NISH FALLS, ROAD CLEARS FOR KAISER

Bulgarians Enter Evacuated Serbian Capital and Now Hold All But 35 Mile Gap in Railroad Leading Directly to Constantinople.

SERBIAN RESISTANCE IS PRACTICALLY OVER

Austro-German-Bulgarian Allies Now Control All of Serbia Excepting Portion in South—Statement Says 315 Prisoners Taken.

Berlin, Via Wireless to Sayville, L. I., Nov. 6.—(U. P.)—Nish, Serbia's war time capital, has fallen before the three days' pounding of the Bulgars. Official announcement of this important victory today caused jubilation here and led to the belief that before long the Germans and Bulgars will sweep triumphantly into Constantinople to the aid of their Turk allies.

Varvarin Is Captured. At the same time it was announced that the Germans had captured Varvarin. This leaves only 35 miles to complete the rail connection across Serbia, since the Bulgarians hold the line from Nish southeastward to the frontier, though possibly the Serbs are between Varvarin and Nish, they are probably trying valiantly to escape the closing jaws of the German-Bulgar trap.

Rail communication direct from Germany to Constantinople is deemed only a matter of hours. With this established Germany will be in a position not only to aid the Turks, but likewise to get raw materials she herself desires. The German and Bulgar main lines have made a junction at Krivivier. The German military captured Krivivier, southeast of Carak.

The fall of Serbia was preceded by a desperate battle between Serbs and Bulgars. Official announcement given out shortly before the fall of the city was made known to several furious encounters. It was held on a minor engagement in which 200 Serbs and two cannon were taken.

Two Armies Join. In connection with the Nish success, General Hoyadjevic swung his right wing to Lukovo and Sokobanja where he made a junction with the Germans. The central allies have captured many Serb prisoners. On the west front, the French were expelled from a new German trench at Masleigne by late afternoon.

OFFICIAL STATEMENT AT BERLIN TELLS HOW GERMANS ARE DOING

Berlin, Nov. 6.—(I. N. S.)—(By wireless to Sayville.)—Official announcement of the capture of Nish by General Hoyadjevic's Bulgarians after three days of desperate fighting, was made here today by the German general staff.

Defeat of the Russians along the Strypa river front and capture of 50 officers and 6000 men by the German forces also was announced. Admission was made that the French penetrated the German trenches north of Massigne, in the Champagne district. Later it was claimed the French were driven out.

Attempts of the Russians to break through the German lines west of Lvinsk have been unsuccessful, the Germans holding firm at all points. The statement added that the Germans have captured Varvarin with 2000 prisoners. "We also have taken Krivivier," the statement adds, "and our forces have reached Stubal.

Steamship Santa Clara in the Breakers at the Mouth of Coos Bay the Day After Wreck

The steering gear of the Santa Clara went wrong when the vessel, bound for Marshfield from Portland crossed in at Coos Bay Tuesday afternoon. The vessel was headed by the waves to the short stretch of sandy beach shown in the foreground. In the background is the jetty with the sea pounding upon it.

"UNCONSTITUTIONAL" RULES GANTENBEIN ON SUNDAY CLOSING LAW

Decision Was Expected as the Same Judge Ruled in Same Way Several Years Ago.

"Unconstitutional" This is the opinion handed down this morning by Circuit Judge C. U. Gantenbein on the Sunday closing law. The attempt to enforce the law has caused a furor in this city, and in fact throughout the state. It was fought bitterly by the small merchants at the start and later by many other branches of business which would have been affected.

The decision was expected, for Judge Gantenbein, seven years ago, had handed down a similar decision on a case along the same lines. Judge Gantenbein held that the law (Concluded on Page Two, Column Three)

Nobel Prizes Are To Be Distributed

Swedish Government to Include Edison, Tesla and Roman Holland Among Recipients, Is Copenhagen Report. London, Nov. 6.—(I. N. S.)—The Copenhagen correspondent of the Daily Telegraph sends the following: "The Swedish government has decided to distribute the Nobel prizes next week as follows:

Physics—Thomas A. Edison and Nikola Tesla. Literature—Roman Holland, French, Hendrik Pontopidan and Troels Lund, Danish, and Verner von Heidenstam, a Swede. Chemistry—Prof. Theodore Svemberg."

