

ROADS NOW BEING PUT IN SHAPE FOR ROUND-UP GUESTS

Hundreds of Dollars Are Spent on the Main Highways Leading to Pendleton
ROAD SIGNS ARE PLACED

Journal Special Will Permit Travelers to Leave All Forms of Worry Behind Them.

Facts About The Journal Special
Round-Up dates—September 23, 24 and 25.
The Journal special leaves Portland Thursday night, September 23, 11:30 p. m. Leaves Pendleton Saturday night, September 25.
Round-Up trip fare, \$25, includes Pullman berths, meals, admission to Round-Up and grandstand.
For reservations call The Journal Round-Up Department, A-6051 or Main 7173.

Pendleton, Or., Sept. 16.—Putting the roads in good condition for travel to the Round-Up, September 23, 24 and 25, is now the main work of the Round-Up association, the Umattilla Auto club and the county road supervisor. Hundreds of dollars are being spent in putting straw on the worst of the dusty and sandy stretches, men and teams are at work filling the bad places while automobile pathfinders are making long trips daily selecting the best routes and putting up road signs. With all this work and the benefit of the recent heavy rains throughout eastern Oregon the roads to the Round-Up will be in better condition this year than ever before.
From the valley and west Cascade points the route selected is by the Columbia highway to The Dalles, then by Wasco, McDonald's Ferry, Cecil, Butter Creek, Echo and Stage Gulch to Pendleton. Or if the mountain route is desired, from McDonald's Ferry through Heppner, and crossing Upper Butter creek at Vinson through Pilot Rock to Pendleton.
From Baker City and points east the roads are being studied and mapped. A scenic route is also being prepared from Baker and La Grande by way of Elgin, Somervilla and across the Top Gate mountain, striking the Macadam road at Weston.
These roads are now being put in excellent condition and motorists will find the trip a pleasant one and the accommodations at Pendleton ample for all their wants and needs.

GUESTS NEED NOT WORRY

Visitors May Use Journal Special Train as Hotel.
On the way to Pendleton by The Journal special, those who make reservations on the special will leave all forms of worry behind. Although prospects are that all the hotels of the Round-Up city will be crowded, this will not alarm any who go on this train de luxe. The reason is that the train will be parked close to the Round-Up grounds and the visitors will use it for a hotel.
Meals will be served in its dining cars for the two days the train will be there and at night the travelers will creep to their berths just as they would if the train were whizzing along at a 50 mile clip instead of standing on a siding.
That this feature is striking a popular chord is indicated by the increasing number of reservations being received daily at The Journal office. The round trip fare of \$25 includes this "hotel service" as well as admission to the grounds and the best view seats in the grandstand. It covers every necessary expense.
The train will leave the Union depot Thursday night, September 23, and will reach Pendleton early next morning. After the final event is over Saturday night, the train will start back to Portland, arriving Sunday morning. All of which means just two days away from business during the days when the events of the Round-Up stadium are at their best.

Douglas Fair Is Better Than Ever

Exhibit Halls Are Well Filled, and Eight Granges Are Competing for First Prize Honors; Racing.
Roseburg, Or., Sept. 16.—It is no exaggeration to say that the exhibits at the Douglas county fair, which opened here today are larger and better than those shown here in any former year. The main pavilion is well filled with high class general exhibits. The annex is filled to capacity with the industrial exhibits of Douglas county schools, and a large tent, especially provided for the purpose, houses the splendid exhibits of eight of the granges of the county.
This is a veritable bower of beauty, as well as a comprehensive display of the county's agricultural and horticultural products. Livestock and poultry departments are also well filled, nearly every pen and compartment being occupied. The granges making exhibits are Evergreen, Looking Glass, Glendale, South Deer Creek, Melrose, Glendale, Yoncalla and Camas Valley.
There is a strong fair friendly rivalry among them for winning first prize, and the results make a splendid showing.
Visitors from outside the county declare that these grange exhibits should by all means be sent to the state fair. The livestock exhibits include many fine animals. An excellent racing program has been arranged.
