Bailroads Believed to Pavor Belt Line to Serve Both Sides of the

That the S., P. & S. Railroad com-

pany is preparing to abandon its plan for a \$2,000,000 terminal on the east side was asserted at a meeting of the dock commission this morning. The company has applied for the

abandonment of certain franchise rights granted it on East Oak, East Third and East Water streets, and Lewiston portion of block 22 on the east side. It is the commission's purpose, after completing the lease, to lay a track on the property connecting with the east side public dock upon which all railroads will have common user

Authorized to Make Lease. The chairman of the commission was authorized to execute the lease, but subjects were decided to be irrelevant, and the abandonment of franchises will be taken up separately.

VESSEL CLEARED FOR MELBOURNE WITH A LARGE GRAIN CARGO

British Steamer Highbury Takes 270,548 Bushels of Wheat, Value \$257,020.

FRENCH BARK IS IN PORT

British Bark Inverlyon Also Said to Have Started From Adelaide for Portland Under Charter.

Carrying the largest grain cargo to eave this port in months the British steamer Highbury, Captain Redding, weighed anchor at high noon today from her berth in the stream below Broadway bridge and sailed for Meibourne.

In the big tramp's hold were 270,548 bushels of wheat valued at \$257,020, wheat that will go to alleviate the foodstuff scarcity in the Antipodes. The Highbury was dispatched by the ocal exporting firm of Kerr, Gifford & company at a charter sale understood to be 70 shillings. A United Kingdom option was held on the carrier, but it was decided to send her to Australia.

While carrying the largest grain cargo in number of bushels in some time, the Highbury's cargo fell short several thousands of dollars in value of the wheat shipments sent abroad in the British steamer Derwent River in June and the British steamer Egpytian Transport in July.

The berth at Montgomery dock vacated by the Highbury was taken last night by the French bark Noemi, under charter to Balfour, Guthrie & Co., to take wheat to Australia, and loading began this morning. The Noemi will ably just fall short of 3000 tons. —That no reports had been received by him from Collector C. O. Davis of San Francisco to look out for the steam schooner Wasp, supposed to be carrying 100 tons of dynamite, was the declaration of Deputy Collector of Customs William Fairweather here today. Representatives of the Eureka Dock company, local agents for the Charles Nelson company, declared that if the Wasp is carrying dynamite, the vessel has a perfect right to do so. According to the San Francisco customs officers, 100 tons of dynamite has disappeared from a barge anchored in San Francisco bay, and is supposed to have been taken by the Wasp 10 without entering the explosive on her manifest. This led the customs offi-cers to believe the explosive is intended for some foreign power. The vessel sailed from San Fran-cisco, according to her schedule, Au-

EXTREMITY OF TURKS MAY FORCE WAR BY GERMANY ON ITALY

Ottoman Situation Such That Constantinople German Arms Necessary.

London, Aug. 26 .- (I. N. S.) -Forced by Turkey's extremity, Germany's declaration of war on Italy was hourly expected in London today, dispatches from both Paris and Amsterdam indicating that the Ottoman situation was such that the active aid of German arms was believed in Constantinople to be the only hope of Turkey.

From a score of European points came unofficial dispatches indicating two possible courses by Germany to bring relief to her Moslem ally. One was the mobilization of a large force of German landstrum on the Italian frontier for a direct attack through the Alpine passes, the other a probable attempt to cut through Bulgarian

Downing street gave out no official information as to the progress of allied negotiations in the Balkans, but the impression was permitted that all was well and that it would not be long before the Balkan armies would be in the field for the allies. Great satisfaction was felt at reports from Germany, via Holland, that a call had been issued for the mobilization of German landsturm for the expected Italian attack. This was taken as almost certain evidence that the wastage of German armies at last has assumed serious proportions and that the resources in men of the Germanic allies are near an end.