Football Results At Pittsburg—Pittsburg 19, Washington and Jefferson 0. At Ann Arbor—Cornell 34, Michigan 7. At New Haven—Brown 3, Yale 0. At New Haven—Princeton freshmen 21, Yale freshmen 16. At Corvallis—First quarter, O. A. C. 7, Idaho 0. At Berkeley—First period—Washington 19, California 0.

Kitchener to Take Command in the Balkans

Famous British General Officially Admitted to Have Gone to the "Eastern War Theatre."

London, Nov. 6.—(U. P.)—Lord Kitchener has gone to the Balkans, it was officially admitted today. It was stated he had gone to the "eastern war theatre." This was considered tantamount to saying that he will take command. Lord Kitchener probably has gone to the near east to assume command of the allied forces, and to direct personally the Balkan campaign. The fact that he saw the king and that Premier Asquith has taken over his duties as war minister signify that he has left for a considerable period. It is reasonable to suppose that the allied forces, especially England, want to consolidate the Balkan campaign, and Egyptian campaigns under a single leadership, for on other fronts their armies are already under distinguished leadership.

Kitchener made his reputation in Egypt and specialized on Levantine military problems. Great Britain has played her highest trump to watch the German lead. Should he fall, the grave of his reputation will be in the vicinity of his birth. This must inspire him for his supreme effort.

General Riot Results. At 1 o'clock this morning men quarreling over the plunder started fighting and a general riot ensued. Matters got so bad that the coast guard crew was called upon to stop the rioting. Consignees of the freight have been making an effort to save some of their goods. Men were said to unload freight, in many cases only to have it seized by those who were after plunder. Hundreds went to the beach this morning, and as long as the vessel lasts and there is cargo to take, the plundering will continue.

Sheriff Johnson had deputies appointed and on hand to guard the vessel. This was effective until C. P. Lee telegraphed permission to the freight consignees to take off their goods, and this opened the way to everybody to get what they could, and the deputies had no further authority. Two Passengers Missing. The stern of the Santa Clara is breaking off and the ship will probably be in pieces in a few days. There are now only two passengers unaccounted for. They are G. Allen and Fred Jones. The latter is believed to be a Portland man, who has a family here, and a brother of Mrs. R. H. Glasgow of this city. The latter thinks the missing man is her brother, and is trying to ascertain from Portland if he started from there on the vessel.

BEACH COMBERS ACT LIKE PIRATES AT THE SANTA CLARA WRECK

Whiskey Floating From the Breaking Vessel Consumed and General Riot Follows.

Marshfield, Or., Nov. 6.—The Santa Clara, wrecked on South Spit, Tuesday evening, is starting to break up, and the vessel since yesterday afternoon has been at the mercy of beach combers and pillagers. Scenes enacted on the beach late yesterday afternoon and last night beggar anything ever seen at a wreck here. There were many cases of bottled whiskey on the vessel and these floated ashore and were seized by the beach combers. They were hidden in the woods and carefully guarded. Much of the whiskey was opened and a general drunken spree followed. During the night it developed into a frightful orgy.

General Riot Results. At 1 o'clock this morning men quarreling over the plunder started fighting and a general riot ensued. Matters got so bad that the coast guard crew was called upon to stop the rioting. Consignees of the freight have been making an effort to save some of their goods. Men were said to unload freight, in many cases only to have it seized by those who were after plunder. Hundreds went to the beach this morning, and as long as the vessel lasts and there is cargo to take, the plundering will continue.

Sheriff Johnson had deputies appointed and on hand to guard the vessel. This was effective until C. P. Lee telegraphed permission to the freight consignees to take off their goods, and this opened the way to everybody to get what they could, and the deputies had no further authority. Two Passengers Missing. The stern of the Santa Clara is breaking off and the ship will probably be in pieces in a few days. There are now only two passengers unaccounted for. They are G. Allen and Fred Jones. The latter is believed to be a Portland man, who has a family here, and a brother of Mrs. R. H. Glasgow of this city. The latter thinks the missing man is her brother, and is trying to ascertain from Portland if he started from there on the vessel.

