

CZAR OF BULGARIA MUCH HATED AMONG THE FRENCH PEOPLE

And Yet They Attribute His Good Qualities to His Mother, a Frenchwoman.

HIS CAREER DISCUSSED

His Coburg Blood Held Responsible for All the Ill That Is Spoken of Him.

Paris, Oct. 9.—(By Mail).—Kaiser Ferdinand II is a popular idol in France today.

Ferdinand is the grandson of Louis Philippe of France, his mother, the Princess Clémentine, being a Frenchwoman.

"But what do you expect?" snarled the white-haired old French gentleman.

"I remember when Ferdinand learned that Prince Alexander of Bulgaria was kidnapped in the '80s.

"Ferdinand went to Sofia by river, in secret, at night, in August, 1887.

Stamboulief for rough work. Stamboulief, as premier, ruled with a brace of revolvers in his hands.

"Ferdinand found it convenient to remain much abroad. He visited King Edward, President Loubet, President Fallieres, and other rulers.

"The second gentleman took several slaps of a wonderfully potent Burgundy and a tiny bit of flavor enhancer.

"But Ferdinand made good, didn't he?"

"He began an unrecanted prince, whose throne and life weren't worth a sou-murke.

"Yes, that was the blood of Louis Philippe."

"And forced a hostile Russia to look at things his way.

"Well?" Plainly, the old gentleman was poking sticks at the animals.

"Well?" asked the other angrily. "You must be blind."

TESTIMONY TAKEN IN THE WILAMETTE VALLEY RATE CASE

Case is Now Ready for the Filing of Briefs and Later Argument.

EVIDENCE IS REVIEWED

Local Mills Claim Four Cent Differential Will Prove Injury to Their Lumber Business.

Taking of testimony in the Willamette Valley lumber rate case was concluded last night.

The case is one involving the relation of rates into the northern California territory from the Willamette Valley and from Portland.

The Southern Pacific, which was called upon to defend its action in changing the rate relation, contended that it was forced to put in a lower rate for the valley as a protection to the mills tributary to its lines.

Witnesses being closed down throughout the valley because of lack of business and other disadvantages that made inroads upon its tonnage, the railroad officials testified that they had made a systematic investigation beginning in 1912 and decided that the only way to remedy the evils was to alter the rates.

The Portland mills brought witnesses to show the lower rates from the valley would so much overcome the rates by water that had allowed them a foothold that they could no longer compete in northern California markets.

Before the testimony was all in, the whole rate fabric was under discussion, including rates on commodities of a different kind.

DID ANGLO-FRENCH ALLIES SLIP OVER ON THE STEEL TRUST?

Portland Man Bases Affirmative Answer on Sudden Soaring of Prices of Steel.

Did the Anglo-French allies "slip over" on the steel interests of the United States?

It begins to look as though that was just what happened, according to Portland steel men.

They base their conclusion on the soaring of steel prices the past few days. One local agent received a telegram from his eastern source of supply yesterday saying that the price had been advanced \$2 a ton for guaranteed mill shipments.

Another factor in the advance is that the steel situation is tight, and likely to be a lot tighter, said another local steel man.

But the reason for this immediate sharp advance, said W. H. Cullers, chief engineer of the Northwest Steel company, "is undoubtedly the enormous quiet buying of the allies."

Man Innocent or Else Trial May Prove a Mistrial

August Zahn Jr., driver of the automobile that struck and killed the Broadway bridge weeks ago tonight, is either not guilty or else his trial in Circuit Judge Gatens' court on appeal from a 10-day jail sentence given by Municipal Judge Stevenson was a mistrial.

Late last night the jury had not agreed after deliberating all day and one of them asked if nine could not bring in a verdict on the theory that a city charge does not constitute a criminal verdict of nine is legal.

JUDGE GATENS SAYS HE DID NOT EXPRESS ANY VIEWS ON FILMS

Motion Picture Censorship Is Discussed Before the Oregon Civic League.

SEVERAL SPEAKERS HEARD

Mrs. Colwell Declares New York People Unable to Pass Intelligently on Pictures to Be Shown Here.

When Mrs. A. C. Newell, chairman of the board of moving picture censors, read a purported newspaper interview given by Circuit Judge Gatens before the Oregon Civic league yesterday, the judge was quoted as saying:

"There is too much prudery about the censoring of pictures in Portland to suit me. Too much narrow mindedness and too much paternalism. There should at least be a board of appeals that exhibitors could be given a square deal in the matter of censorship."

Before Mrs. Newell had finished reading Judge Gatens' statement, a member of the audience, was on his feet protesting.

"I never gave any such interview," he declares. "When the reporter called on me I told him I wouldn't discuss the subject."

"I made no statement whatever, let alone that which I was quoted as having made. Furthermore, I want to say that some of the pictures which are exhibited in this city are unfit to be shown. They are harmful in their influence, and a shame to those who permit them. I consider those Keystone pictures unfit to be shown."

Dr. George Beboe of the University of Oregon accused the censor board of being too strict in their rulings. He said that the censor board has been charged by some exhibitors.

Isaac Swett said he thought there ought to be a board of appeal above the board of picture censors.

Postmaster Myers declared exhibitors should be compelled to provide ticket places for Jewish pictures.

Mrs. E. B. Colwell, secretary of the board of censors, presented a statement in behalf of censorship which was to have been answered by Paul G. Noble, district manager of the Metro Picture service, but Mr. Noble, without sending any explanation, failed to appear.

Mrs. Colwell gives figures. Mrs. Colwell said that from March to October, 3001 pictures and 524 reels were viewed by the censors, and of this number there were but 229 eliminations and 164 condemnations.

Ninety-nine per cent of the pictures condemned by the local board have been passed by the national board, she said.

She insisted a group of New York people come to Portland intelligently on the pictures shown here. She criticized the facilities afforded for the viewing and censoring of pictures, saying:

"It is either a cold, dimly lighted room, or one in which you have a free Turkish bath, or in a little room partitioned off and reeking with cigarette smoke."

Emphasizing the importance of censorship, she concluded:

"A bad motion picture does ten times as much harm among children as a bad book."
