STEFANSSON PLANS CALL FOR TWO MORE YEARS IN THE ARCTIC

Explorer Establishes Base at Banks Land Preparatory to Study of Regions,

MANY HARDSHIPS

Man Given Up for Dead Travels for Seven Months Over Ice Pields to Safety at Banks Land.

Nome, Alazka, Sept. 18 .- (P. N. S.) -Undaunted by hardships undergone in a seven months' journey over the ic of the Arctic regions and safe after even his most optimistic friends had given him up for lost, Vilhjalmur Stefansson, the Canadian government explorer, is establishing a base at Banks Land preparatory to spending two years more in pursuing his Arctic ex-

First details of Stefansson's activities since he left Martin Point, west of the mouth of the Mackenzie rive .. on March 22, 1914, were brought to Nome yesterday by Capsain S. F. Cottle, of the power schooner Ruby.

After leaving his supporting party on the ice north of Martin Point, Stef ansson, with Ole Anderson and Storker Storkerson, his companions, traveled north over the ice for 90 days and then retraced their steps toward land They reached the mainland at a point near where the power boat Mary Sachs, of their own expedition, was wintering, and here outfitted for another three months' trip.

Discovers Continental Shelf.

Going north again Stefansson and his companions discovered the continental shelf and explored it at some length, determining its southern lim-Scarcity of provisions compelled them to turn back and after seven months on the ice, during which they had subsisted on very meager rations, the party again reached Banks Land, thoroughly worn out.

From Banks Land the party made its way to Bailey Island, where Captain Louis Lane, of the power schooner Polar bear, found Stefansson and his southwestern coast. They were seeking the southern wing of the expediion in the hope of obtaining supplies,

Purchases "Polar Bear."

Stefansson immediately chartered les while the sea was free of ice. With the season too far advanced, however, there is no love to give it birth, they were forced to turn back to of the Ruby found them.

chased the Polar Bear for \$20,000 and "What I Learned From the Rabbi." after outfitting the vessel, sailed for Banks Land, where he now is. He will establish a base on Banks Land and continue his explorations. -He intends to keep on until he has fully explored new land which he discovered south west of Prince Patrick Island.

Artillery Storms Continue at Arras

Cannonades Are Shaking the Entire Argonne Region, and Sectors in Champagne, States Report.

Paris, Sept. 18 .- (U. P.) - "Frequent storms of artillery fighting," was the communique's description today of the terrific duel yesterday and last night on the Quennevieres plateau and south of Arras.

The German forces evidently expect. ed an attack, as they showered with shrapnel the advanced French trenches. Cannonades are shaking the entire Argonne region. Neuville, Rolincourt, Roye and several sectors in the Champagne.

Germans Plan Offensive.

Northern France, Sept. 18 .- (I. N. .)-The Crown Prince, it is believed, is preparing another big offensive on the Binarville - Vienne - Le Chateou front, where the Germans are main taining a continuous bombardment with every description of projectile.

Why Can't We See Our Breath in than in winter." Scuffy was looking Summer?

slightly cross eyed in an attempt to "My, but it's hot," sighed Scuffy, nose.

"There's Uncle Ben," Brownie cried inking down on the cool grass. "It's so hot I guess I don't want to play pointing in the direction of the aster beds; "why don't we ask him." So Uncle Ben was dragged by two dollar and the result is that they "Let's play robbing the stage coach pairs of hands from his beloved asters, and made to sit down in the just once more, then we'll go and ask shade while two anxious voices demother to make us some lemonade with ice in it. I'll be the driver and manded to know why you can see CHILDREN'S PLAYROOM, the one you can wear the mask and carry the your breath in the winter and not in the summer.

"Well, boys," he chuckled, drawing his knees up with his hands. 'Maybe it is because you do not breathe so hard in the summer. Maybe it is beand do not take any exercise other than dreaming." "No. sir; look," said Souffy, again

"You can see your breath if you just puffing out his cheeks with the effort sladden the hearts of children, in- snow, then you will not feel so hot. of heavy breathing. luding a merry-go-round, hobby That is what mother tells me. I tried

"Then there must be another reahorses, a sand beach, gold fish, sing- it, and it does just as she says. Maybe son," Uncle Ben shook his head in irg birds, swings, a shoot-the-chutes, if you pretended, you could almost see deep thought. "I guess the breath is there, just the same. The reason we do not see it is the same reason we do Scuffy breathed heavily in an effort not see the moisture in the air until would want to go where he is not is always a puzzling matter. The to prove the truth of Brownie's asserit gathers into fog or raindrops or
cordially welcomed, yet people seem lace department of one of the big tion. He puffed out his cheeks and snow. When the air is very warm the moisture exhaled in our breath is in oppers, even at the expense of their ter and is now serving its customers as the cheeks of the apples on the big the form of gas, which we can not wn self-respect. Such persons are with helpful plans and hints for fash- tree in the back yard. Eagerly the see. When it is cold this moisture is deserving of the most chilly treat- ioning the laces purchased at that two scanned the air around Scuffy's congealed or made into tiny drops just ment a hostess can give. Nothing department into the most fetching pursed lips for signs of the breath as the moisture that gathers on the you could see. Only unclouded space outside of a glass of cold water when

we bring it into a hot room. "There, I told you it was too hot even to breathe," said Scuffy, flatten-"When the moisture in our breath is formed into these tiny particles of ing himself against the grass. "I'm water they are the same as a cloud. going to stay right here in the shade, and we can see it quite plainly. Cold. then I will not have to pretend. I can as we know, freezes water into ice. In the same way cold turns water in gaseous form into liquid. We cannot see the gas, but we can see the liquid. The water is there just the same in the summer, only we do not see it, be-"I suppose it is different in summer cause it is only in the form of gas."