Aid of the federal government to stop beach combers at Coos Bay from taking possession of goods floating ashore from the wrecked steamer Santa Clara was asked in a telegram received by United States Marshal Monday last night from L. A. Liljequist, district attorney of Coos county. In the telegram Liljequist says: "We cannot protect the cargo of the wrecked Santa Clara. Will you deputize Harry Kimball, customs officer of this port as a deputy United States marshal to protect the ship and cargo from beach combers? Also send a deputy from Portland at once."

ASTORIA'S CLAIM TO TERMINAL RATES IS DISCUSSED BY TEAL

Speaker Says That Portland Has Advantages That Must Be Protected.

Astoria's claim for railroad rates on a parity with Puget sound is just and should be granted by the Interstate Commerce commission, before which the issue is pending, said Joseph N. Teal, attorney for the traffic and transportation bureau of the Chamber of Commerce, in addressing a large meeting of Chamber of Commerce members last night. His remark, in brief, for this position was that if the Portland business community took action approving the Astoria rate case this city's rights and claims to a lower rate than either Puget sound or the mouth of the river would be compromised. He said that the railroad rate structure as at present constituted is based on the mountain haul from the interior to Puget sound. That Astoria's appeal for a parity rate is a petition for rates as low as the rates to Puget sound.

Ernest White Arnold died in Portland, Or., May 17 last. He named J. F. Yates, of Corvallis, Or., as trustee. Property worth \$30,000 in Alameda county is owned by the estate. A request of this nature in the form of a resolution had been addressed to the Chamber of Commerce by the Portland Realty board.

Directs Gems Be Thrown in Pacific Ocean

Will of Portland Man Orders Mother's Diamonds Be Thrown Off Yaquina in Her Memory.

Oakland, Cal., Nov. 6.—(P. N. S.)—Four diamonds set in a brooch, and worth more than \$1200, will be thrown into the Pacific ocean one by one, off Yaquina Bay, Or., in accordance with the last wish embodied in a will filed today for probate in the Alameda county superior courts. Ernest White Arnold died in Portland, Or., May 17 last. He named J. F. Yates, of Corvallis, Or., as trustee. Property worth \$30,000 in Alameda county is owned by the estate. A request of this nature in the form of a resolution had been addressed to the Chamber of Commerce by the Portland Realty board.

TREATMENT OF GIRLS AT INDUSTRIAL HOME PUT UNDER LIMELIGHT

Advisory Board to Investigate Foster Case—Crisis Declared to Be at Hand.

What is the matter at the state industrial school for girls at Salem? Are girls at the institution treated inhumanely? Mrs. Lola G. Baldwin, of the advisory board of the school, has called a meeting of the board for the purpose of arriving at answers to these questions. The board is composed of Mrs. Baldwin, Mrs. Arlene N. Fox of Portland and Mrs. W. H. Dancy of Salem, where the meeting will be held Monday. The immediate cause for calling the meeting was the treatment alleged to have been given Genevieve Foster, committed from Portland, by Mrs. E. N. Hopkins, superintendent of the school. The Foster girl and another escaped from the school a few days ago, and after their return Mrs. Hopkins placed them on a bread and water diet and put them to work in the laundry. But the Foster girl, according to Mrs. Hopkins' report to the board of control, refused to eat.

22 KILLED IN LOFT BLAZE IN BROOKLYN

More Than 1000 Persons in Six Story Building Which Catches Fire in Diamond Candy Co.'s Quarters; Girl Victims Are Caught.

68 ARE BADLY INJURED, SEVERAL CANNOT LIVE

Building Caves in Within 20 Minutes After Fire Is First Seen—Girl Factory Workers Roast to Death on Fire Escapes as Many Watch.

Brooklyn, N. Y., Nov. 6.—(I. N. S.)—Twenty-two persons are known to have met death here today in a fire which destroyed a six story loft building at 28 North Sixth street. Sixty-eight others were injured, several probably fatally. This was the information given out here by the police, who say that a thorough search of the still smoking debris will probably increase the death list to a score more.

More than 1000 persons were employed in the burned building, where the flames trapped scores in the plant of the Diamond Candy company, resulting in scenes of horror unequalled in New York since the Triangle Shirt Waist company fire. Crowds who thronged to the scene of the blaze were horrified by the sight of the bodies of roasting girls on the scant fire escapes of the structure. Eight girls were baked to death as they lay on the fire escapes in plain view of the enormous crowd which gathered at the blaze.

