ONION MARKET HAS A DULL FEELING IN THE LOCAL TRADING

Sales Are Limited Since F. O. B. Prices Were Reduced to \$1 in the Country; Later Market Is Likely to Take All Offerings.

The market for onions is showing unusual dullness in the local trade with little outside movement since growers reduced their f. o. b. quotation to \$1 a cent at country points.

Present dullness in the onion trade is the direct result of the lowering of values by \$1.25 a cent. Some of the northern buyers who purchased at the higher figures are naturally regretting the unreasonable reduction in values, although all now agree that there was never any occasion for such a reduction in the price above the dollar mark.

Despite this bullish feeling, there is still very little demand for Oregon's crop which will be moved at all prices this season.

While in the end it is quite probable that there will be sufficient demand for Oregon onions at suitable prices to clean up all holdings here, still there is no doubt that the winter months will be a period of low prices for the crop.

INTERNATIONAL IS TO BE ORGANIZED BETTER THAN EVER BEFORE

Livestock Show at North Portland in December Expected to Eclipse All Previous Efforts; Portland Is "Court of Last Resort."

Everyone connected with the coming Pacific International Livestock exposition to be held at North Portland yards December 31-1, is busily engaged in arranging for the most successful show ever held in the Pacific Northwest.

The Pacific International has been called by stockmen the "court of last resort." Bred and bred-out animals and assembled stock which has won championship honors at other shows during the fall and winter months of the year, will be on display at this show which is an honor highly coveted by breeders.

The Pacific International is perhaps the only show in the United States given over strictly to the exhibition of livestock, there being no other animals of that class, wild or tame, or vaudeville features to take the attention of the visitors.
