AT MARKETS TODAY

Season For High Class Cantaloupes the Local Gardens.

Cantaloupes of sufficient firmness to ship any distance have completely The cantaloupe market stiffened perceptibly two days ago due to the eastern demand, but today was again weaker the tack of the first class stuff being responsible. Large, firm peaches were also scarce again today. As a result the price for such fruit advanced to 50c with 55c being paid in a few Smaller peaches were fairly pienti-

Tomatoes were scarce today, the best ar-rivats being from distant points. Local gar-dens suffered from the heat of the past week, the tomatoes drying on the vines.

BRIEF NOTES OF THE TRADE Receipts of eggs have been light for the past two days and high class eggs were scarce as a result. The market for second grade eggs has been dull. The first Cuban Queen watermelons, a great The first Cuban Queen watermelons, a great favorite with Portland buyers, are expected to reach the market by Saturday.

This is the first senson, say marketers, that sweet potatoes have been available all year and illustrates better than anything the advance in farming conditions.

Poultry and meats were firm today.

Seattle Banks. \$1,727,103.00 | Conditions Favor Harvest Workers

Following is a summary of the crop conditions in Oregon for the week ending August 24, 1915, as reported to the local office of the weather bureau by special correspondents throughout the state: Fine harvesting weather continued all of the week. Fall sown wheat has nearly all been cut and the harvesting of spring sown grain is well advanced. Threshing returns for the most part are satisfactory and up to expectations. Fall plowing has begun by a few farmers in the Willamette valley, but the railroads. Now Mr. Mather has Keeweenaw seen Crater lake, and has declared take Copper admiration for it and wondered to the copper admiration for it and wondered to the copper seen contact the seen contact the copper admiration for it and wondered to the copper seen contact the soil is too dry for this work to become general. Summer fallowed land in the eastern counties is in good condition for fall seeding. Under the influence of the hot days and warm nights corn made excellent progress and potatoes matured rapidly. Gree on the summer ranges in the hills is reported to be poor and cattle are slowly working down to the valleys. Creaks and springs are drying up and the rivers are at an unusually low Early apples, peaches, pears and plums are plentiful in the markets. The hot weather ripened fruit too rapidly and some apples were injured by becoming sua burned.

School District Will Do the Work

Building and Grounds Committee Concludes to Not Let Electrical Work in Franklin High School on Contract. The building and grounds committee

of the school board will recommend that the electrical work on the new Franklin High school building be done by the school district instead of letting the job on contract. The matter will come before the school board at its regular meeting Thursday afternoon of next week.

Recommendation that the district do the electrical work on the Franklin school was made by D. J. Phillips, job, the lowest being \$3990, by Miller & Halls. Mr. Phillips stated that if the work is let out by contract it will be necessary for the district to maintain an inspector on the job, while if the district does it an inspector will not be necessary. In this way, he figured that the job would be a little cheaper if performed by the district.

The building and grounds committee also will recommend that the contract for the heating and ventilating of the Franklin school be awarded to J. F. Shea for \$22,928, which was the los