Many Killed Escaping. Many others died through leaping to the sidewalk and a steady stream of burning and injured were taken from the burning structure by ambulances which were rushed to the spot from all over the city. Firemen declare the building was a veritable firetrap. There were only two fire escapes and the stairways of the structure were of wood. Within 20 minutes after the flames were first observed, the building caved in. After the first burst of flame the fire spread with inconceivable rapidity. Escape by the stairs was cut off quickly and girls and men by dozens jumped from the upper windows or fell to the street overcome by the smoke and the terrific heat.

Stairway Turn Traps Many. The death trap was formed by the turn of a wooden stairway on the third floor. Here the fleeing girls and men jammed in a solid mass and several to death in the attempt to escape. The jam loosened and most of those in the angle escaped. The collapse of the building made it impossible to tell this afternoon just how many perished in this death trap.

LONDON GLOBE TAKEN OVER BY POLICE FOR ATTACK ON HALDANE

First British Paper Suppressed Since War Began Was Outspoken.

London, Nov. 6.—(I. N. S.)—The first British paper suppressed since the war began was ordered to close its doors today. This was the London Globe, one of the most outspoken of London's newspapers in its criticism of the government's policy and the conduct of the war. The suppression of the Globe is expected to initiate a government policy of severe restrictions of the newspapers, some of which are alleged to have given aid and comfort to the enemy by indiscreet publication.

Attacked Lord Haldane. London, Nov. 6.—(U. P.)—Police today raided the Globe offices and seized the plant and copies of papers of yesterday and today. The move was presumably because the Globe printed a bitter attack on Lord Haldane and declaring that Kitchener's resignation had been declined. Haldane's appointment to succeed him, the Globe said, would "jeopardize the government's life."

THE SEAMEN'S ACT The La Follette seamen's bill went into partial effect November 4. No single piece of legislation in recent years has created such a controversy as this act. The views taken by the supporters and opponents of the bill are set forth in an article that will be published in The Sunday Journal.

Federal Reserve Statement

MAHAN PUTS HARVARD BACK ON MAP BY HIS TOE; SCORE 10 TO 6

Princeton Beaten Largely by Kicking of Harvard Star—Tigers Get Field Goals.

Princeton, N. J., Nov. 6.—Tibbott's educated toe was unequal to the task of beating Harvard this afternoon and the Crimson downed the Princeton Tiger in their annual gridiron contest by a score of 10 to 6. A touchdown and goal in the first period gave the Cambridge team a lead which Princeton was never able to overcome. For good measure, Eddie Mahan, the Harvard captain, booted a goal from placement in the second period. The Tiger kicker, Tibbott, on whom (Concluded on Page Two, Column Six)

Wheat Ships Exempt From Requisition

Washington, Nov. 6.—(U. P.)—Exemption of wheat vessels from military requisition will be made by England, the state department was advised today.

The order applies only to British vessels loading in America before December 17. It is expected to increase shipments of wheat to the allies.

Mrs. Donald Mackay Died This Morning

Wife of President of North Pacific Lumber Company Was Prominent in Charity Work. Mrs. Donald Mackay, 63 years old, wife of Donald Mackay, president of the North Pacific Lumber company, a resident of Portland since 1871, died at the family residence, 61 North Sixteenth street, at 1 o'clock this morning. Her death was not unexpected, as she had been ill for several months. Mrs. Mackay, while connected with no charitable organizations, was well known for her acts in caring for unfortunate families. She often made it a point to learn of needy families and then personally see that they were provided for. She was born January 1, 1852, in Hamilton, Ontario, Canada. She was married there February 22, 1871, and a short time later came with her husband to Portland. Except for time spent in traveling she had been here continuously since 1871. Besides her widower she leaves a son, W. H. Mackay, and a daughter, Mrs. W. H. Skene. Two grandchildren, Donald Alexander Skene, now in school in the east, and Gene Mackay Skene, of Portland, also survive her. Funeral services will be held from the residence Monday afternoon with Rev. John H. Boyd, pastor of the First Presbyterian church, in charge of the services. Fallbearers have not yet been selected. Interment will be in River-view cemetery.

TOMORROW
