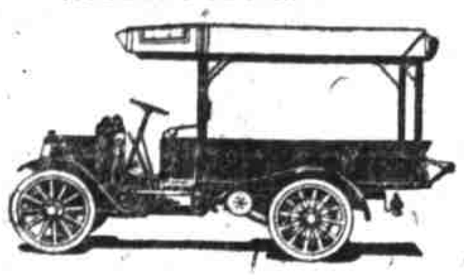
Rebuilt Federal Trucks



A Safe Used Truck to Buy

A REBUILT FEDERAL is as good value for the money as a new truck. By rebuilt we mean that the truck is entirely taken apart, each part examined and if necessary replaced by a new part made at the FEDERAL factory, the entire truck repainted and refinished, and everything necessary done to make the truck practically as good as new in every detail.

When you buy a rebuilt FEDERAL you are protected by the same policy and interest that we give to all FEDERAL owners. We operate a repair department, in which the workmen are specialists on FEDERALS, our supply of FEDERAL parts is complete, and the stock room organization high class, which insures the prompt filling of all parts orders. We also operate a service department, which is open day and night, "always at your call." The FEDERAL being a good truck in the first place and protected by a company which is equipped and has the disposition to give you service—is consequently

A SAFE USED TRUCK TO BUY.

If you are in the market for a truck from $1000 to $1400, we urge you to compare used FEDERALS with new trucks at similar prices. We think we can convince you of their superior value.
