

U. S. REQUESTS AUSTRIA CALL DUMBA HOME

This Action Taken Because of Ambassador's Activities in Plan to Create Strikes at Many Munitions Plants.

MAY RESULT IN BREAK BETWEEN TWO NATIONS

Passports Be Presented to Diplomat Soon as Word Received From Austria.

Archibald Under Investigation. Washington, Sept. 10.—(U. P.)—It was learned on official authority this afternoon that the administration is considering prosecution of American Correspondent James Archibald and the New York Times editor, who cooperated with Ambassador Dumba of Austria.

By Charles P. Stewart.

Washington, Sept. 10.—(U. P.)—Relations between America and Austria Hungary were strained today to the breaking point, following America's request for Austrian Ambassador Dumba's recall because of his efforts to cripple American munitions plants in which Austrians are employed.

The threatened breach may cause severance of diplomatic relations between the two nations, but this would not necessarily result in war, was the conclusion reached in authoritative circles here.

Certainly, admitted high officials, the request for his recall is pregnant with possibilities of an open break.

If Austria refuses to heed the American request, and recall Dumba, the United States government will hand him his passports. Such a course, it is believed, would be followed by Austria's handing passports to American Ambassador Jenckel at Vienna.

There was good ground for the belief that Dumba's home government may back him up in his recent activities. It was pointed out that he apparently was acting with the direct approval of Austria, though the foreign office perhaps did not know the exact steps he had taken in his munitions crippling plan.

Should his government support him, officials said a more serious issue would be forced than the mere elimination of Dumba as ambassador representative here. The administration, however, confidently hopes that Austria will comply with the recall request.

This government is already arranging with the allies for a safe conduct for the envoy. The general opinion here was that Dumba will be recalled, but

CAPTAIN VON PAPEN INVOLVED IN DUMBA CASE AND MAY GO

Complications With Germany May Result on Account of Military Attache's Activity.

Washington, Sept. 10.—(U. P.)—Further complications as a result of the Dumba case are seen in the fact that Captain von Papen, German embassy military attache, is involved. Just how deeply he is concerned in the incident is not known, but his alleged effort to use American Correspondent Archibald as a confidential letter carrier, a question of moment, is considered a serious matter.

The von Papen case itself possesses potentialities of trouble. It was hoped that von Bernstorff would be able to explain satisfactorily his subordinate's alleged course in using Correspondent Archibald as a message bearer. But, it was pointed out, a similar hope in the Dumba case had been disappointed.

If it was decided that von Papen's course was generally correct, he must be eliminated, this assessment would probably hint to Ambassador von Bernstorff that it would be "acceptable" to have the attache removed. Then, should Bernstorff decline to do so, he, too, might himself become persona non grata.

REPRESENTATIVES OF ALLIES COME TO U. S. FOR \$500,000,000

Commissioners From England Greeted at Quarantine by Morgan and Davidson.

New York, Sept. 10.—(U. P.)—Greeted at quarantine by J. P. Morgan and his partner, Henry P. Davidson, when they arrived early today from England on the Lapland, six commissioners of the entente allies were at once taken under Morgan's care, and boarded his yacht, the Corsair, and sped up the bay, to arrange, it is said for a loan of \$500,000,000 in American money to help Britain and her allies wage their world war.

Members of Commission.

The commissioners who came to arrange matters in America for the entente allies were: Baron Reading, lord chief justice of England; Sir Edward Hopkins, holding, managing director of the London City and Midland bank; Sir Henry Robinson, managing director of the Bank of Montreal; Octave Homberg and Ernest Mallett, attached to the treasury department of the French treasury.

All the members of the allies' high commission were silent as to their mission, but admitted generally that it was designed to put the credit of the allies on a firm financial basis in America, and to complete plans for the purchase of war munitions and supplies.

Would Regulate Exchange.

The only statement given out by the commissioners came from Baron Reading. He said: "The commission's object in visiting the United States is to consult with American bankers as to the best means of regulating exchange between New York, London and Paris, in order that commerce and industries may suffer as little as possible during the war. Mr. Blackett will act as secretary for the commission, and will give out statements of our proceedings daily during our conference."

Their wives accompanied the members of the commission, and the whole party went from the Corsair to the Hotel Hamilton. The first conference of the commission with American bankers will be held tonight in the library of J. P. Morgan's home.

London, Sept. 10.—(U. P.)—Fifteen hundred and two British officers had been killed, wounded and missing for the two weeks ending August 30, on the Gallipoli Peninsula, according to official announcement here today. Allies Prepare for New Attack.

London, Sept. 10.—(U. P.)—Lord Robert Cecil, under secretary for foreign affairs, in a speech at Croaydon last night, expressed the firm belief that the Dardanelles expedition was near a great success, which "would have an enormous effect in all parts of the world."

It is stated on reliable authority that a general attack on the Dardanelles may be expected very shortly.

The allies are preparing for a monster assault. Both the fleet and land forces will be used.

Large forces, including heavy landing artillery, are now being concentrated in the Dardanelles region for the attack. Advances from Sofia state that many mine sweepers are being gathered in the vicinity of Sedd-el-Bahr, near the entrance to the straits. This is believed to foreshadow a great bombardment of the outer Dardanelles forts by the allied fleet.

The concentration of the allied forces recalls the reports that two large forces of Italian troops, with warships, have left Italian ports, presumably for the Gallipoli Peninsula, within the last few weeks.

GERMAN FLIERS ATTACK NANCY, CAUSING DEATH

Six Aeroplanes Bombard French City Today, Killing Two Persons, Wounding Ten, Damaging Property.

ANTI-AIRSHIP GUNS HIT ONE, BRINGING IT DOWN

Taube Decorated With 16 Iron Crosses Won by Previous Aerial Feats.

Paris, Sept. 10.—(U. P.)—Six German aeroplanes today bombarded Nancy, killing two persons, wounding ten and inflicting severe property damage. St. Max, a suburb of Nancy, also was bombarded, several victims being claimed there.

An official statement from the French war office this afternoon admitted that the French fire squadrons the Taubes with high angle guns was ineffective.

Anti-German Outbreaks Follow.

London, Sept. 10.—(U. P.)—Anti-German outbreaks here are feared today as a result of Wednesday night's Zeppelin attack against the city and eastern counties.

German shops, boarded up since the recent anti-German activities, are now being reopened, but the government has ordered subsequent internment of alien subjects, are under close guard, lost mobs wreak their fury upon the establishments.

Feeling as a result of the raids, is at fever heat. Nothing thus far in the war, as it affects England, has aroused such horror and resentment as the last sweep of Count Zeppelin's airships. The public is angrier, however, rather than terrorized. Nevertheless insurance companies are swamped with orders for protection policies, the government insurance bureau is charging less than 50 cents per \$500 airship insurance on dwellings, but the case of protection for business buildings is more expensive. This was regarded as evidence that the business community at least anticipates further destruction.
