Quinaby Ships Many Peaches. Quinaby, Or., Aug. 22.—The peach crop in this section is the largest ever reported, and of superior quality. Last year the trees were loaded, and it is rare that two such abundant seasons follow each other. The young orchards coming into bearing at this time make the yield at least a third more than last year and as prices are low many peaches are being canned. The Lachmund orchard alone is shipping 500 crates daily.

Diplomats here are convinced that the Greek cabinet will favor continuance of the policy of neutrality until developments make it appear certain that Greece will have something to gain by entering the war. Dispatches from sources which have not always proved to be reliable today declared Roumania has been seized with the war fever, but for the present this statement was accepted with reserve.

Turks Need Munitions. It is believed here that the question of supplying Turkey with munitions is becoming more serious, especially from the Turkish standpoint, owing to the landing of British reinforcements in the Dardanelles. It is thought possible that Austria and Germany are to the extreme necessity of opening the road from Germany to Constantinople for the shipment of ammunition
