains are again permitted to have conferences with the prisoners. It was stated, the rule established by the warden in addition to presiding, after consideration, by the board of control.

Alleged Poachers Are Under Arrest. Seattle, Wash., Aug. 21.—Charged with poaching in American waters, three fishermen from British Columbia are under arrest here today. The men were arrested by Captain C. E. East, of the fisheries department patrol boat, Gov. Elisha H. Ferry. It is alleged that the men, operating under a British Columbia license, were well across the American line when caught, and that they had fishing gear and freshly caught fish in their boats. The men gave the names of Charles Lux, John Weaver and Ernest Dougherty. They are being held at the state penitentiary, where the fisheries department will confiscate the boats under the provisions of the Washington statutes.

England Taking Her Gold From Sydney

\$18,000,000 of \$75,000,000 in Gold There to Account of Parent Government to Be Shipped in Installments. San Francisco, Aug. 21.—(P. N. S.)—In order to insure its safety from a resting place at the bottom of the seas included in the "war zone," England is sending more than \$18,000,000 in gold from Sydney, Australia, to help pay her munitions bill in this country.

There is \$75,000,000 in gold in Sydney to the account of the parent government, this amount representing England's interest on Australian taxes and investments.

Recently the steamer Ventura brought in \$5,000,000 of the gold. She will bring \$8,000,000 on her next trip. The steamer Sonoma will sail from Sydney next week with \$5,000,000 of the gold.

The money is taking a 10,000 mile trip by water and a 3000 mile overland trip in order to escape the ravages of Atlantic warfare.

In San Francisco it is being handled by the Anglo-London-Paris National bank, the Canadian Bank of Commerce and the International Banking company. The United States government, which has gone into the insurance business since the war, has insured the gold cargoes for 75 cents on each \$100.

Boy Bicyclist Injured. Milton, Or., Aug. 21.—Harold Everett, the young son of Mr. and Mrs. B. F. Everett of this city, was thrown off his bicycle yesterday afternoon and his foot severely injured—the heel being nearly torn off.

"They eat all they can, and what they can't, they tin."

Opulent Oregon

"For agricultural purposes," said Congressman McDuffie, in 1842, "I would not give a pinch of snuff for the whole territory."

The learned gentleman was referring to Oregon—yet, it has since been said that there is scarcely a grain, fruit, vegetable, grass, tree, plant or flower that grows in the United States or Europe which cannot, on some portions of the soil of Oregon, be raised to perfection.

Which is cited to prove that even Congressmen are not always right.

The equable climate of Oregon, and the rich soil of her splendid valleys make her one of our best agricultural States, but for further details in that particular, we must refer you to the government reports. Our space is limited and Oregon's products are quite the contrary.

All we can hope to accomplish here is to suggest some few of Oregon's opportunities to expand her trade and industries through advertising.

Take salmon, for instance. The magnificent Columbia River is the greatest salmon-producing stream in all the world. Of this Prince of Fishes it has been said that Oregonians "eat all they can and what they can't, they can" (or tin, as the Englishman told it).

Thousands of tons of salmon are annually caught and canned in Oregon, and since artificial propagation has been solved there is little likelihood of a falling off in the supply.

And, mind you, this Columbia river salmon is the finest obtainable—yet nothing has been done to proclaim its superior merits through advertising. That's where Oregon has neglected a real opportunity.

While salmon is a staple food her know that we appreciate her for the great state she is; that we have carefully studied her possibilities, and that we are eagerly ready to help her people with the kind of advertising which will bring her to the manufacturing eminence to which she is so justly entitled.

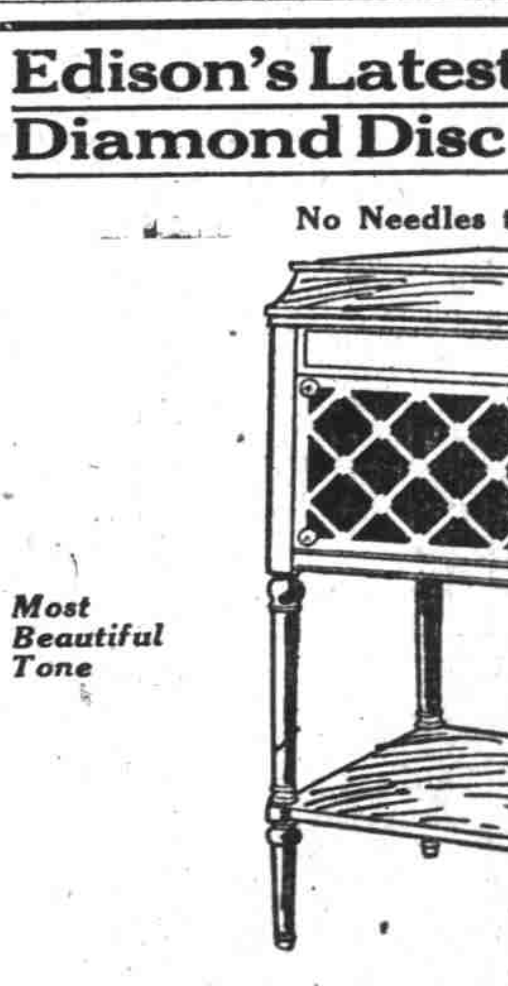

With her superior natural endowments, if the Northwest had been settled first, she would have flourished even better than the Northeast, and with aggressive advertising, she still has the opportunity to overcome the handicap of youth.

The above advertisement by N. W. Ayer & Son, advertising agents of Philadelphia, was published recently in Printers' Ink.

Oregon producers and manufacturers would do well to heed some of the suggestions herein. If Oregon's resources were properly advertised, the benefits derived would mean much to the state.
